Re: Important Privacy Notification
Please Read this Entire Letter

Dear Hillsides Employee:

On December 8, 2015, Hillsides became aware that an employee had sent internal files containing personally identifiable information (PII) and/or protected health information (PHI) to a personal (non-Hillsides) email address. You have received this letter because PII or PHI belonging to either you or your minor child may have been included in these emails. Upon discovery, the employee was terminated for their violation of company policies; however, to date we have been unable to recover the data files from their personal email account or verify whether the files have been deleted. While we have no evidence that any of your personal information has been further disclosed or misused in any manner, we are providing you with notice of the incidents so you can take any precautions you feel are appropriate or necessary. The following information was sent by this employee to their personal email address on the following dates:

- 10/10/14 - Employee emailed an unencrypted spreadsheet which included staff members' names, hiring dates, job titles, division description, Social Security numbers, home address, zip code, and home phone numbers.

- 10/19/15 - Employee emailed two unencrypted Outcome Measures spreadsheets which included client names, therapists, Integrated System numbers, start dates for services, outcome dates, parent partner names, and the name of the rehabilitation specialist.

Hillsides values your privacy and deeply regrets these incidents occurred. Please be assured that we have taken steps necessary to address the incidents and we are committed to fully protecting all of the information you have entrusted to us. We are working with our legal counsel to ensure all appropriate steps and notifications are being followed. We are also implementing an employee re-training program to reduce the risk of future occurrences and improve our internal security awareness procedures.

We are also notifying affected individuals so you can take personal action, along with our organization's efforts, to reduce or eliminate potential harm.

There are additional actions you can consider taking to reduce the chances of identity theft or fraud on your account(s). You should remain vigilant in reviewing account statements and monitoring free credit reports.

We recommend immediate steps be taken to protect you or your minor child from any potential harm.

1. For persons over the age of 18, you can place a fraud alert with the three credit bureaus listed here and obtain instructions on how to obtain a free credit report. For minors, you can inquire whether a credit file has been opened in the minor's name:
