

VIA FIRST CLASS MAIL

September 21, 2015

NAME  
ADDRESS

Dear NAME,

We are writing to tell you about an incident involving certain information about you at Kindred Transitional Care and Rehabilitation – Lawton (Lawton). Importantly, this incident does not involve your Social Security number, Medicare number, credit card number or other financial information, or any details about your care or treatment at Lawton.

On August 31, 2015, we learned that an office computer had been stolen from a locked office within the facility. We believe that the theft occurred between August 28 and August 31. On September 1, we learned one or more files containing certain information about you were stored on the computer. The information included your name and one or more of the following: admission and discharge dates, facility name, Kindred-issued patient number, and certain accounting-related information such as copayment or days of Medicare use. Although the computer was password-protected, we cannot rule out the possibility that any information contained on the computer could be accessed by an unauthorized person. We are not aware of improper use of the limited information about you contained on the computer.

We reported the incident to law enforcement immediately upon learning of it and are cooperating fully in their investigation. We are closely evaluating our security measures and taking appropriate steps to minimize the risk of such incidents in the future.

We sincerely regret this incident and want you to know that we are committed to providing quality care, including protecting patient information. If you have questions, please contact Stacie McCutcheon, Manager of HIPAA Compliance, at 502-596-2219, toll free at 800-545-0749, or by email at [stacie.mccutcheon@kindred.com](mailto:stacie.mccutcheon@kindred.com).

Sincerely,

Kelly Priegnitz  
Senior Vice President and Chief Compliance Officer
