Rules of Play

The Dragon Slayer Jackpot features a fixed jackpot prize. A prize is awarded when a player make a pre-determined and designated hand. The house dealer will ask before each hand is dealt on any baccarat game if they would like to participate in the jackpot. Any player who would like to participate in the jackpot places a \$5 jackpot fee before the house dealer pulls the first card of the hand. The dealer will collect the participating player's jackpot fees after they deal the initial two cards to the player and the banker spots and replace the jackpot fee with a "Dragon Slayer" lamer to identify the players that have paid the Dragon Slayer jackpot fee. The dealer will then drop the collected fees in the drop box designated for the jackpot fees.

Qualifying Hands

To qualify for the jackpot prize the player and the banker must draw a third card. Below are the qualifying hands and associated prize payouts.

Player's Hand	Banker's Hand	Qualifier	Prize Payout
3 card hand with a value of 8 or 9	3 card hand with a value of 7	All Cards Suited	\$50,000

3. Describe any jackpot or any other type of prize awarded.

The Wine Country Casino will offer match play coupons and/or free play chips which will have a value ranging from \$5 to \$500 for each coupon or chip.

Players may not exchange match play coupons for live chips or give them to another player. They will only be redeemed after having been played and verified by Casino personnel.

4. If a cash prize is involved, is the amount of the prize progressive (increases) or a fixed amount?

The prize is a fixed amount.

5. Explain if the gaming activity is house funded or player funded.

6. Describe any special fee collection involved in this gaming activity, for example, a jackpot fee collection.

7. Describe how the jackpot will be seeded and how any prizes will be awarded.

“Match Play Coupon”

The Casino will offer match play coupons having a face value from \$5 to \$500 per coupon. This will be clearly stated on the coupon. Patrons are awarded match play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a coupon he/she may use it in any of the controlled games listed above. Each coupon will state the specific qualifying game(s) that the voucher may be used on.

EXAMPLE: A person receives a match play voucher with a value of \$5.00 that specifically states it may be used to place a wager on the Pai Gow Poker table. The person would place the voucher on the gaming table; place a bet that matches the amount on the voucher, and pay the posted collection (if applicable) for a single hand of play. If the player wins the hand, he/she will receive \$10.00 just as if they had placed a \$10.00 bet and the player/dealer will collect the voucher. The player/dealer will then have a key employee sign the voucher verifying that it has been won. All winning vouchers are verified and signed by a key employee. Winning vouchers are taken to the cage by the key employee, logged, and exchanged for the value listed on the coupon(s). If a player loses, the money part of the

“Free Play Chip(s)”

The Casino will offer free play chips having a face value from \$5.00 to \$500.00 per chip. The chips are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The free play chips are initially in the form of a coupon which will be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded free play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a free play coupon he/she shall take the coupon to the cage for verification, logging, and redemption of the free play chip(s) to be used in a live game. Each coupon will state the specific qualifying game(s) that the free play chip(s) may be used on.

Promotional chips are used as the player's bet and placed on the betting circle. Promotional chips are never taken into the dealer's tray, nor are they ever paid from the dealer's tray.

EXAMPLE: A person receives a free play chip coupon for \$10.00 that specifically states it can be used to place a wager on the No Bust Blackjack table. The player would take the coupon to the cage. Cage personnel would log the redemption code of the coupon and exchange the coupon for a promotional free play chip. The player would then place the free play chip on the gaming table, pay the posted collection (if applicable), and the game would play. If the player wins the hand, he/she would be paid \$10.00 by the person in the player/dealer position just as if he/she had placed a \$10 bet. The free play chip will be collected by the person in the player/dealer position. The player/dealer will then have a key employee verify that the chip has been played. All played free play chips are verified by a key employee. The free play chip is taken to the cage by a key employee, logged, and exchanged for the value listed on the chip. If the player loses the hand, the free play chip is forfeited and will be collected by the casino dealer and dropped in the drop box for accounting purposes. If the player pushes (receives no action), the chip may be played again until the player wins or loses a hand.

8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.

If a player wins a hand on a base game where they have played a match play coupon or free play chip, he/she will be awarded 100% of the face value on the coupon or chip.

Funding

The Pai Gow Tiles Bad Beat Jackpot utilizes a progressive prize pool which will be player-dealer funded via a \$1 jackpot collection fee. A collection fee shall be taken from the player-dealer position per hand before the tiles are distributed. The jackpot shall be initially seeded by Parkwest Casino Lodi in the amount of \$5,000. The house will be reimbursed the seed money from the reserve account once a sufficient amount has been collected. The jackpot will not increase past the initial seeding amount until the house is reimbursed. Additionally, when the casino is required to seed the jackpot or cover the shortfall due to inadequate funds in the reserve account, the casino shall be repaid from the jackpot reserve account once the reserve is sufficient and the funds become available. When the qualifying jackpot hands are achieved and the progressive prize is paid out, it shall be reseeded by the reserve fund in an amount ranging between \$10 and \$10,000. The jackpot shall increase daily by an amount ranging between \$10 and \$300 based on the average amount collected daily. Any monies not posted to the meter will go directly to the reserve fund. This jackpot has a cap amount of \$100,000. Once the progressive jackpot has reached the cap, all monies collected over the cap will be placed in a reserve fund. The jackpot collection fees will be kept in separate drop boxes from the regular table collection fees and shall be kept in a separate account for tracking and accounting purposes.

Administrative Fees

Parkwest Casino Lodi shall retain an administrative fee of \$5 to \$10 per hour based on the number of tables and table hours that the jackpot is being offered for play, which will be taken from the reserve fund. No administrative fees shall be taken until there are sufficient monies in the reserve fund. The administrative fee shall be used to cover all expenses incurred for administering the jackpot. Parkwest Casino Lodi shall maintain accounting records identifying all jackpot moneys contributed by the Casino; jackpot monies collected from patrons, or both, and monies withdrawn for either jackpot administrative fees or payment to patrons.

- Fortune Pai Gow Poker (GEGA-002494)

- Three Card Poker 6 Card Bonus (GEGA-002492)

Object and Summary

The Poker Pyramid Promotion is house funded, and features a specific fixed prize amount to each achieved qualifying hand. A board is used to place the prizes in a pyramid fashion with the hands used to make the base; see below for an example of a pyramid. Players who achieve a qualifying hand while participating in a Bureau approved controlled game, as listed above, are awarded a predetermined prize. When a casino representative confirms the winning hand, the player with the qualifying hand will immediately receive the posted prize amount; the casino representative removes the prize and the qualifying hand from the list of eligible hands on the pyramid. After the removal of a prize, the next prize in sequence will be awarded to the next qualifying hand. No specific sequence is required to make the qualifying hands. Prizes are awarded from left to right, one row at a time until the row is empty, then the next row of prizes awarded begins (a row of prizes must be won before the next row of prizes will be offered). This will continue until there is one prize left (the top of the pyramid) and one qualifying hand left on the pyramid base.

The Casino will display the Poker Pyramid board (with qualifying hands and prizes) prominently near the eligible gaming tables. Staff and surveillance cameras will monitor and maintain the Poker Pyramid board accuracy, thus ensuring patrons and employees do not tamper with the Poker Pyramid board. In all instances, the Casino will provide ample notice to patrons with qualifying hands and awarded prizes.

Poker Pyramid Promotion

- For Three Card Poker 6 Card Bonus, the 6 Card Bonus Bet will not be required. The qualifying hand will be determined based on the player and player-dealer combined hands.

EXAMPLE: *If multiple patrons achieve a qualifying hand, the first prize awarded will be to the patron closest to where the action begins per the base game rules, and then the next prize awarded will be to the next patron closest to the action and so forth.*

Example Pyramid Payout Row

Poker Pyramid Promotion

- During a round of play, if multiple players achieve a qualifying hand, the board will have the number of pyramid prizes and matching hands removed from the board matching the number of players paid.

Essentially, if the player with the action button wins, so will the patron in the player-dealer position.
 - In addition, if two players make the exact same hand, the two patrons will share the posted prize.
 - However, if three players make a qualifying hand, the odd number of chips will be awarded to the patron closest to the action button.

EXAMPLE: *If two players have a pair of kings each, and the player-dealer has three 7s, the prize is split between the two players and only the one awarded prize and the one qualifying hand is removed from the pyramid.*

Prize

Payout for prizes may be in the form of cash, live casino chips, merchandise, trips, poker tournament entries, or electronics. The merchandise, trips, poker tournament entries, or electronics will be of equivalent value as to the dollar amount listed on the pyramid. The actual prize amount will depend on the amount on the pyramid prize structure and its seeded amounts. After the hand/round is over and the qualifying hands are verified, the awarded prizes are immediately paid. In all instances, the Parkwest Casino Lodi will at all times conspicuously post the prizes.

Prize Payout Structure

Players, who attain a qualifying hand, as designated above, will be eligible to win the corresponding prize determined by the pyramid. After each eligible achieved qualifying hand, the hand will be removed from the list of eligible hands on the base of the pyramid. After each prize is paid, the prize is removed, and the next prize in order is awarded for the next qualifying hand. Awarded prizes are from left to right, and then from bottom to top of the pyramid, (a row of prizes must be won before the next row of prizes will be offered); different players at different tables can win the prizes and qualifying hands. This will continue until there is one prize left (the top of the pyramid) and one qualifying hand left on the pyramid base. Once the final achieved hand and prize is awarded, a new Poker Pyramid may be used.

Poker Pyramid Promotion

After a casino representative confirms the winning hand, the player with the qualifying hand will immediately receive the posted prize amount; the casino representative removes the prize and the qualifying hand from the list of eligible hands at the base of the pyramid.

In the event multiple players have qualified with eligible hands, prizes will be awarded to each player per the value on the board. When a pyramid prize row has differing prizes to award, the first prize awarded is to the active player closest to where the action of base game payouts begins.

All Bureau approved California Games.

3. Describe any jackpot or any other type of prize awarded.

The Wine Country Casino will offer match play coupons and/or free play chips which will have a value ranging from \$5 to \$500 for each coupon or chip.

Players may not exchange match play coupons for live chips or give them to another player. They will only be redeemed after having been played and verified by Casino personnel.

4. If a cash prize is involved, is the amount of the prize progressive (increases) or a fixed amount?

The prize is a fixed amount.

5. Explain if the gaming activity is house funded or player funded.

This gaming activity is house funded.

6. Describe any special fee collection involved in this gaming activity, for example, a jackpot fee collection.

No additional fees will be collected.

7. Describe how the jackpot will be seeded and how any prizes will be awarded.

“Match Play Coupon”

The Casino will offer match play coupons having a face value from \$5 to \$500 per coupon. This will be clearly stated on the coupon. Patrons are awarded match play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a coupon he/she may use it in any of the controlled games listed above. Each coupon will state the specific qualifying game(s) that the voucher may be used on.

EXAMPLE: A person receives a match play voucher with a value of \$5.00 that specifically states it may be used to place a wager on the Pai Gow Poker table. The person would place the voucher on the gaming table; place a bet that matches the amount on the voucher, and pay the posted collection (if applicable) for a single hand of play. If the player wins the hand, he/she will receive \$10.00 just as if they had placed a \$10.00 bet and the player/dealer will collect the voucher. The player/dealer will then have a key employee sign the voucher verifying that it has been won. All winning vouchers are verified and signed by a key employee. Winning vouchers are taken to the cage by the key employee, logged, and exchanged for the value listed on the coupon(s). If a player loses, the money part of the

wager is collected by the player/dealer, and the voucher is voided and collected as well. If the player pushes (receives no action), the voucher may be played again until the player wins or loses a hand.

“Free Play Chip(s)”

The Casino will offer free play chips having a face value from \$5.00 to \$500.00 per chip. The chips are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The free play chips are initially in the form of a coupon which will be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded free play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a free play coupon he/she shall take the coupon to the cage for verification, logging, and redemption of the free play chip(s) to be used in a live game. Each coupon will state the specific qualifying game(s) that the free play chip(s) may be used on.

Promotional chips are used as the player's bet and placed on the betting circle. Promotional chips are never taken into the dealer's tray, nor are they ever paid from the dealer's tray.

EXAMPLE: A person receives a free play chip coupon for \$10.00 that specifically states it can be used to place a wager on the No Bust Blackjack table. The player would take the coupon to the cage. Cage personnel would log the redemption code of the coupon and exchange the coupon for a promotional free play chip. The player would then place the free play chip on the gaming table, pay the posted collection (if applicable), and the game would play. If the player wins the hand, he/she would be paid \$10.00 by the person in the player/dealer position just as if he/she had placed a \$10 bet. The free play chip will be collected by the person in the player/dealer position. The player/dealer will then have a key employee verify that the chip has been played. All played free play chips are verified by a key employee. The free play chip is taken to the cage by a key employee, logged, and exchanged for the value listed on the chip. If the player loses the hand, the free play chip is forfeited and will be collected by the casino dealer and dropped in the drop box for accounting purposes. If the player pushes (receives no action), the chip may be played again until the player wins or loses a hand.

8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.

If a player wins a hand on a base game where they have played a match play coupon or free play chip, he/she will be awarded 100% of the face value on the coupon or chip.

9. Explain any re-seeding of the fund once the prize is won.

Once the original seeded amount is depleted the funds may be re-seeded by the Casino. Appropriate records will be kept and available for inspection as required by law.

10. Explain any minimum or maximum number of players required to be dealt into the game for the table to be eligible for the gaming activity and prize.

One minimum player and no maximum players.
