### **AUTHORITY AND REFERENCE**

PC section 30520(c) gives the DOJ authority to “adopt those rules and regulations that may be necessary or proper to carry out the purposes and intent of this chapter,” which refers to Part 6,

Title 4, Division 10, Chapter 2 of the PC, entitled “Assault Weapons and .50 BMG Rifles” (hereinafter, “assault weapons law”). This chapter contains the statutory provisions restricting the possession, sale, and use of assault weapons, and PC section 30515 falls within Chapter 2.

#### INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

PC section 30515 contains specific characteristic definitions of assault weapons. The proposed regulation provides that the definitions of terms in section 5471 of CCR title 11, division 5, shall apply to the identification of assault weapons pursuant to PC section 30515. Section 5471 was previously promulgated by DOJ in support of the registration of a new class of assault weapons and states that assault weapons that do not have a fixed magazine, as defined in PC section 30515, including those weapons with an ammunition feeding device that can be readily removed from the firearm with the use of a tool, as provided in PC section 30900(b)(1). Section 5471 defines forty-four terms used in the identification of assault weapons pursuant to PC section 30515 or otherwise used in the section 5471 definitions themselves. Under the proposed regulation, these definitions would apply to the identification of assault weapons pursuant to PC section 30515, without limitation to context of the new registration process.

#### ANTICIPATED BENEFITS OF THE PROPOSED REGULATION

This regulation will provide detailed, concrete information regarding firearms that constitute assault weapons. Because the DOJ has already promulgated one set of definitions for this purpose, the adoption of those preexisting definitions for all purposes under the assault weapons law will ensure that a single set of definitions applies across the entire assault weapons law. The proposed regulation will promote efficiency within the DOJ, as well as provide uniform guidance on characteristics-based assault weapons to the public, the judiciary, district attorney’s offices, and law enforcement agencies throughout California. Additionally, by applying the definitions across the entire statute there will be no question that the same definitions are to be used for everything. Furthermore, this regulation will benefit the health and welfare of California residents by providing uniform guidance on assault weapons to the public, the judiciary, district attorney’s offices, and law enforcement, thereby supporting the enforcement of California’s Assault Weapons Control Act.

#### EVALUATION OF INCONSISTENCY/INCOMPATIBILITY WITH EXISTING STATE REGULATIONS

Pursuant to Government Code 11346.5(a)(3)(D), the DOJ must evaluate whether the proposed regulation is inconsistent or incompatible with existing state regulations. Pursuant to this evaluation, the DOJ has reviewed existing regulations pertaining to firearms within California Code of Regulations (CCR) title 11, division 5 and determined these proposed regulation is not inconsistent or incompatible. This determination is based on the fact that the proposed regulation adopts definitions that are already in use for the registration of a new class of assault weapons, and that were promulgated pursuant to the Department’s statutory authority to adopt regulations implementing the statutory requirement to register those weapons, as set forth in PC section 30900(b).

## MANDATED BY FEDERAL LAW OR REGULATIONS

## OTHER STATUTORY REQUIREMENTS
