Application for Gaming Activity Review: Section III: Question & Answer

1. Name of Proposed Gaming Activity:

Asian Games Coupon. Other names may be used. In all instances, the advertisements, signs and the each coupon will have the assigned GEGA number affixed.

2. Name each controlled game that is associated with this gaming activity:

Pure 21.5 Blackjack, Pai Gow Tiles and Double Hand Poker.

3. Describe any Jackpot or any other type of prize awarded:

The prize will be casino chips awarded when a player uses a Asian Games (AG) coupon and wins that particular hand.

4. If a cash prize is involved, is the amount progressive or a fixed amount?

The prize amounts will range from \$5.00 to \$1,000.00.

5. Explain if the gaming activity is House funded or player funded:

Player funded. The person in the Player/Dealer position will pay out when their hand is beat and when a player uses a AG coupon to play that particular hand.

6. Describe any special fee collection involved in this gaming activity, for example, a Jackpot collection fee.

The already approved collection for the controlled game will be taken when a bet is made utilizing a AG coupon.

7. Describe how the Jackpot will be seeded and how prizes will be awarded.

N/A

8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.

When a player presents a AG coupon to play a particular hand in a Pure 21.5 Blackjack, Pai Gow Tiles and Double Hand Poker game, and they win that particular hand, they will be awarded that amount of money (in casino chips). The coupons will be offered to all patrons that wish to come into the Casino and use them to play. The coupons will be advertised in magazines, websites, and mailing advertisements that go out to our customers, etc. When a patron receives a coupon they may use it in any of the controlled games listed above. Each coupon will state the specific qualifying game(s) that the coupon may be used on.

The AG coupon will be offered in the following two different ways:

LUCKY BUCK

A player will have a pre-printed coupon with a dollar amount assigned to it ranging from \$5 to \$1,000. The player will simply place this coupon on an Asian games table and that will represent the amount that they are wagering on that particular hand. If a player has more than one AG coupon they can only use one per wager.

EXAMPLE: A person receives a Lucky Buck coupon with a value of \$5.00 that specifically states it may be used to place a wager on the Pure 21.5 Blackjack table. The player would place the coupon on the gaming table and pay the posted collection for a single hand of play. If the player wins the hand, he/she will receive \$5.00 just as if they had placed a \$5.00 bet and the player/dealer will collect the coupon. The Player/Dealer must then have a floor person sign the coupon verifying that it has been won. All winning verified and signed coupons may then be taken to the cage and cashed out for the value listed on the coupon. All losing coupons will not have the option. If the player loses, the coupon is forfeited; the money part of the wager is collected by the player/dealer, and the coupon will be collected by the casino dealer. If the player pushes (receives no action), the coupon may be played again until the player wins or loses a hand.

MATCH PLAY

A player will have a pre-printed coupon with a dollar amount assigned to it ranging from \$5 to \$1,000. The player must wager a matching amount to what is listed on the AG coupon. If a player has more than one AG coupon they can only use one per wager. For example, if a player has an AG coupon with a \$10 amount printed on it they would place that on an Asian games table with a \$10 casino chip for a total bet of \$20. If a player wins that hand, the AG coupon will be taken and they will be awarded \$20 in casino chips.

EXAMPLE: A person receives a match play coupon with a value of \$5.00 that specifically states it may be used to place a wager on the Pure 21.5 Blackjack table. The person would place the coupon on the gaming table with a \$5.00 casino chip for a total bet of \$10, and pay the posted collection for a single hand of play. If the player wins the hand, he/she will receive \$10.00 just as if they had placed a \$10.00 bet and the player/dealer will collect the coupon. The player/dealer must then have a floor person sign the coupon verifying that it has been won. All winning verified and signed coupons may then be taken to the cage and cashed out for the value listed on the coupon. All losing coupons will not have the option. If the player loses, the coupon is forfeited; the money part of the wager is collected by the player/dealer, and the coupon will be collected by the casino dealer. If the player pushes (receives no action), the coupon may be played again until the player wins or loses a hand.

Object and Summary

Fortune Pai Gow Poker Progressive considers the best hand possible among each individual player's cards. A qualifying hand for a progressive or fixed jackpot prize is made using only the player's hand.

1. To begin each round, players must make their regular base game wager. They may place any bonus bets along with the optional jackpot fee of \$1. A minimum of two players are required for the progressive jackpot or a fixed prize payout.
2. "Hockey Puck" discs will be attached to the table in front of each betting position. These discs have a sensor and will detect when a casino chip is placed on them. Players must place the optional jackpot fee on the sensor. The sensor will then light up.
3. Once all players place their bets and/or jackpot fee, the house dealer will press "Coin In" on the keypad. The sensors will then light up, indicating participation in the progressive jackpot. The house dealer will then remove all jackpot fees from the table. The jackpot fees shall be dropped into a separate and locked jackpot collection box and accounted for separately.

4. The house dealer then follows standard approved procedures for dealing the base game. All seven cards will be considered with the 5-card and 2-card hand. A player can qualify for the jackpot element of the game regardless of the outcome of the base game.

Qualifying Hands

All qualifying hands in the chart below must be offered together at all times. The prize distribution options are as follows:

| Hand | Paytable |
|-----------------------------------|----------------------|

The Spin for a Win Promotion gaming activity awards players who make a specified qualifying hand in an eligible controlled game or are selected via a random drawing with a chance to spin the wheel and win a prize. Players who are seated and playing any of the controlled games listed above are eligible for this gaming activity.

- The wheel is separated into 38 separate sections with each depicting a specific prize.

Spin for a Win

Qualifying Hands

- Option 1 – Be an active player at a table of an above listed controlled game and have the player's seat selected via random drawing at a predetermined selection time. During predetermined times of the promotional period, a casino employee will announce the commencement of the drawing. The drawing to determine the lucky seat uses cards, balls, or lamers, which are pre-printed, equally sized and colored. For the lucky table drawing, a card, ball, or lamer that represents each active table will be mixed with a non-electronic randomizer. A casino employee will then select one card, ball, or lamer to determine the winning table. Once the eligible table is determined, the lucky seat will be determined by placing cards, balls, or lamers into the randomizer and selecting one. The number of seats at the winning table determines the amount of cards, balls, or lamers that will be placed into the randomizer. If an unoccupied seat is selected, another card, ball, or lamer will be drawn until a winner is chosen.
- Option 2 – Make and win with the minimum qualifying hand in any of the controlled games listed below.

| Texas Hold'em | Mexican Poker | Omaha |

Object and Summary

Patrons are awarded Match Play and Free Play Coupons/Chips via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, or through the Player's Club Promotion (GEAR-001257). Players who receive a Match Play/Free Play coupon must redeem the coupon at the cage or with a casino representative for a chip with the corresponding value of the coupon. Players with the Match Play/Free Play Chips/Coupons will be eligible to win the specific amount printed on the chip/coupon if they place a wager on an eligible game equal to the amount listed on the Match Play Coupon/Coupon; Free Play is a standalone wager. Players will be paid accordingly to the amount listed on the Free Play Chip/Coupon without placing a wager with live chips.

Match Play Coupon

- Banker's Casino will offer Match Play Coupons having a face value of \$5 to \$500 per coupon/chip. The amount will be clearly stated on the coupon/chip.
- The player must redeem the Match Play Coupon for a Match Play Chip at the cage or with a casino representative in order to use the Match Play Coupon.
- The player must place the Match Play Coupon on the table as well as a wager equal to or more than the amount of the Match Play Coupon.
- Match Play Coupons can only be used on California Games.

Match Play/Free Play Promotion

At the end of the player-dealer's gaming session, the player-dealer will take any used Match Play Chips to the cage to be logged and exchanged for the value listed on the coupon. The exchanged value, in live casino chips, is given to the player-dealer as reimbursement for the coupon.
- When the player uses a Match Play Coupon and the hand loses, the player will only lose their original wager. The used Match Play Coupon is collected by the house dealer and is voided.
- If the player pushes (receives no action), the coupon may be played again until the player wins or loses a hand.

The player would place their coupon/chip on the gaming table; place a bet that matches the amount on the coupon/chip, and pay the posted collection (if applicable) for a single hand of play. The collection fee is based only on the wager and not the coupon/chip. If the player wins the hand, they will receive \$10 just as if they had placed a \$10 bet and the player-dealer will collect the coupon/chip.
