HOLD'EM

In Hold'em, all players receive two downcards as their personal hand, after which there is a round of betting. Three boardcards are turned simultaneously (called the "flop") and another round of betting occurs. The next two boardcards are turned one at a time, with a round of betting after each card. The boardcards are community cards, and after the final round of betting, a player may use any five-card combination from among the board and personal cards. A player may even use all of the boardcards and no personal cards to form a hand. This is called "playing the board".

Hold'em uses a flat disk called a dealer button to indicate the player who is in the dealer position for that hand (even though a non-playing casino employee is actually deals). The dealer button rotates clockwise. The player with the dealer button is last to receive cards on the initial deal and has the right of last action after the first betting round.

One or more blind bets are used to stimulate action and initiate play. Blinds are posted before the player looks at their cards. Blinds are part of a player's bet, unless the structure of a specific game or the situation requires part or all of a particular blind to be "dead". Dead chips are not part of a player's bet. The small blind is posted by the player immediately clockwise from the button, and the big blind is posted by the player two positions clockwise from the button.

Action is initiated on the first betting round by the player to the left of the blinds. On all subsequent betting rounds, the action begins with the first active player to the left of the button.

In non-tournament play, the button rotates one position clockwise after each deal. The button must move forward, and the blinds will be adjusted accordingly.

RULES OF HOLD'EM

Blinds

1. In Hold'em, all blinds are "live" (except for the "dead collection blinds"). If you post a blind, you have the option of raising the pot when it's your turn.
2. When there are two blinds in a game with three or more players, the smaller blind is to the immediate left of the dealer button. In heads-up play, the smaller blind is on the button.
3. A new player entering a Hold'em game, has the following options:
 - a. To wait for the big blind.
 - b. To post an amount equal to the big blind and immediately be dealt a hand.
 - c. To let the blinds and the button pass before posting an amount equal to the big blind and receiving hand.
4. As a new player, you cannot be dealt in when you're between the small blind and the button. You must wait until the button passes.
5. If you choose to post the big blind, the blind serves as your opening bet. When it becomes your turn to act, you can either call the action or you can raise.
6. In multiple-blind games, players must meet their blind obligations for every round they play. Players cannot have the button twice; the button always moves forward, and the blinds are adjusted accordingly.

7. If you miss any or all blinds, you can resume play by either posting the total amount of the blinds for that limit game or waiting for the big blind. If you choose to post the total amount of the blinds, an amount up to the size of the minimum opening bet is live, and the remainder in the pot as "dead money". When it becomes your turn to act, you may either call the action or you may raise.
8. Blinds may not be made up between the big blind and the button.
9. When a game starts, a new player will not be required to post a blind until the button has made one complete revolution around the table, provided a blind has not yet passed that seat. A player may also change seats without penalty provided a blind has not yet passed the new seat. However, a player who drew from the button is considered active in the game, and is required to make up both blinds if he or she misses a blind.
10. No live "straddle" bets are allowed.

IRREGULARITIES

11. If the first card off the deck is exposed on the deal, the dealer will place it back onto the deck, reshuffle, and re-cut the cards. If any other card is exposed due to dealer error, it will be replaced as follows: If a downcard is flashed or exposed due to dealer error, you may not keep the exposed card. After completing the hand, the dealer replaces the card with the top card on the deck, and the exposed card is then used for the burn card.
12. If the cards are prematurely flopped before the betting is complete, or if the flop contains too many cards, the boardcards are mixed with the remainder of the deck. The burn card remains on the table. After shuffling, the dealer cuts the deck and deals a new flop without burning a card.
13. Should the dealer turn the fourth card on the board before the betting round is complete, the card is taken out of play for that round and betting is completed. The dealer then burns and turns what would have been the fifth card in the fourth's card place. After this round of betting, the dealer reshuffles the deck, including the card that was taken out of play, but not including the burn cards or discards. The dealer then cuts the deck and turns the final card without burning a card. If the fifth card is turned up prematurely, the deck is reshuffled and dealt in the same manner.
14. In Hold'em, if the dealer mistakenly deals the first player an extra card (after all players have received their starting hands), the card will be returned to the deck and used for the burn card. If the dealer mistakenly deals more than one extra card, it is a misdeal.

PLAYING THE BOARD

15. You must declare that you are playing the board before you throw your cards away. Otherwise, you relinquish all claims to the pot.

OMAHA

Omaha is similar to Hold'em, except each player is dealt four downcards instead of two. In order to make a hand, a player must use precisely two whole cards with any combination of exactly three boardcards. The betting is the same as in Hold'em.

Omaha is often played high-low split, 8 or better. You may use any combination of two holecards and three boardcards for your high hand and another (or the same) combination of two holecards and three boardcards for your low hand.

RULES OF OMAHA

1. You must use two of the four holecards in your hand and three cards on the board to make a valid hand.
2. All the rules of Hold'em apply to Omaha except the rule on playing the board, which is not possible in Omaha.
3. All the rules governing "kill pots" are listed in the section on kill pots.

OMAHA HIGH-LOW SPLIT (8 or better)

Rules of Omaha High-Low Split (8 or better)

1. All the rules of Omaha apply to Omaha High-Low Split (8 or better)
2. A qualifier of 8 or better for low is required for all high-low split games, unless a specific posting to the contrary is displayed.
3. If there is no low hand, the high hand wins the entire pot.
4. You can use one combination of cards to make a high hand and the same or any other combination to make a low hand, as long as each hand uses exactly two holecards with three boardcards.
5. All other Hold'em rules apply.

PAI GOW POKER

THE OBJECT OF THE GAME: The object of the game is to set 7 cards received on the deal into two separate poker hands: a two-card front hand; and a five-card back hand. The object is to have both hands rank higher than the corresponding front and back hands set by the opponent(s). Note: The front hand may not rank higher than the back hand.

THE DECK: Pai Gow poker is played with a total of 53 cards (52 cards and the Joker). The joker is wild. When used in front it denotes a pair. How the game is played: The card game is dealt on a poker style table to seven (7) players. A house dealer controls the shuffling and dealing of the cards, the collection and the payoff.

The casino and its employees do not participate in the play of the hand nor do they have any interest in the outcome of the play.

One of the seven (7) players becomes the designated banker. The remaining players will each pay their hands against the banker hand. The banker is the only opponent. The banker is determined in a new game by starting at seat #1, continuing clockwise. Each player in turn has the opportunity to become the banker. As the banker, you have the option to be the banker for two consecutive hands.

A collection is taken for each wager before every hand begins. A dice cup containing three (3) dice is given to the banker to shake. The sum of the dice determines where to play the first pile or "action" hand. Each position is counted whether it has a wager on it or not, starting with the banker as 1, 8 or 15.

When the house dealer announces, "no more bets", the hand has begun, all bets are final and you may not touch your wager until the hand is completely over.

The players set their hands by making a two-card front hand and a five-card backhand. The five-card backhand must rank higher than the two-card front hand. They will then lay both hands face down separately next to their wager.

When the house dealer sees that all player's cards are down, he will announce, "all hands are set", at which time the players may not touch their cards for the remainder of the hand. The house dealer will reveal the banker cards and arrange the two hands the way the banker wants them to be set.

The house dealer will get a confirmation from the banker then proceed to open the action hand. In order for the player to win, both the two and five-card hands of the player must rank higher than both hands of the banker. If only one of the hands rank higher, it is a "push" and neither side wins. If one hand is identical in rank to the banker hand, that is a "copy", and the banker wins all "copy hands". If both hands rank lower than both banker hands, the player loses to the banker.

RAZZ

The lowest hand wins the pot. The format is similar to Seven-Cards Stud high, except the high card (aces are low) is required to make the forced bet on the first round, and the low hand acts first on all subsequent rounds. Straights and flushes have no ranking, so the best possible hand is 5-4-3-2-A (a wheel). An open pair does not affect the betting limit.

RULES OF RAZZ

1. The lowest hand wins the pot. Aces are low, and straights and flushes have no effect on the low value of a hand. The best possible hand is 5-4-3-2-A.
2. The highest card starts the action with a forced bet. If the high card is tied, the force bet is determined by suit from the highest to lowest; that is, spades, hearts, diamonds, clubs. The low hand acts first on all subsequent rounds. If the low hand is tied, the first player clockwise from the dealer starts the action.
3. Fixed-limit games use the lower limit on third and fourth streets and the upper limit on subsequent streets. An open pair does not affect the limit.
4. Dealers announce all pairs the first time they occur, except pairs of facecards, which are never announced.
5. All Seven-Card Stud rules apply in Razz except as otherwise noted.

SEVEN-CARD STUD

Seven-Card Stud is played with two downcards and one up-card dealt before the first betting round, followed by three more up-cards (with a betting round after each card). After the last downcard is dealt, there is a final round of betting. The best five-card poker hand wins the pot. In all fixed-limit games, the smaller bet is wagered on the first two betting rounds, and the larger bet is wagered after the betting rounds on the fifth, sixth and seventh cards. If there is an open pair on the fourth card, any player has the option of making the smaller or larger bet.

RULES OF SEVEN-CARD STUD

1. The first round of betting is initiated with a force bet by the lowest value up-card. A tie is broken by suit, with the lowest suit being the forced to bet. On subsequent betting rounds, the high hand on the board initiates the action. Ties are broken by position, with the player who received cards first acting first.
2. The player with the forced bet has the option of opening for all full bet.
3. Completing an opening forced bet does not count as a raise, but merely as a completion of the bet. For example: In \$15-\$30 Stud, the low card opens for \$5. If the next player to act brings the bet to \$15 (completion of the bet), three additional raises are then allowed.
4. In all fixed-limit games, when an open pair is showing on fourth-street (second up-card), any player has the option of betting either the lower or the upper limit. For example: In a \$5-\$10 game, if you have a pair showing and you are the high hand, you may bet either \$5 or \$10. If you bet \$5, any succeeding player has the option to call \$5, raise, \$5, or raise \$10. If a \$10 raise is made, then all other raises must be in increments of \$10. If the player who makes the open pair on fourth street checks, then all other players still have the same options.
5. In all games, the dealer announces the low card, the high hand, all raises, and all pairs. In limits of \$10-\$20 and higher, dealer do not announce possible straights or flushes.
6. If your first or second holecard is accidentally turned up by the dealer, then your third card will be dealt down. If both holecards are dealt up, you have a dead hand and receive your ante back. If your hand would have been the low hand, action will start with the first hand to your left. That player may either fold, open for the amount of the forced bet, or open for a full bet.
7. If you are not present at the table when it is your turn to act on your hand, you forfeit your ante and your forced bet if any. If you have not returned to the table in time to act on your hand, the hand will be killed in turn.
8. If you fold a hand after making a forced bet, or fold when there is no wager, your seat will continue to receive cards until a bet is made.
9. If you are all in for the ante and you have the lowest card, the player to your left may come in for the forced bet, make the maximum bet, or fold the hand.
10. If the wrong person is designated as low and that person bets, the action will be corrected to the proper lowcard, if at all possible. The true lowcard must bet, and the improperly designated lowcard may take back the incorrectly forced wager.
11. If the dealer burns two cards for one round or fails to burn a card, the cards will be corrected, if at all possible, to their proper positions. If this should happen on a final downcard and the cards intermingle with a player's holecards or a player looks at the card, the player must accept the card.
12. If a dealer burns and deals one or more cards before a round of betting has been completed, the card(s) must be eliminated from play, along with an additional card for each remaining player still active in the hand. After that round of betting has concluded, the dealer re-burns,

and play resumes. (The removed cards are held off to the side in the event the dealer runs out of cards). If the prematurely dealt card is the final downcard and has been looked at or intermingled with the player's other holecards, the player must keep the card. If there is further betting on sixth street, a player who has seven cards may not raise.

13. If there are not enough cards left in the deck for all players, the dealer will deal all the cards except the last card, which is mixed with the burn cards and any cards removed in the deck as in the previous rule. The dealer then scrambles and cuts these cards, burns again, and delivers the remaining down cards, using the last card if necessary. If there are not as many cards as players remaining without a card, the dealer does not burn, so that each player can receive a fresh card. If the dealer determines that there will not be enough fresh cards for all the remaining players, then the dealer announces to the table that a common card will be used. The dealer will burn a card and turn one card face up in the center of the table. This card plays in everyone's hand. The player who is now high using the community card initiates the action for the last round.
14. If you pick up your up-cards, and by doing so cause someone to act behind you (even in the heads-up situation), your hand is dead. This does not apply in check-check situation or a bet and call situation.
15. You must have seven cards to win at the showdown.
16. A card dealt off the table must play and it is treated as an exposed card.
17. If the dealer turns the last card face up to any player, the following rules apply:
 - a. If there are more than two players, all remaining players receive their last card face down. Prior to action for the round of betting, a player whose last card is exposed will have the option of participating or the wagering of being declared all-in.
 - b. If there are only two players remaining and the first player's final downcard is dealt face up, the second player's final downcard will also be dealt face up, and the betting proceeds as normal. In the event the first player's final card is dealt face down and the opponent's final card is dealt face up, the player with the exposed card will have the option of declaring all-in. This decision must be made prior to any action on that round.

In any of the above situations, the player who is now high on the board using all the up-cards will start the action.

18. If you call a bet even though you are beaten by an opponent's up-cards, you are entitled to a Refund.

7-CARD STUD HIGH-LOW SPLIT (8 OR BETTER)

Seven-Card Stud high-low split (8 or better) is a stud format game, which is played both high and low. A qualifier of 8-or-better for low applies to all high-low split games, unless a specific posting to the contrary is displayed. The low card initiates the action on the first round, with an ace counting as a high card for this purpose. On subsequent rounds, the high hand initiates the action. If the high hand is tied, the first player clockwise from the dealer acts first. Fixed limit games use the lower limit on third and fourth streets and the upper limit on subsequent betting rounds, and an open pair does not affect the limit. Aces may be used for high or low. Straights and flushes do not affect the low value of a hand. A player may use any five cards to make the best high hand, and the same or any other grouping of five cards to make the best low hand.

RULES OF SEVEN-CARD STUD HIGH-LOW SPLIT (8-or-Better)

1. A qualifier of 8-or-better for low applies to all high low split games, unless a specific posting to the contrary is displayed.
2. A player may use any five cards to make the best high hand and any five cards, whether the same as the high hand or not, to make the best low hand.
3. The low card by suit initiates the action on the first round, with an ace counting as a high card for this purpose.
4. Aces may be used for high or low, and straights and flushes do not affect the value of a low hand.
5. Fixed-limit games use the lower limit on third and fourth streets and the upper limit on subsequent rounds. An open pair does not affect the limit.
6. Splitting pots is only determined by the cards and not by agreement among players.
7. When there is an odd chip in the pot, the chip goes to the high hand. If two players split the pot by tying for both the high hand and the low, the pot shall be split as evenly as possible, with the player with the highest card by suit receiving the odd chip. When making this determination, all cards are used, not only the five cards that constitute the player's hand.
8. When there is one odd chip in the high portion of the pot and two or more high hands split all or half the pot, the odd chip goes to the player with the high card by suit. When two or more low hands split the half the pot, the odd chip goes to the player with the low card by suit.
9. All rules for Seven-Card Stud apply to Seven-Card Stud high-low split (8 or better) except as otherwise noted.

LOWBALL

Lowball is Draw Poker with the lowest hand winning the pot. Each player is dealt five cards face down, after which there is a betting round. Players are required to bet or fold. The players who remain in the pot now have an option to improve their hand by replacing cards in their hands with new ones. This is known as the draw. In limit poker, the best doubles after the draw (unless otherwise posted). The most popular forms of Lowball are ace-to-five Lowball (also known as California Lowball), and deuce-to-seven Lowball (also known as Kansas City Lowball). In ace-to-five Lowball, the best hand is 5-4-3-2-A and in deuce-to-seven Lowball, the best hand is 7-5-4-3-2, not of the same suit. For further description of the forms of Lowball, please see the individual section for each game.

RULES OF LOWBALL

All rules governing "kill pots" are listed in the kill pots section.

1. Cards Speak: Cards read for themselves. However, a verbal declaration in regards to a player's hand is binding. For example: If a player calls an "8", that player must produce at least an "8" low or better to win. If you miscall your hand and cause another player to foul his or her hand, your hand is dead. If both hands remain intact, the best hand wins. If a miscalled hand occurs in a multi-handed pot, the miscalled hand is dead, and the best remaining hand wins the pot. For your own protection, always hold your hand until you see your opponent's cards.
2. Any player spreading a hand with a pair in it must announce "pair" or risk loses the pot if it causes any other player to foul a hand. If two or more hands remain intact, the best hand wins the pot.
3. In ace-to-five Lowball, the best hand in any 5-4-3-2-A. Straights and flushes do not count against your hand.
4. The joker is considered to be the lowest card not present in your hand.
5. As a new player, you have two options:
 - a. To wait for the big blind.
 - b. To kill the pot(double the limit for that hand by posting double the amount of the blind).
6. A player who has less than half a blind may receive a hand. However, the next player is obligated to take the blind. In the event that the all-in player wins the pot or buys in again, the player will then be obligated to take the blind.
7. Half a blind or more constitutes a full blind.
8. If a player fails to take the blind, you may only be dealt in on the blind.
9. In multiple-blind games, if for any reason the big blind passes your seat, you may either wait for the big blind or kill the pot (provided no active player objects) in order to receive a hand. This does not apply if you have taken all of your blinds and changed seats, In this situation, you will be dealt in when your position, in relationship to the blinds, entitles you to a hand.
10. In limit ace-to-five Lowball, before the draw, an exposed card higher than a seven must be replaced after the deal has been completed. The first exposed card is used as the burn card. After the draw, an exposed card cannot be taken. The draw is completed to each player, in order, and then the exposed card is replaced. A flashed card before the draw is not treated as an exposed card. After the draw, all flashed cards are not considered exposed cards and replaced.
11. Any player may draw up to five consecutive cards.
12. Five cards constitute a playing hand; more or fewer than five cards after the draw constitutes a fouled hand. Before the draw, if you have fewer than five cards in your hand, you may receive additional cards, provided no action has been taken by the first player to act, unless that action occurs before the deal is completed. However, the dealer position may still receive a missing fifth card, even if the action has taken place. If action has been taken, you are entitled to the draw to receive the number of cards necessary to complete a five-card hand.

13. You may change the number of cards you wish to draw, provided:
 - a. No cards have been dealt off the deck in response to your request (including the burn card).
 - b. No player has acted on his or her hand based on the number of cards you have requested.
14. If another active player asks you how many cards you drew, you are obligated to respond until there has been action after the draw, and the dealer is also obligated to respond. Once there is any action after the draw, you are no longer obliged to respond and the dealer cannot respond.
15. In limit play, a bet and six raises is allowed in all multi-handed pots.
16. In limit play, check-and-raise is not permitted.
17. The minimum opening bet is the size of the large blind (unless otherwise posted). For example: In a \$30-\$60 limit game where blinds are \$10-\$20, and \$30, you open for \$30 or \$60 before the draw.
18. Rapping the table in turn constitutes either a pass or the declaration of a pat hand, depending on the situation.
19. In limit play, if you check on seven or better and it is the best hand, all action after the draw is void, and you cannot win any money on any subsequent bets. You are still eligible to win whatever existed in the pot before the draw if you have the best hand. If you check a seven or better and the hand is beaten by a better hand, you lose the pot and any additional calls you make.
20. In ace-to-five Lowball, in the event of an all-in bet that is less than half a bet, a seven or better may call this short bet after the draw and win. However, if another player overcalls this short bet and loses, the person who overcalls receives the bet back. If the seven or better fulfills his or her obligation by completing to a full bet, all subsequent betting action will stand.

RULES OF DEUCE-TO-SEVEN (KANSAS CITY LOWBALL)

In deuce-to-seven Lowball, otherwise known as Kansas City Lowball, the worst conventional poker hand wins. (An exception is that 5-4-3-2-A is not considered to be a straight, but rather, an A-5 high. So it beats other A-high hands and pairs). The game is played with a 52-card deck; no joker is used. Unlike California Lowball, straight and flushes do count against you, and an ace is considered as a high value only. Therefore, in this game, the best hand is 7-5-4-3-2, not all of the same suit. Check-and-raise is permitted on any hand.

RULES OF DEUCE-TO-SEVEN

The rules for deuce-to-seven Lowball are the same as those for ace-to-five Lowball, except for the following differences:

1. The best hand is 7-5-4-3-2-of at least two different suits. Straights and flushes count against the value of your hand, and aces are considered high only.
2. Before the draw an exposed card of 7,5,4,3, or 2 must be taken. Any other exposed card including a 6 must be replaced.
3. Check-and-raise is permitted on any hand after the draw.
4. A bet and six raises is allowed in any multi-handed betting round.

RULES OF NO-LIMIT AND POT-LIMIT LOWBALL

1. All the rules for no-limit and pot-limit Poker (see no-limit and pot-limit Poker section) apply to no-limit and pot-limit Lowball. All other Lowball rules apply, except as noted.
2. In no limit ace-to-five Lowball, the player must take an exposed card of A,2,3,4, or 5, before the draw and any other card must be replaced. In deuce to seven Lowball, a 2,3,4,5,or 7 must be

taken, and any other card including a 6 must be replaced. After the draw, any exposed card must be replaced.

3. After the draw, a player may check any hand without penalty.
4. Check-and –raise is permitted.

- If the player/dealer's hand qualifies and the player's hand is better than the player/dealer's is hand, the player is paid even money on the ANTE plus a bonus on the call BET according to the bonus payout schedule.
- If the player/dealer's hand qualifies and the player and the player/dealer have the same hand ranking, the remaining cards are taken into consideration and the highest hand wins. In the event that all cards are identical, the hand is tie and no action is taken.

Table Limits	Player/dealer	Player
\$5-\$ 50	\$ 1	50 c

4. This game does not use jokers.
5. The player /dealer position is been offered to all seated or active players in rotation from seat #1 from start of the game.. The player/dealer position rotates in a systematic and continues way so the deal does not constantly remain with a single person for many hands and avoid a bank game. The person in player/dealer position may not act as player/dealer position more than two consecutive times. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

8. Betting scheme: Each player plays a round by first making an Ante Bet. The player must then decide whether they are going to fold and forfeit their Ante Bet, or they must decide to play their hand and make a Call Bet which is 2 times the Ante Bet to finish their hand and stay in the game.

DRAW POKER (JACKS OR BETTER)

All five-card jacks-or-better Draw games require a pair of jacks or better to open the pot. The game is played with a 53-card deck, which includes the joker. The joker can be used either as or as any card that completes a straight, flush, or straight flush. All limit five-card Draw games have fixed-limit betting. There are two betting rounds, one before the draw and one after the draw. The betting limit after the draw is twice the amount of the betting limit before the draw.

In all Draw Poker games, check-and-raise is permitted, and a bet and six raises is allowed in multi-handed pots.

Note: A player who opens the pot in jacks-or-better must show the openers, whether the hand is called or not, in order to win the pot.

Five aces is the best possible hand (four aces and joker).

Rules of Draw Poker (Jacks-or-Better)

1. A pair of jacks or better is required to open the pot. If no player opens the pot, the button moves forward and each player must ante again, unless the limit of antes has been reached for that particular game.
2. If the opener should show false openers before the draw, any other active player has the opportunity to declare the pot opened. However, any player who originally passed openers is not eligible to declare the pot open. The false opener has a dead hand and the opening bet stays in the pot. Any other bet placed in the pot by the opener may be withdrawn, provided the action before the draw is not completed. If no other player declares the pot open, all bets are returned except the opener's first bet. The first bet and antes will remain in the pot, and all players who were involved in that hand are entitled to play the next hand after anteing again.
3. Any player who has legally declared the pot opened must prove openers in order to win the pot.
4. In all cases, the pot will play (even if the opener shows or declares a fouled hand) if there has been a raise, two or more players will call the opening bet, or all action is completed before the draw.
5. Once action has been completed before the draw, the opener may not withdraw any bets, whether or not the hand contains qualifying openers.
6. An opener may be allowed to retrieve his or her hand to prove openers at the floorman's discretion.
7. Any player may request that the opener retain the opening hand and show it after the winner of the pot has been determined.
8. You may split openers, but you must declare that you are splitting and place all discards under a chip to be exposed by the dealer after the completion of the hand. If you declare that you are splitting openers, but it is determined that you could possibly have had openers when your final hand is compared with your discards, you will lose the pot.
9. You are not splitting openers if you retain openers. If you begin with the ace, joker, king, queen of spades, and the ten of clubs, you are not splitting if you throw the ten of clubs away. You are breaking a straight to draw a royal flush, and in doing so, you have retained openers (ace, joker).
10. After the draw, if you call the openers bet and cannot beat openers, you will not get your bet back.
11. The joker may only be used as ace, or in straights, flushes, or straight flushes.

12. If the joker is used to make a flush, it will be the highest card of the flush not present in the hand.
13. Any player may draw up to five consecutive cards.
14. Five cards constitute a playing hand. More or fewer than five cards after the draw constitutes a fouled hand. Before the draw, a player having fewer than five cards may receive the additional cards necessary to complete his or her hand, provided no action has been taken by the first player to act (unless that action is before the deal is completed). However, the dealer position may still receive the fifth card even if the action has taken place. If action has been taken, a player may draw the number of cards necessary to complete a five-card hand.
15. If another active player asks you how many cards you drew, you are obligated to respond until there has been action after the draw, and the dealer is also obligated to respond. Once there is any action after the draw, you are no longer obliged to respond and the dealer cannot respond.
16. You may change the number of cards you wish to draw, provided:
 - a. No cards have been dealt off the deck in response to your request.
 - b. No player has acted in any way on his or her hand based on the number of cards you have requested.
17. Cards that are exposed face up by the dealer before the draw must be kept.
18. Cards that are exposed by the dealer on the draw cannot be kept. These cards will be replaced at the end of the draw.
19. Checking and raising is permitted.
20. A maximum of a bet and six raises is permitted in multi-handed pots.
21. You may not change your seat between hands when there are multiple antes or forfeited money in the pot.
22. Rapping the table in turn constitutes a pass, but rapping the table in turn also may mean the declaration of a pat hand. A player who indicates a pat hand by rapping the table, not knowing the pot has been raised, may still play his or her hand.
23. Even if you are all-in for just the ante (or part of the ante), you may declare the pot open if you have openers. If you are all-in and falsely declare the pot open, you will lose the ante money and may not continue to play on any subsequent deals until a winner is determined. Even if you buy-in again, you must wait until the pot has been legally opened and someone else has won it before you can resume playing.
24. You have the right to pay the ante (whether single or multiple) at any time and receive a hand, unless there is any additional money in the pot that has been forfeited during a hand in which you were not involved.
25. If an all-in player playing for just the antes has declared the pot open, all callers must come in for the full opening bet.
26. If you have only a full ante and no other chips on the table, you may play for just the ante. If no one opens and there is another ante, you may still play for that part of the antes that you have matched, without putting in any more chips.

ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The casino dealer stands opposite the players, and in the center of the table. The casino dealer's chip tray is set in front of the dealer. The play starts from the right of the dealer and proceeds in a clockwise fashion.
2. The game uses a 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 bonus cards (four of each "W", "X", "Y" and "Z"). The game is played with a minimum of a single deck, totaling 52 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed the collection fee for the players and Player/Dealer will also be displayed. A maximum of three collection rates is allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in a betting circle in front of their seat. That money will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino

will place a button in front of the Player/Dealer, which designates that they are taking the "bank position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his/her betting circle.

5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money, he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished before the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and drop them into a locked collection box affixed to the gaming table.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are face up, with the exception of the Player/Dealer's second card, which will remain "face down" until all players have acted on their hands. The casino dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clock-wise manner. Each player will be dealt one card face up with the Player/Dealer receiving the last card. The Player/Dealer's cards will be placed in front of the casino dealer.
8. The casino dealer will deal a second card to the players in the same order noted above. The players are given an opportunity, starting with the player seated to the left of the Player/Dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down, and surrendering will be outlined later)

9. Players must follow the below listed **Charts 1A and 1B** in deciding whether to hit or stand on a particular hand.
10. After all players have acted on their hands and indicated to the casino dealer that they do not want or cannot receive additional cards, the Player/Dealers down card will be turned up. This down card will determine where the "action button" is placed.
11. The "action button" determines where the action starts and who will be first to be paid for their winning hand or lose their wager. The action button is placed based on the numerical value of the Player/Dealer's down card. A chart (**Diagram #1**) outlining the placement of the action button follows.

DIAGRAM #1

EIGHT-HANDED TABLE

SEVEN-HANDED TABLE

12. The Player/Dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the Player/Dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.
13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action given to the affected players by the casino or the Player/Dealer.
14. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted below. See **Diagram #2**

DIAGRAM #2

15. After all wagers are settled, the cards are collected and discarded. The bank button is changed from 1st Bank to 2nd Bank and after every two hands, the Player/Dealer position is rotated in a clockwise fashion around the table.

16. The next round of play begins when the casino dealer collects all the cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clockwise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

PAN (Panguingue)

NUMBER OF PLAYERS: Several, Best for 6,7 or 8 players.

THE DECK: 320 cards, 8's, 9's, 10's and Jokers are omitted. Chips are used for settlement.

RANK OF CARDS: Cards in each suit rank K (high), Q, J, 7, 6, 5, 4, 3, 2, A. The jack and seven are in sequence. There is no rank of suits, except that Spades pay double in some cases (see Conditions).

THE DRAW: A portion of the deck is shuffled and spread face down. Each player draws a card. Lowest card deals FIRST hand. If two or more players tie for low, they draw again.

THE SHUFFLE: The player at dealer's left shuffles. After each hand, the discards are shuffled with a portion from the BOTTOM of the deck, to which position these cards are then restored.

THE DEAL: The rotation of dealing and playing is to the right, not to the left as in most games. The winner of each hand is the "winning" hand for the next and the player at his left deals. The dealer gives each player ten cards, in two rounds of five at a time, beginning with the player at his right. For the deal, he takes cards from the top of the deck, taking more if needed or restoring any excess to the top of the deck. The top card of the deck is laid face up beside the deck, to start the discard pile.

GOING ON TOP: Before play starts, each player beginning with the "winning" hand declares whether he will stay in the play or retire. If he retires, he discards his hand and pays a forfeit, usually two chips. Hands discarded by retiring players are not returned to the deck, but are set aside so they may not be drawn into play. The forfeits (called "tops") go to the player who goes out.

THE PLAY: Starting with players to the right of the dealer, each in turn draws one card, either top of the deck or the top card of the discard pile. If he takes the top card of the deck, he must immediately use it in a meld or discard it. He may draw from the discard pile only if (1) the top card of the discard pile was drawn from the deck and discarded by preceding player and (2) he can immediately meld this card in a combination.

After drawing and before completing his turn by discarding one card face up, player must meld as many sets as he holds, or add to his existing melds.

The object of play is to meld ELEVEN cards, and the first player to do so wins the game.

MELDS: Each meld (or spread) must be at least three cards, it may be as many as eleven. For convenience the melds are classified as sequences (usually called "ropes") and sets.

SEQUENCE: Any three cards of the same rank and of different suits, as Heart 4, Spade 4, Club 4; or of the same suit, as club QQQ. In addition any three aces or any three kings form a set regardless of suit, as Diamond A, Diamond A, Club A. (Aces and kings are called non-comoquers.)

CONDITIONS: Certain melds are called conditions. On melding a condition, the player immediately collects chips from every other player, as follows:

All threes, fives, and sevens are valle (pronounced valley) cards, that is "cards of value." Cards of other rank are non-valle.

The conditions are:

1. Any set of valle cards, not in same suit, 1 chip.
2. Any set of valle cards, in the same suit, 4 chips in spades, 2 chips in any other suit.
3. Any set of non-valle cards, in the same suit, 2 chips in spades, 1 chip in any other suit.
4. Any sequence of A, 2, 3, in the same suit, 2 chips in spades, 1 chip in any other suit.
5. Any sequence of K, Q, J, in the same suit, 2 chips in spades, 1 chip in any other suit.

INCREASING: A player may add one or more cards to any of his melds, provided the character of the meld is preserved. To a set of different suits he may add any card of the same rank, to a set of the same suit, another of the same rank and suit. When such cards are so added to a condition, the player collects the value of the original condition for each additional card, except that only half value is paid for addition to a set of three value cards in the same suit (2 chips in spades, 1 chip in any other suit).

One meld may be split into two by addition of cards, provided that two valid melds result. For example: Diamond J, 7, 6, 5 may be split into two melds by the addition of Diamond Q, 4. The advantage in splitting is to increase the number of open ends. If splitting a meld creates a condition, player collects for this condition, 2 chips in spades, 1 chip in any other suit. Example: The player has melded four 4's, one of each suit; by adding two more 4's of the same suit he makes two valid melds, one of them a condition.

BORROWING: A player may take a card from one of his increased melds to make a new meld, provided he leaves a valid meld. For example: from Club 7, 6, 5, 4, he may borrow either the 7 or 4, but not the six or five.

FORCING CARDS: If the top of the discard pile can be added to a meld of the player to whom it is available, any other player may, if he desires to, require the player to take that card. The purpose in forcing this draw on the player is to compel him to make a discard, thereby possibly breaking up a prospective combination.

GOING OUT: When a player shows eleven cards in melds, he collects 1 chip from every other player and also collects all over again for each condition in his cards. (Some play that a hand which has made no melds when another wins must pay 2 chips.)

When a player has all ten cards spread, the player at his left may not discard a card that puts his right hand opponent out, unless the player at the left has no other possible choice.

IRREGULARITIES: If, before he has made his first draw, a player finds he has less than ten cards, dealer will serve him the additional cards required from the center of the deck. If player has more than ten, dealer withdraws excess cards from player's hand, putting such cards among the discarded hands of retired players.

If player's hand is found incorrect after he has made his first draw, he must discard his hand, retire from that deal and return all collections he has made for conditions. In addition he must continue to make due payments to others for conditions and for winning.

INCORRECT MELD: If a player lays down any spread not conforming to the rules, he must make it valid on demand. If he cannot do so, he must return any collections made in consequence of the improper spread and legally proceed with his turn. If he has already discarded, he must return all collections he has made on that hand, discard his hand, and retire from the play until the next deal, but must continue to make due payments to others for conditions and winning. However, if he has made the meld valid before attention is called to it, there is no penalty.

SUMMARY OF THE GAME

The object of the game is to assemble two hands of two or three cards with a point value as close to nine (9) as possible. Aces count as one (1), picture cards as ten (10); all other cards count as their face value. Hands with cards whose sum is in double figures are ranked with the 10's digit removed. For example, a hand totaling 18 would count as 8 and a hand totaling 21 would count as 1. The game may be played with one (1) to eight (8) deck(s) of standard 52 cards with no jokers. The game may be played on a standard blackjack table which seats up to seven (7) players and a player/dealer position for a total of eight (8) or on a standard baccarat style table which seats up to thirteen (13) players and a player/dealer for a total of fourteen (14) seated players.

The house dealer deals two hands of two cards each, two cards to the right and two cards to the left, one by one in rotation. The hand to the left of the house dealer belongs to the Player/Dealer. One of the Player/Dealer's cards will be turned face up. The hand to the right of the house dealer belongs to the Players. The hands to the right of the house dealer are dealt face up and are community hands for all Players. The Player gets the first card, face up. The Player/Dealer receives the second card delivered face down.

RULES FOR PLAYER HAND

After totaling the first two cards, the Player hand must stay on six (6) or more and hit on zero (0) through four (4).

When having two cards totaling five (5) each individual player that wagered on the Player hand has the option of standing on 5 or taking a hit with a community card. Players deciding to stand will have a "stand on 5" plaque placed over their wager.

RULES FOR THE PLAYER/DEALER HAND

The Player/Dealer must hit on zero (0) through three (3) and stand on six (6) through nine (9).

If the Player/Dealer has either four (4) or five (5), on the initial two cards, the following applies

1. If the Player took a third card the Player/Dealer will hit if that third card is a two (2) through seven (7).
2. In all other cases the Player/Dealer will stay on four (4) and five (5).

SPREAD WAGER

Each Player will have the opportunity to place an optional Spread Wager. Spread Wagers can be placed upon either the Player or Player/Dealer hand. Players are wagering that the wagered upon hand will beat the other hand by four points or more. The payoff odds are as follows.

1. Winning by 4 points – 1 to 1
2. Winning by 5 points – 2 to 1
3. Winning by 6 points – 4 to 1
4. Winning by 7 points – 6 to 1
5. Winning by 8 points – 10 to 1
6. Winning by 9 points – 30 to 1
7. Winning by 3 points or less – Spread Wager loss
8. Ties (non-natural) – Spread Wager loss
9. Losing to the other hand – Spread Wager loss

If the wagered upon hand is a natural (8 or 9 on the first two cards) and beats the other hand the Spread Wager is an automatic winner and is paid even money. If both hands are naturals (8 or 9 on the first two cards) and tie, the Spread Wager will push. There will be no Spread Wager payoff if neither the Player/Dealer nor the Player takes a third card.

The player/dealer will pay all winning spread bet wagers and will collect all losing spread bet wagers. Wagers are collected or paid to the extent that the player/dealer wager covers.

TIE WAGER

Players are also given the option of placing a tie wager. To win this wager the Player and Player/Dealer's total, upon completion of the hand, must be the same. For example, if both the Player and Player/Dealer's hand total is seven (7), upon completion, the hand is a tie and all Tie Wagers win. In all other cases, where the totals upon completion are not equal, Tie Wagers lose. Winning Tie Wagers are paid 10 for 1.

The player/dealer will pay all winning tie bet wagers and will collect all losing tie bet wagers. Wagers are collected or paid to the extent that the player/dealer wager covers.

ACTION ORDER

An Action Button determines which player receives first action on their wager. The placement of the Action Button is determined by the Player/Dealer's hole card. Using the Player/Dealer's hole card when it is turned over, starting with the seat to the left of the house dealer, continuing in clockwise fashion, while skipping over the Player/Dealer seat, the Action Button is placed using the following.

Player/Dealer (seat 1)

Seat 2 – Ace or eight

Seat 3 – Two or nine

Seat 4 – Three or ten

Seat 5 – Four or Jack

Seat 6 – Five or Queen

Seat 7 – Six or King

Seat 8 – Seven

If the Player/Dealer is in any other seat, that seat will be skipped when determining the placement of the Action Button. For example, if the Player/Dealer is in Seat 5, Seat 1 would get the Action Button if an Ace or eight is the hole card and Seat 6 would get the Action Button if it is a four or Jack. Action starts with the player in the seat with the Action Button and continues in clockwise fashion until the Player/Dealer's money runs out.

LEGAL

The Player/Dealer position must rotate in a continuous and systematic fashion, and cannot be occupied by one person for more than two consecutive hands. There must be an intervening Player/Dealer so no person can continually occupy the position and the “bank” hand within the meaning of **OLIVER V. COUNTY OF LOS ANGELES** (1988) 66 Cal. * “BONUS” card is worth 10, except when dealt with an Ace on the first two cards of the initial deal, whereupon, it will be worth 10.5 and the hand a Pure 21.5 Blackjack.

ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The casino dealer stands opposite the players, and in the center of the table. The casino dealer's chip tray is set in front of the dealer. The play starts from the right of the dealer and proceeds in a clockwise fashion.
2. The game uses a 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 bonus cards (four of each "king", "queen", "jack" and "ten"). The game is played with a minimum of a single deck, totaling 52 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed the collection fee for the players and Player/Dealer will also be displayed. A maximum of three collection rates is allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in a betting circle in front of their seat. That money will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the Player/Dealer, which designates that they are taking the "bank position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his/her betting circle.
5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money, he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished before the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and drop them into a locked collection box affixed to the gaming table.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are face up, with the exception of the Player/Dealer's second card, which will remain "face down" until all players have acted on their hands. The casino dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a

side-to-side hand motion, indicating the desire to stand. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clockwise manner. Each player will be dealt one card face up with the Player/Dealer receiving the last card. The Player/Dealer's cards will be placed in front of the casino dealer.

8. The casino dealer will deal a second card to the players in the same order noted above. The players are given an opportunity, starting with the player seated to the left of the Player/Dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down, and surrendering will be outlined later)
9. Players must follow the below listed **Charts 1A and 1B** in deciding whether to hit or stand on a particular hand.
10. After all players have acted on their hands and indicated to the casino dealer that they do not want or cannot receive additional cards, the Player/Dealer's down card will be turned up. This down card will determine where the "action button" is placed.
11. The "action button" determines where the action starts and who will be first to be paid for their winning hand or lose their wager. The action button is placed based on the numerical value of the Player/Dealer's down card. A chart (**Diagram #1**) outlining the placement of the action button follows.
12. The Player/Dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the Player/Dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on. Furthermore, all base game wagers will be settled first, beginning with the action button and continuing in a clockwise manner around the table, then once all base game wagers have been settled, all bonus bet wagers will be settled, starting with the action button and continuing in a clockwise manner around the table.
13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action given to the affected players by the casino or the Player/Dealer.
14. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted below. See **Diagram #2**

DIAGRAM #1

DIAGRAM #2

15. After all wagers are settled, the cards are collected and discarded. The bank button is changed from 1st Bank to 2nd Bank and after every two hands; the Player/Dealer position is rotated in a clockwise fashion around the table.
16. The next round of play begins when the casino dealer collects all the cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clockwise to the next position on the

table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

1. A PURE 21.5 BLACKJACK (an Ace and a Bonus card) is the best possible hand. If the player and the Player/Dealer's hand are both PURE 21.5 BLACKJACK the hand is a push or tie, and no action is taken on the wager.
2. If the Player/Dealer does not have a Pure 21.5 Blackjack, the Players will be given the option to draw to improve their hands, in accordance with Chart 1A above. The Player/Dealer's down card will be checked, by the casino dealer for a "Pure 21.5 Blackjack" when the Player/Dealer's first or up card is an Ace or Bonus Card.
3. After all Players have been given a chance to act on their hands, the Player/Dealers hand will be completed in accordance with Chart 1B.
4. If a Player's total is less than a "Pure 21.5 Blackjack" and the Player/Dealer's total is more than a "Pure 21.5 Blackjack", the Player wins the hand.
5. If a Player's total is more than a "Pure 21.5 Blackjack" and the Player/Dealer's total is less than a "Pure 21.5 Blackjack", the Player loses the hand.
6. If a Player and the Player/Dealer have the same total and it is less than a "Pure 21.5 Blackjack", the hand is a push or tie. No action is taken on the wager.
7. If a Player's total and the Player/Dealer's total are less than a "Pure 21.5 Blackjack", the hand closest to a "Pure 21.5 Blackjack" will win.
8. If the Player and Player/Dealer total is more than a "Pure 21.5 Blackjack", then the Player/Dealer wins except when the Player/Dealer's hand has three eights (8-8-8) which in this case will be a "push".
9. The game is played on an industry standard Blackjack table where up to eight primary players can be seated.

The Player/Dealer position must rotate in a continuous and systematic fashion, and cannot be occupied by one person for more than two consecutive hands. There must be an intervening Player/Dealer so one person cannot continually occupy the position and the “bank” hand within the meaning of **OLIVER V. COUNTY OF LOS ANGELES** (1988) 66 Cal. App. 4th 1397, 1408-1409. And in addition to the meaning of AB 1416 (the Wesson Bill) which added section 330.11 to the California Penal Code relating to the California licensed gambling establishments and any future regulatory guidelines from the California Department of Justice, Division of Gambling Control, with respect to the operation of a controlled game featuring a Player/Dealer position.

10. All collection fees will be collected by the casino dealer, prior to the start of play. Collection fees will be determined by the casino and can be up to three separate rates per game.
11. All collection rates and wagering limits will be posted at the table. They will not be based on any percentage.
12. Backline betting is allowed; subject to local ordinance or code.
13. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code, are permitted to play.

DOUBLE-DOWN, SPLIT, SURRENDER, AND INSURANCE

1. Players can split cards of the same value or two “BONUS” cards. The player must place a second wager equal to the original wager. Players cannot split for less. Players may then draw as many cards as desired per split card to achieve the best possible hand of 21.5.
2. When splitting two Aces, a player may only receive one additional card per Ace. Aces may only be split once, which gives the player two hands. If the draw card is a “BONUS” card after splitting two Aces, the player will be paid even money on their wager, not 6 to 5.
3. A maximum of 3 splits is allowed per hand, giving a player up to 4 hands. Doubling-down is permitted after splitting.
4. Players can surrender after their first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate their desire to surrender before the Player/Dealer’s down card is exposed. Their play for the hand will then cease.
5. Players can double-down on the first two cards dealt to them. The player must place a second wager which may be equal to or less (double down for less) than the player's original wager. The player will only receive one additional card, regardless of the total.
6. If the player-dealer’s up-card is an ace, all players will have the option to place separate “insurance” wager. They are wagering that the player-dealer’s undercard is

a 'bonus' card giving the player-dealer a 'Pure 21.5 Blackjack.' Winning insurance wagers are paid two to one (2 to 1). Insurance wagers may be equal to no more than half of a player's original wager.

7. The casino will take no extra collection fee on double downs or splits from the player or Player/Dealer.
8. All payoffs are to the extent that the Player/Dealer's money covers the action on the table. A Player/Dealer cannot win or lose more than the entire amount of money placed on the table before the start of the hand.

RED FLEX BONUS BET

Each player wagering in the base game of Pure 21.5 Blackjack has the option of placing a wager within table limits on the designated Red Flex Bet spot located next to each player's position on the gaming felt layout. Standards of play:

Ultimate Texas Hold'em features head-to-head play against the player/dealer and optional bonus bets.

The player/dealer position will be selected as in other games approved by the Bureau of Gambling Control; and the player/dealer will only "bank" the hand (including bonus bets) for two (2) consecutive times before it is offered in a clockwise fashion around the gaming table.

Players and the player/dealer each receive two cards. They combine them with five community cards to make their best five-card hand. The object of the game is for players to form a five (5) card poker hand that ranks higher than the player-dealer's five (5) card poker hand. The player's and the player-dealer may use any combination of the two (2) hole cards dealt to them and the five (5) community cards, or they may "play the board" and use no hole cards, to make the highest ranking five (5) card poker hand, according to the rankings as shown below.

Ultimate Texas Hold'em lets players bet aggressively. The earlier they bet, the more they can risk and win. If players bet pre-flop, they may risk 3x or 4x their ante. If they bet on the flop, they may bet 2x their ante. If they wait until the river, when all community cards are out, they may only bet 1x their ante.

This game also features optional bonus bets, the Trips bonus and Bad Beat bonus. Players win the Trips bonus if their final five-card hand is three of a kind or higher and bad beat bonus if either the player or player/dealer is beaten by three of a kind or better. Odds will be printed on layout.

Detailed description of game

Standards of play:

The object of the game is to set the thirteen cards received on the deal into three hands that will rank higher than the three hands set by the other active players at the table. The player must arrange the hand according to the three-five-five-card formation. The front hand may not rank higher than the middle hand; the middle hand may not rank higher than the back.

Type of card deck:

Chinese Poker is played with one standard 52-card poker deck and no joker.

Dealing procedures:

The casino dealer deals the cards as one at a time into four different piles. The piles are then distributed to the players. Cards will be dealt 4 hands with 13 cards each. This procedure will occur until 4 stacks of cards are dealt, each stack containing 13 cards. Once the 4 hands have been dealt, the first hand on the casino dealer's left will be dealt to the player with the dealer button and the action button. The dealer button and action button will rotate clockwise each round of play.

Number of players:

The game allows up to five (5) seated players. However, in a 5 handed game, only four players will receive a hand will be actively playing. The fifth player will become eligible during the next round of play when the action button and dealer button rotates. The fifth player may also be eligible to participate provided that one of the 4 hands chooses not to participate during that round of play. Also, if there are only two players at the table, they will have the option of playing two hands each. However, if both players do not agree to play two hands, each player will only receive one hand. The settling of hands will follow the same guidelines below.

How and when are house fees collected:

By the house at the change of each dealer per down.

Collection Procedure:

Flat fees on each wager may be assessed at different collection rates; but no more than five (5) collection rates may be established per table.

Table Fee- house fee collection

A collection fee will be taken from each player per dealer down, which is every 20 minutes of play. The dealer shall finish their current hand, and then request the appropriate collections from each player before any cards are dealt or before another round of play is conducted. The appropriate fees are dependent on the number of players seated and participating in the play of the game at the time the collection is to be taken.

What is the betting scheme:

The limit of the game indicates the wager being played for; each hand basically represents one (1) point which is equivalent to the money value of the game's limit. i.e., in a \$5.00 limit game each point would have a money value of \$5.00.

* Clean sweep hands with same value are pushed. Clean sweep hands with higher value will be paid full of amount winning value, not deducted. Clean sweep hand must be announced before any cards are turned over. In the situation where a player has 2 clean sweeps in one hand; they will be paid the higher value only. Clean sweep hands will be paid before all regular hands are compared, starting with the player with the action and dealer buttons and moving clockwise. Once the "clean sweep" hand has been paid, all hands will be compared according the rules above.

When a player declares a "Clean Sweep" hand, the casino dealer will verbally confirm this with the player. Once confirmed, the dealer will place a marker on the top of the hand. The "Clean Sweep" hand will be viewed first on the showdown and the player collects its value first. If more than one player has a "clean Sweep" hand the higher ranking "Clean Sweep" hand will collect the total point value for that hand; the point value for the lower ranking "Clean Sweep" hand will not be subtracted. If two "Clean Sweep" hands have the same ranking, it is a tie. No money is exchanged between these two players, but they still may collect from the other players. Conversely, if a player sets their front, middle, and back hands and after cards are exposed, it is determined that the hand qualified as a "Clean Sweep" hand, it will be played as a regular hand and will not qualify for the "Clean Sweep."

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The player line which pays 1 to 1;
- The banker line which pays 1 to 1;
- The Tie Bet, which pays 8 to 1;
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Dragon 7 Bonus Bet, which pays 40 to 1.
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Panda 8, which pays 25 to 1.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

When dealing the seven piles of seven cards, the casino dealer shall deal one card at a time to in front of them until there are seven cards, starting from left to right. Once there are seven cards laid out, the casino dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed in the discard pile.

- ❖ Once cards have been stacked, the Player-dealer randomly selects which pile will be distributed to the first player who receives the "Action" button. The casino dealer identifies the hand by placing a button marked "Action" on this pile by pushing it forward and turning the pile behind it side ways.
- ❖ To determine the placement of the "Action" button, the Player-dealer shakes a Dice Cup containing three standard dice. The sum of the dice indicates to which seat the first pile of seven cards will be distributed. The Player-dealer's position is always one, eight, and fifteen. Other seats, in clockwise rotation, respectively represent the other numbers. If the numerical total of the dice are one, eight, or fifteen, the Player-dealer shall receive the first set of cards and the player to the left of the Player-dealer shall receive the "Action" button. Wagers shall be settled in a clockwise manner around the table, starting with the player with the "Action" button. Furthermore, all wagers shall be settled from seat to seat in the following order: the Fortune Pai Gow Poker game wager, then the Fortune Bonus Bet wager, and then the Envy Bonus. Once the Player-dealer's wager has been exhausted, the wagers not covered by the Player-dealer shall be returned to the respective players.
- ❖ Once the "Action" button position is determined, the casino dealer shall distribute the seven piles of cards, starting with the pile that has the "Action" button and continuing clockwise around the table. All seven piles of cards will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed. Pure Spanish 21.5TM

Masque Publishing, Inc.

U.S. Patent 5,615,888, 5,806,846

OBJECT OF THE GAME

The object of Pure Spanish 21.5 is for the players and the player-dealer to add the numerical value of their cards and:

- Achieve the best possible point total of 21.5 by getting a King, Queen, or Jack Bonus Card and an ace on the initial two cards dealt (Example King Bonus Card below). This hand is called a Pure Spanish 21.5 Blackjack and pays 6 to 5.

- Get as close to 21.5 as possible, without going over.
- Draw additional cards if needed.

VALUE OF THE CARDS

The game uses a 48-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 12 cards specially marked with the word "Bonus" (four of each "king", "queen", and "jack" cards). All 10's shall be removed from each deck. The game shall be played with five decks.

- A King, Queen, or Jack Bonus card and an ace, on the initial deal, is the best possible hand. It is known as a "Pure Spanish 21.5" and pays 6 to 5.
- A King, Queen, or Jack Bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, Queen, or Jack Bonus cards have a value of 10 unless dealt with an Ace on the initial deal, and then they have a value of 10.5.

ROUND OF PLAY

1. Pure Spanish 21.5 is played on a raised gaming table. The table seats up to eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer's chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection fee for the players and player-dealer shall

also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.

3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that they are taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection fee based on the posted schedule for the card room. Prior to the start of play the house dealer will take collection fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand.
7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.
8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up. This down card will determine where the "action button" is placed.
9. The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's second card, which is dealt face-down, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat

designated by the action button and continue in a clockwise manner until all wagers have been acted on.

11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray. The placement of the player-dealer's cards is standard in all games and is depicted below. See **Diagram #1**
13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

DOUBLE-DOWN, RESCUE, DOUBLE-DOUBLE DOWN, SPLIT, AND SURRENDER

2. After doubling, if a player is dissatisfied with his/her non-busted hand, he/she may "rescue" (take back) the last doubled portion of the bet and forfeit the remainder of the wager. Their play for the hand will then cease.
3. If the player-dealer hits on a soft 17, the casino may allow an option known as "double-double down." If the casino allows the double-double down option, once a player elects to double and receives a double card, the player then has the option to double-double down (double his total wager again), rescue the last doubled portion of the bet, or stand. A player may double the total wager up to three times, once via double down and twice via double-double down, creating a maximum wager up to 8 times the original wager. After doubling a third time and receiving a double card, a player only has the option to stand or rescue. When a player "rescue" (take back) the last doubled portion of the bet and forfeit the remainder of the wager. Their play for the hand will then cease.
 - a. Important: The "double-double down" option is not available to the player when the player-dealer stands on all totals of 17. Doubling for less is only allowed if the double-double down option is not allowed. In other words, when the double-double down option is allowed there is no doubling for less.
4. Players can split any pair or two cards of the equal value, including aces and Bonus cards. The player must place a second wager equal to the original wager. The player may draw as many cards as desired per split card. There is no splitting for less.
5. A maximum of three splits is allowed per hand, giving a player up to 4 hands. Doubling-down is permitted after splitting.

6. Players can surrender after the first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate their desire to surrender before the player-dealer's down card is exposed. Their play for the hand will then cease.
7. Late surrender option:
 - a. Players will have to option to surrender after the dealer has checked for Pure Spanish 21.5 Blackjack. If the player-dealer has Pure Spanish 21.5 Blackjack, the hand is over there will be no draw; the player will not have the option to surrender.
 - b. If the player-dealer does not have Pure Spanish 21.5 Blackjack the player will have the option on their original first two cards dealt to them to surrender, whereas half of their wager will be forfeited. The player must indicate their desire to surrender before the player-dealer's down card is exposed. Their play for the hand will then cease.
8. The casino will take no extra collection fee on double downs or splits from the player or player-dealer.
9. All payoffs are to the extent that the player-dealer's money covers the action on the table. A player-dealer cannot win or lose more than the entire amount of money placed on the table before the start of the hand.

1. In addition to the regular base game wager, casinos may offer a Match the Dealer Up-Card bonus wager

Collection Schedules and Fees

Although the Bureau has approved these collection rates, games offering a zero collection are currently under Bureau review. The Bureau has the right to: (1) review the lawfulness of the CA Games Collection Rates; (2) notify all law enforcement agencies and gambling establishments if further review determines that the CA Games Collection Rates are unlawful; (3) require gambling establishments to cease and desist offering the CA Games Collection Rates, if found unlawful; and (4) take action against those gambling establishments that decline to abide by the Bureau's cease and desist notification.

For **schedule options 1 and 2** a collection fee is taken per hand from the player-dealer based on the total table action, which is the total monetary value of all wagers that are initially placed on the table by players prior to the start of any play of hand or round. The total table action does not count any additional wagers placed by players after cards are dealt such as double-downs, split cards, insurance wagers, or even money wagers. There shall be no collection fee taken from the player when placing any wager. The collections are not calculated as a portion of wagers made or winnings earned. The collection fees shall be pre-determined and conspicuously posted on each table prior to any cards being dealt or a round of play commencing. Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Rates may not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table. The approved collection fees and schedules for the game of Pure Spanish 21.5 are as shown below:

Betting scheme:

1. All wagers in Crazy 4 Poker shall be made by placing gaming chips on the appropriate betting areas of the table layout keeping in mind the table minimum and maximum wagering limits.

3. At the beginning of each round of play, each player shall be required to place an ante wager and super bonus wager. Each player will have the option to place a play wager, after inspecting their hand, which must be equal to the ante wager.
 - a. **Super Bonus** – The Super Bonus wins when the player gets a straight or better. However, failure to get at least a straight does not result in an automatic loss of the Super Bonus.
 - i. Wins: When the player has a straight or better. Hands of straight or better always receive Super Bonus payouts. When the player has a straight or better but loses to the player-dealer's **qualifying** hand, he still receives Super Bonus payouts and the original wager stays on the layout.
 - ii. Losses: When the player has less than a straight and loses to the player-dealer's qualifying hand.

2. The dealer shall wait for each player to place their ante bets, super bonus bets, and any Queens Up bonus bets. After each player has had the opportunity to place his/her bonus bet, the dealer will announce "No more bets."
 - The shuffler deals the cards in stacks of five. The dealer shall deliver the first stack of cards dealt by the shuffler to the player to the left of the player-dealer. As the remaining stacks are dealt by the shuffler, the dealer shall deliver a stack in turn to each of the other players, including the player-dealer, moving clockwise around the table. The dealer shall deliver each stack face down. The stack given to the player-dealer shall be delivered face down.
3. After the stacks have been dealt and delivered to each player and the player-dealer, the dealer shall unload the remaining cards in the shuffler and place them into the discard rack without exposing the cards. This will also initiate shuffling the deck for the next round of play.

Round of Play

1. After the dealing procedures above have been completed, each player shall examine his/her cards.
2. Each player who wagers in Crazy 4 Poker shall be responsible for his/ her own hand and no person other than the player or the dealer may touch the cards of that player. Each player shall be required to keep his/ her five cards in full view of the dealer at all times.

The dealer shall offer this option to each player, starting with the player to the left of the dealer and moving clockwise around the table in order. Backline Betting is not allowed.

 - ii. If the player's hand is higher than the dealer's, the play and ante bets are paid even money.
 - iii. If the player-dealer's hand beats the player's hand, the player loses.
 - iv. If the player-dealer's hand and the player's hand are equal in rank and value, the hand is considered a tie and the Ante and Play wagers shall push and be returned to the player.
 - v. Reconcile the Queens Up and Super Bonus as normal.
6. All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute.
7. All action shall begin with the player to the left of the player-dealer position, moving clockwise around the table. No action button shall be utilized. Wagers will be settled in the following order from player to player: the Ante wager, then the Play wager, then the Super Bonus wager (if placed), then the Queens Up wager (if placed). The player-dealer will first collect all losing wagers and then pay all winning wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.
8. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as a

player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

9. The player-dealer position rotates in a systematic and continuous way among the seated players, and no one player may serve as the player-dealer for more than two consecutive hands. The player-dealer button rotates clockwise around the table.

Collection Schedule:

Although the Bureau has approved these collection rates, games offering a zero collection are currently under Bureau review. The Bureau has the right to: (1) review the lawfulness of the Collection Rates; (2) notify all law enforcement agencies and gambling establishments if further review determines that the Collection Rates are unlawful; (3) require gambling establishments to cease and desist offering the Collection Rates, if found unlawful; and (4) take action against those gambling establishments that decline to abide by the Bureau's cease and desist notification.

For **schedule option 1**, there shall be no collection taken from each player for placing any base wager or bonus bet. The collection fees shall be taken per hand, from the player-dealer position based on the total monetary value of all game wagers and bonus bet wagers that are placed by players before the cards are dealt, referred to as total table action. The collection fees shall be pre-determined and conspicuously posted on each table prior to any cards being dealt or a round of play commencing. Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Rates may not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table limit. The approved collection fees and schedules for the game of Crazy 4 Poker are as shown below:

Fortune 7 Baccarat

Type of Game

The game of Fortune 7 Baccarat utilizes a player-dealer position and is a California game. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. A player shall only remain in the player-dealer position for two consecutive rounds of play before it is offered in a clockwise fashion around the gaming table. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of the game is to place a bet on the hand, either player or banker, that will have an accumulated point value closer to nine than the other hand.

Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards may be dealt using either a multiple deck "shoe" or an automated shuffling machine. In either case, eight decks shall be used.

Card Values and Hand Rankings

The value of each card used in Fortune 7 Baccarat shall be as follows: aces have a value of one, picture cards have a value of ten, and all other cards have their face value. When the total numerical value of the cards equals ten or more, only the right-hand digit (numeric count) is considered. The ranking of hands for Fortune 7 Baccarat, in order from highest to lowest rank, shall be:

Hand Dealt	Hand Requirements
Natural 9	A two card hand that has a value of nine. A Natural 9 shall only be achieved when the first two cards dealt to a hand is valued at nine, according to the rules above.
Natural 8	A two card hand that has a value of eight. A Natural 8 shall only be achieved when the first two cards dealt to a hand is valued at eight, according to the rules above.
Nine or Eight	A three card hand that has a value of nine or eight.
Seven through Zero	A two or three card hand that has a value of seven, six, five, four, three, two, one or zero.

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard baccarat table that accommodates up to seven players and a player-dealer position for a total of eight seated positions. Within each betting area for each seated player, there shall be five separate betting spaces specifically designated for five separate wagers; the Player line, the Banker line, the Tie Bet, the One Up Bonus Bet, and the Fortune 7 Bonus Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is permitted on all wagers.

Dealing Procedures and Round of Play

At the start of a game, a player is offered the player-dealer position. Once a player-dealer position has been established for that game, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Fortune 7 Baccarat

Each player then has the following option(s) when placing their wager(s):

- The Player line which pays 1 to 1;
- The Banker line which pays 1 to 1 on all wins except a three-card 7 which shall push;
- Place a wager on the Tie Bet which pays 8 to 1;
- If a player placed a wager on the Player line or the Banker line, that player may place a wager on the Fortune 7 Bonus Bet which pays 40 to 1;
- If a player placed a wager on the Player line or the Banker line, that player may place a wager on the One Up Bonus Bet which pays according to the pay table below.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a wager on the Banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a wager on the Player line. The player's hand is resolved first and then the banker's hand is resolved. The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. Wagers will be settled in the following order from player to player: all Player line wagers, then all Banker line wagers, then all Tie Bet wagers, then all One Up Bonus Bets, and finally all Fortune 7 Bonus Bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the first two cards dealt to the player hand equal a natural, the banker hand shall not be allowed to draw any additional cards.
- If the first two cards dealt to the banker hand equal a natural, the player hand shall not be allowed to draw any additional cards and the hands shall be settled as-is.
- If the player's hand stands, then the banker hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

- The player-dealer shall pay all winning Player line wagers made by players when the player's hand is closer to nine than the banker's hand.
- The player-dealer shall pay all winning Banker line wagers made by players when the banker's hand is closer to nine than the player's hand. If the banker's hand wins with a three-card total of seven, the wager shall push.
- The player-dealer shall collect all losing Player line wagers when the banker's hand is closer to nine than the player's hand.
- The player-dealer shall collect all losing Banker line wagers when the player's hand is closer to nine than the banker's hand.

Bonus Bets

Tie Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Tie Bet wager. A player may place a Tie Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The player-dealer shall pay all winning Tie Bet wagers when the total of the player's hand and the total of the banker's hand are equal.
- The player-dealer shall collect all losing Tie Bet wagers when the total of the player's hand and the total of the banker's hand are not equal.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Tie Bet and any collection fees that may be taken.
- Backline betting is permitted on the Tie Bet wager.
- The Tie Bet takes into account the total value of the player's hand and the banker's hand after each hand has been completed according to the rules above. In the event of a tie (0 - 9) between the player's hand and the banker's hand, the Tie Bet wager shall win. In the event that the player's hand and the banker's hand are different, the Tie Bet wager loses.
- Winning Tie Bet wagers shall be paid 8 to 1.

Fortune 7 Baccarat

- Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

- See the collection rate schedule for restrictions on the amount that may be wagered on the Fortune 7 Bonus Bet and any collection fees that may be taken.

One Up Bonus Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of one separate wager; the One Up Bonus Bet. A player may place a One Up Bonus Bet even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.

- If the player's hand beats the banker's hand by a spread of two points or more, the player loses to the banker's hand, or the player and the banker hands are of the same value (tie), the One Up Bonus Bet wager shall lose.
- Backline betting is permitted on the One Up Bonus Bet.
- See the collection rate schedule for restrictions on the amount that may be wagered on the One Up Bonus Bet and any collection fees that may be taken.
- The player-dealer shall pay all winning One Up Bonus Bet wagers and shall collect all losing One Up Bonus Bet wagers. Wagers are collected or paid, to the extent that the player-dealer's wager covers.
