ATTACHMENT A

Ammunition Purchases or Transfers Economic and Fiscal Impact Statement (Regulations and Orders) STD. 399, Section B. Estimated Costs

In regards to Section B of the Economic Impact Statement, these regulations will have an economic impact on both businesses and individuals.

Business Costs

The implied economic costs for businesses that sell ammunition come from the processing time of the Standard Ammunition Eligibility Check. The Department estimates that it will take approximately two minutes to process a Standard Ammunition Eligibility Check, so the direct costs for an ammunition vendor can be derived from taking the approximate two minute processing time and multiplying it by the 13 million transactions while valuing ammunition vendor staff time at \$11 per hour. In total, the annual direct cost for ammunition vendors to process these transactions is \$4,766,667.

Individual Costs

The projected costs for an individual depends on how many ammunition purchases the person makes and whether the person undergoes a Standard Ammunition Eligibility Check (SAEC), Basic Ammunition Eligibility Check (BAEC), or Certificate of Eligibility (COE) verification. The per-transaction cost for the SAEC or COE verification is \$1.00. The cost for a BAEC is \$19.00.

In addition, ammunition purchasers will have implied costs from the processing time of the Standard Ammunition Eligibility Check. Ammunition purchaser time is valued in the same manner as ammunition vendors, so the annual direct cost for ammunition purchasers is \$4,766,667.

Total Fiscal Impact Projections

Type of Direct Cost	Frequency	Unit Cost	Direct Cost
Standard Eligibility Check	13 million	\$1	\$ 13,000,000
Basic Eligibility Check	50,000	\$19	\$ 950,000
Vendor Staff Time	13 million x 2 minutes	\$11 per hour	\$ 4,766,667
Purchaser Time	13 million x 2 minutes	\$11 per hour	\$ 4,766,667
		Total Direct Cost:	\$ 23,483,334
