Los Angeles, May 22, 2015 – Roll Global LLC and its affiliated companies (collectively, “Roll”) were recently informed of an isolated security incident involving the personal information of certain current and former employees of Roll. Specifically, on February 27, 2015, a password-protected laptop was stolen from the locked car of an employee of Hub International, a third-party service provider engaged by Roll. Local law enforcement was notified, and the ensuing internal investigation revealed that a limited number of social security numbers were among the information on the laptop.

Each impacted individual will be provided access to 24 months of complimentary triple-bureau credit monitoring. To help individuals determine whether they have been impacted by this incident and to help those impacted register for credit monitoring services, Roll has engaged Rust Consulting. Rust Consulting can be reached at 1-800-363-0975 from (enter times) Eastern Time, Monday through Friday.

To reduce the likelihood of identity theft or fraud, individuals should closely review their credit card bills and other financial account information, including bank account and savings statements; watch their accounts for unauthorized activity; contact the appropriate financial institution should unauthorized or suspicious activity be identified; and place a fraud alert with any of the credit bureaus. To place a fraud alert, individuals can contact any one of the three major credit bureaus as shown below.
