RE: Proposed Amendment to Gaming Activity Authorization Regulations

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

RE: Proposed Amendment to Gaming Activity Authorization Regulations

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature: _____

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:  _____

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

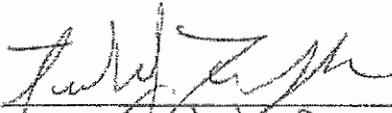

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature: _____

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:  _____

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Dear Ms. George,

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,

Signature:

I am writing to **OPPOSE** the proposed regulations that hinder California card rooms the ability to waive collection fees in controlled games. These proposed regulations will cause me to **LOSE MY JOB** as a vendor (TPPPS) to these clubs and put my family's future at risk.

If the Bureau requires that card rooms charge fees on every hand played, the card rooms will suffer a drastic decrease in revenue, causing TPPPS groups like Knighted Ventures to suffer losses and eventually lay off workers. California card rooms and TPPPS groups have provided safe, legal gaming while **contributing LIVING WAGE JOBS and VITAL TAX REVENUE**. Many of these jobs and most of the tax revenue will be lost if these regulations become law.

No other gaming business in California is forced by law to charge its customers a fee per wager, and there is no reasonable basis for the Bureau to institute this practice. History has shown that price controls **HURT CONSUMERS** and have no place in a progressive state like California. Please do not cede to the special interests proposing these regulations and let our card room set its pricing based on local market conditions.

Thank you for your consideration of this matter.

Sincerely,
