Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

California Games G3 Progressive Jackpot

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand and/or the player-dealer hand for the progressive jackpot. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter. The credits will be deducted from the player's bankroll meter depending on the hand(s) the player chooses. If the player chooses both the player and the player-dealer hand (if applicable), then two credits will be deducted from the bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, will be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.
- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the games listed above into one jackpot prize pool. The base games listed above that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot. The separate G3 Progressive Jackpots listed in the Eligible Controlled Gaming Activities section will be combined under this G3 Progressive Jackpot gaming activity. They will no longer be stand alone Jackpots unless modified by the Commerce Casino and approved by the Bureau.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1) on their own hand and/or the player-dealer hand (when applicable). To limit the fee to \$1, DEQ will program the software so that the fee amount can only be \$1 for each hand (possible total fee of \$2) by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the dealer presses the "Stop" button. The

California Games G3 Progressive Jackpot

appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).

5. The house dealer then follows standard approved procedures for dealing the base games, as listed above. After all players and the player-dealer have been dealt their hands, the play of the base games continues per the approved rules of the game.

Paytable:

1. The house dealer then follows standard approved procedures for dealing the base games, as listed above. After all players and the player-dealer have been dealt their hands, the play of the base games continues per the approved rules of the game.
 - a. For Three Card Poker: the player's or player-dealer's 5 card hand consists of their respective 3 personal cards and 2 community cards that the dealer will turn once the main game is resolved;
 - i. As described in the Three Card Poker game rules, the House Dealer will give each player 3 card face down as well as 3 cards (2 face down-1 face up) to the player/dealer. Then, he will deal 2 community cards (face down) to the side to only be used for the progressive. Once the round of play has ended and all the base game wagers have been resolved, the House Dealer will revealed the 2 community cards.
 - ii. These 2 community cards will be used, in combination with each individual's 3 personal cards to complete the 5 card hand to resolve the progressive wagers (3 personal cards + 2 community cards for the "dealer's hand").
 - b. For Ultimate Texas Hold'em: the players or player-dealer's 5 card hand consists of their respective 2 hole cards and the first 3 community cards;
 - i. As described in the Ultimate Texas Hold'em game rules, 2 cards will be dealt to each player, 2 to the player/dealer and 5 cards will be dealt as community cards. Players will then make their play wager (if any), and the "first" 3 community cards will be revealed (Flop). Player will again make their play wager, the last 2 community cards will be turned, and final play wager will be placed and the base game can be resolved.
 - ii. To resolve the progressive wagers, the "Flop" or "first" 3 community cards will be used in combination with the 2 personal cards received by each individual to complete the 5 card hand Bonus (2 personal cards + 3 first community cards for the "dealer's hand").
 - c. For Crazy 4 Poker: the players' or player-dealer's five card hands is entirely based on their respective 5 card hand:
 - i. As described in the Crazy 4 Poker game rules, each player, as well as the player/dealer will initially receive 5 cards. After placing their wagers, the base game will be resolved by forming the best 4 card hand from the 5 card stack received by the individuals.
 - ii. To resolve the progressive wager, all 5 cards received by each player will be used, including the player/dealer's 5 cards (for the "dealer's hand").

California Games G3 Progressive Jackpot

- d. For Caribbean Stud: the players' or player-dealer's five card hands is entirely based on their respective 5 card hand:
 - i. As described in the Caribbean Stud game rules, after the players have placed their base wagers, the House Dealer will deal 5 cards to each player as well as to the player/dealer. After players made their play wager (if any), the bottom card of the player/dealer's 5 card stack (the "hole card") will be exposed and set the highest 5 card poker hand. The House Dealer will then proceed to turn over each player's cards to resolve the base game by forming a 5 card poker hand.
 - ii. To resolve the progressive wager, each individual 5 card hand will be used, including the player/dealer's 5 cards (for the "dealer's hand").

After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1,000, there is no maximum amount. At any time, should the amount accumulated in a reserve fund reach \$100,000, then the G3 system will automatically generate an additional reserve fund. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Controlled Game

The EZ Baccarat Panda 8 G3 Progressive Jackpot gaming activity shall be attached to all limits and versions of the currently approved games offered at The Commerce Casino, as listed below.

- EZ Baccarat Panda 8 (BGC ID: GEGA-002539)

All controlled game rules shall be played as previously approved by the Bureau.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand and/or the dealer hand for the progressive jackpot. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter. The credits will be deducted from the player's bankroll meter depending on the hand(s) the player chooses. If the player chooses both the player and the dealer hand, then two credits will be deducted from the bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.
- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of EZ Baccarat played in California Card rooms. The base game of EZ Baccarat that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1). To limit the fee to \$1, DEQ will program the software so that the fee amount can only be \$1 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game. Then, if the round results in a Dragon 7 or a Panda 8 hand, the Dealer will resolve the progressive wagers according to the pay table below. A Dragon 7 hand is when a Banker's point count equals 7 with a total of three cards and Player's point count is lower than 7. In the case where Player's point count equals 8 with a total of three cards and Banker's point count is lower than 8, the house dealer declares the hand a "Panda 8".
6. If the cards dealt during the round result in a winning hand for the optional progressive wagers, the Hawk shoe and G3 system will automatically recognize the winning hand and the system will ask for the casino employee's confirmation that the hand was in fact the recognized hand. Once the hand has been verified, the casino employee will press F1 or enter the appropriate Key to confirm the displayed prize (as required by the system's setup)

Prizes:**1. Fixed Prizes:**

- All fixed prizes won will be paid directly to the winning players.
- If a hand qualifies for a fixed prize, each player that has placed a jackpot fee will be awarded the full amount of the fixed prize. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- All fixed payouts will be paid by a casino employee. Once the proper verification has been done (in accordance with the casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- A Heavenly Dragon 7 pays 100% of the progressive jackpot amount shown on the progressive meter.
- A Mighty Panda 8 pays 10% of the progressive jackpot amount shown on the progressive meter.
- If the hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the progressive wager.
- Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
- In the case of multiple linked tables and games (i.e. using the same pay table), winners are paid on order in which the authorized personnel (supervisor or manager) authorizes the wins. It is recommended to process tables in the order that the wins occur. **Note:** Left to the casino's internal controls discretion.
- At the end of the hand, the house dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.

Funding:

- All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
- The Casino will initially seed the jackpot at a minimum of \$1,000. Once there are sufficient monies in the G3 Progressive jackpot fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit it will be re-seeded by the reserve fund at a minimum of \$1,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.
- Each \$1.00 jackpot fee paid by a player will be broken down as follows
 - \$0.80 will be immediately posted on the meter.

- b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Eligibility & Irregularities:

The prize shall be awarded to a player(s) and/or player-dealer when they have made, and such has been recorded by Casino personnel, the pre-determined and designated qualifying hands as listed above.

1. Only players that have placed the \$1 jackpot collection fee are eligible for an EZ Baccarat Panda 8 G3 Progressive Jackpot payout.
2. Only players seated at the table are eligible to win. Back-line bettors are not eligible to place a jackpot collection fee nor receive the prize amount for a qualifying hand.

6. In the instance of multiple linked tables qualifying for a progressive payout, all winners shall be paid, the amount shown on the LCD monitor, in the order in which the wins occur.
7. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer shall call over a floor person, that holds an access key, and have a receipt printed out for the amount cashed out. The receipt shall be kept in the house dealer's tray for reconciliation purposes at the end of their shift. The house dealer shall then reimburse the player in chips for the amount shown on that player's bankroll meter which shall match the amount on the printed receipt.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$0.50 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. A \$0.50 jackpot fee is equal to one credit on the player's bankroll meter and when a player chooses to participate to the Jackpot Game, \$0.50 jackpot fee will be deducted from the player's bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.
- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

G3 Buster Blackjack Progressive Jackpot

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to a Blackjack style game played in California Card rooms. The base Blackjack style game that this jackpot will be appended to must be approved by the Bureau to be eligible to add the Buster Blackjack Progressive.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$0.50 or one credit (1 credit = \$0.50) on their own hand. To limit the fee to \$0.50, DEQ will program the software so that the fee amount can only be \$0.50 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate to the Jackpot Game by pressing the "Player" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game.

After the progressive jackpot is hit, it will be re-seeded by the reserve fund at an amount ranging between \$100 and \$1,000,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.
3. Each jackpot fee paid by a player will be broken down as follows

LUCKY HAND PROMOTION

LUCKY HAND PROMOTION Player Funded/Drawing Prize

Summary of Promotion

In this promotion, Commerce Casino will award a prize to a player(s) who obtains a designated hand during a designated time(s). This promotion may be used in all approved player-dealer style California games and designated Poker games as listed below.

Procedure

Commerce Casino will prominently post the designated Lucky Hand(s) and a designated cash prize amount as well as the game(s), day(s) and hour(s) that the promotion will be offered. The amount of the prize will be posted before the promotion starts so that all players know what their drawing ticket is eligible to win if selected. In both the California games and Poker games, Surveillance is notified at the specific drawing times of the tickets. When a qualifying hand occurs, the dealer contacts the floorperson who verifies the hand. With the Poker games, the floorperson contacts the Poker supervisor to request Surveillance review. With California games, the floorperson contacts the card desk to request Surveillance review. In both instances, the casino floor staff will issue the drawing tickets with their employee number and the customer's name on the ticket. At the designated day(s) and hour(s), a winning ticket(s) will be selected. In some instances, tickets not selected after each drawing may qualify for another draw.

The qualifying hands (listed below) are alternatives; Commerce Casino will post the selected designated Lucky Hands and prize, the applicable games, days and hours when the promotion will be available. Only one designated hand variation will be offered at a time. Commerce Casino reserves the right to revise the designated hands to increase or decrease the probability of a player obtaining a Lucky Hand by providing notice to the Bureau of Gambling Control and ample notice to patrons.

Prizes

The Lucky Hand Promotion will be player funded from the reserve jackpot account from all previously approved California and Poker Jackpots. The Commerce Casino shall cover any shortfall if a qualifying hand is made and the prize pool cannot fully cover the amount that is guaranteed to be awarded. Therefore, there shall be no additional jackpot fees or collection fees taken for this promotion. The Commerce Casino will award winning players with a drawing entry that will qualify them for a chance to win an additional prize such as cash, promotional items or entry into tournaments having a value between \$25 to \$1,000,000. Prize and bonus amounts will be pre-determined and posted before being offered.

Commerce Casino will award players that obtain a Lucky Hand with a chance to win a drawing prize. Commerce Casino will record the name and identification of the winning player(s). Winning players receive a voucher and are advised of the date and time of the drawing. Drawing prizes are predetermined and posted prior to all Lucky Hand promotions. The drawing prize may be cash (between \$25.00 to \$1,000,000), a gift, or an entry into a tournament. Cash prizes will be paid in gaming chips or by check. At the time of the drawing, all winners' names are put on separate sheets of paper (tickets) and placed in a drawing basket. The shift manager on duty will select one ticket from the drawing basket and the winner is announced. The player must be present when the drawing ticket is selected to win. If no winner comes forward after five (05) minutes, the procedure is repeated until a winner is present to claim the prize. Winners will receive the prize as long as they have proper identification to claim the prize. Once a player's name is drawn, it will not be placed into the drawing bin for future drawings.

No Purchase Necessary Procedures

Commerce Casino will provide No Purchase Necessary instructional tables for all patrons who request to participate in any game where a Lucky Hand promotion is offered. There will not be live wagers or collections at these tables. No purchase necessary tables will follow the Live Game rules regarding rotation of the player-dealer position. Participants in No Purchase Necessary instructional tables will be eligible to win the full-posted Lucky Hand prize if their seat receives the designated hand.

In the event that only one-player requests to participate at a No Purchase Necessary instructional table, Commerce Casino will make a no purchase necessary table available to patrons within fifteen minutes of a request. Commerce Casino will attempt to locate other customers that desire to participate. If no other patrons are available to participate in a No Purchase Necessary instructional table, Commerce Casino will provide a table where the no purchase necessary player will play only one hand and the house dealer will play the remaining hands according to House Way.

LUCKY HAND PROMOTION

LUCKY HAND PROMOTION House Funded/Cash Prize

Summary of Promotion

In this promotion, Commerce Casino will award a prize to a player(s) who obtains a designated hand during a designated time(s). This promotion may be used in all approved player-dealer style California games and certain Poker games.

Procedure

Commerce Casino will prominently post the designated Lucky Hand(s) and a designated cash prize amount as well as the game(s), day(s) and hour(s) that the promotion will be offered. The amount of the prize will be posted before the promotion starts so that all players know what they may be able to win. In both the California games and Poker games when a qualifying hand occurs, the dealer contacts the floorperson who verifies the hand. With the Poker games, the floorperson contacts the Poker supervisor to request Surveillance review. With California games, the floorperson contacts the card desk to request Surveillance review. Once verified, the winner of the qualifying hand will receive the posted cash prize.

The qualifying hands (listed below) are alternatives; Commerce Casino will post the selected designated Lucky Hands and prize, the applicable games, days and hours when the promotion will be available. Only one designated hand variation will be offered at a time. Commerce Casino reserves the right to revise the designated hands to increase or decrease the probability of a player obtaining a Lucky Hand by providing notice to the Bureau of Gambling Control and ample notice to patrons.

Prizes

The Lucky Hand Promotion will be house funded. The prize amounts may range from \$25.00 to \$1 million. Prizes will be cash and will be paid in gaming chips or by check. Prize amounts will be pre-determined and posted before being offered.

No Purchase Necessary Procedures

Commerce Casino will provide No Purchase Necessary instructional tables for all patrons who request to participate in any game where a Lucky Hand promotion is offered. There will not be live wagers or collections at these tables. No purchase necessary tables will follow the Live Game rules regarding rotation of the player-dealer position. Participants in No Purchase

Necessary instructional tables will be eligible to win the full-posted Lucky Hand prize if their seat receives the designated hand.

In the event that only one-player requests to participate at a No Purchase Necessary instructional table, Commerce Casino will make a no purchase necessary table available to patrons within fifteen minutes of a request. Commerce Casino will attempt to locate other customers that desire to participate. If no other patrons are available to participate in a No Purchase Necessary instructional table, Commerce Casino will provide a table where the no purchase necessary player will play only one hand and the house dealer will play the remaining hands according to House Way.

A person(s) that comes to play at a No Purchase Necessary instructional table will be dealt the maximum number of hands. The no purchase necessary player will need to designate only one hand/seat they are playing and the casino dealer will play the remaining.

LUCKY SEAT DRAWING PROMOTION

PROPOSAL FOR LUCKY SEAT PROMOTION

Player Funded/Drawing Prize

Summary of Promotion

In this promotion, Commerce Casino will award a prize to a player(s) who is sitting in a randomly selected seat during designated time period(s). This promotion may be used in all approved games.

Procedure

Commerce Casino will prominently post the games(s), day(s) and hour(s) that the Lucky Seat Promotion will be offered. At the posted date(s) and time period(s), the Shift Manager on duty will randomly pick a table by selecting a card or other lamer that is numbered the same as corresponding table number. Example: If tables B1, B2 and B3 are going, then the Shift Manager would take an ace, deuce and a trey of spades with them to the corresponding section. Those are to be scrambled at a randomly vacant table after notifying surveillance. After the scramble, one card or other lamer is to be selected which will signify the selected table.

The Shift Manager will then go to the active table and will award the prize to the seat where the Action Button for CA games or Dealer Button for Poker games lands for the next hand.

In California games, the award is to be given only to the first betting spot and to the player who paid the table fee collection.

Prizes

The Lucky Seat Promotion will be player funded. The Commerce Casino will award winning players with a drawing entry that will qualify them for a chance to win an additional prize such as cash, promotional items or entry into tournaments having a value between \$25 to \$1,000,000. Prize amounts will be pre-determined and posted before being offered.

Commerce Casino will award players occupying a lucky seat with a chance to win a drawing prize. The ticket shall be filled out by the customer, which will contain the player's name and identification information. The player will be given a ticket stub, which matches the ticket, which shall then be placed in a locked drawing drum. On the day of the drawing, Casino staff shall announce the commencement of the drawing. Once the tickets are thoroughly mixed, a Casino employee shall randomly draw one ticket from the bin. The player who has their ticket must present the matching ticket stub and proper identification to claim the prize. If a player loses their matching ticket stub, they shall be ineligible to claim the prize. When a player's ticket is drawn and he or she claims their prize(s), their ticket shall be removed from the drawing drum for future drawings. Commerce Casino will record the name and identification of the winning player(s). Winning players receive a voucher and are advised of the date and time of the drawing. Prizes are posted prior to all Lucky Seat Promotions. The drawing prize may be cash,

a gift, or an entry into a tournament. At the time of the drawing, all winners' names are put on separate sheets of paper (tickets) and placed in a drawing basket. The shift manager on duty will select one ticket from the drawing basket and the winner is announced. Tickets are non-transferrable and can only be used by the player who earned them. The player must be present when the drawing ticket is selected to win. If no winner comes forward after five (05) minutes, the procedure is repeated until a winner is present to claim the prize. Winners will receive the prize as long as they present proper identification to claim a prize. Cash prizes range from \$25.00 to \$1 million. Once a player's name is drawn, it will be placed back into the drawing bin for future drawings.

No Purchase Necessary Procedures

Commerce Casino will provide No Purchase Necessary instructional tables for all patrons who request to participate in any game where a Lucky Seat Promotion is offered. There will not be live wagers or collections at these tables. No purchase necessary tables will follow the Live Game rules regarding rotation of the player-dealer position. Match Play/Free Play Promotion

Bureau Requirements

Advertising

Commerce Casino may advertise various names for this gaming activity. Should the Casino advertise a different name, the BGC ID (GEGA-002936) shall be referenced on all advertisements relating to the Match Play/Free Play Promotion.

Furthermore, all rules and procedures for this promotion, including but not limited to the following, shall be prominently displayed in the Casino at all times the promotion is being offered:

- Eligible games and time periods.
- Match Play/or Free Play coupon value(s).
- Procedures to redeem coupons.
- Any other applicable restrictions.

Eligible Controlled Games

The Match Play/Free Play Coupon Promotion may be attached to all limits and versions of the currently Bureau approved California games offered at the Commerce Casino. All base game rules will be played as previously approved by the Bureau of Gambling Control.

Rules of Play

Patrons are awarded Match Play or Free Play coupons via advertisements in magazines, websites, mailing advertisements, handed out at various events or locations, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament. Players who receive a Match Play or Free Play coupon will be eligible to win the specific amount printed on the coupon if he/she places a wager on an eligible game equal to the amount listed on the Match Play or Free Play coupon.

Match Play Coupon

The Casino will offer match play coupons having a face value from \$5 to \$500 per coupon. The amount will be clearly stated on the coupon. Each coupon will state the specific qualifying game(s) that the voucher may be used on as well if it can be multiple times or only once. If it can only be used once it is taken immediately after the hand unless the hand is a push. If it can be used multiple times the player can keep using the coupon until they lose the hand. If won multiple times the dealer will notate on the coupon how many times the player has won. The player places the coupon on the table and pays the posted collection (if applicable) for a single hand of play as well as their wager. The wager must be equal to the amount of the match play coupon. When the player uses a match play coupon and the hand loses, the player will only lose his/her original wager and the match play coupon is collected and voided. When the player uses the match play coupon and the hand wins, after accepting the coupon and paying the player, the player-dealer will then have a key employee sign the voucher verifying that it has been won. All winning vouchers are then taken to the cage by a key employee, logged, and exchanged for the value listed on the coupon(s). A player's winning hand will be paid his/her wager by the player-dealer as well as the listed amount on the match play coupon. If the player pushes (receives no action), the voucher may be played again until the player wins or loses a hand.

Match Play/Free Play Promotion

EXAMPLE: A person receives a match play coupon with a value of \$5.00 that specifically states it may be used to place a wager on the Pai Gow Poker table. The person would place the coupon on the gaming table; place a \$5 chip which matches the amount on the coupon, and pay the posted collection (if applicable) for a single hand of play. The collection fee is based only on the wager and not the coupon. If the player wins the hand, he/she will receive \$10.00 just as if they had placed a \$10.00 bet and the player-dealer will collect the coupon if it is a single use coupon. If the coupon is a multiple use coupon the player would retain the coupon until it is lost. The player dealer will be reimbursed for paying the player the amount on the coupon by the cage.

Free Play Coupon

The Casino will offer Free Play coupons having a face value from \$5.00 to \$500.00 per coupon. The Free Play coupons are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The free play coupon will be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded free play coupons via advertisements in magazines, websites, mailing advertisements, handed to them at various events or location, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, transportation to the Casino via the Casino's bus system. When a patron receives a free play coupon, they will follow the posted rules and procedures to use them in a live game. Each coupon shall state the specific qualifying game(s) that the free play coupon(s) may be used on as well as if it is a single use or multiple use coupon.

Free play coupons shall be used as the player's bet and placed on the betting circle. The player will then pay the collection fee (if applicable) for a single hand of play. If the player wins the hand, he/she would be paid the listed amount by the person in the player-dealer position just as if he/she had placed a bet with regular casino chips. If a player wins and the coupon is a multiple use coupon, it can be used again until it is lost. If won multiple times the dealer will notate on the coupon how many times the player has won. If it is a single use coupon it will be collected as soon as the round of play is over. A tie or push allows the person to use it again as well. If the player loses, the player will only lose his/her original wager and the free play coupon will be collected and voided by the person in the player-dealer position after the round of play. The player-dealer would then have a casino employee verify that the coupon has been played and will collect them for redemption. The free play coupon may then be taken to the cage by the person in the player-dealer position, logged, and exchanged for the value listed in chips.

EXAMPLE: A person receives a free play coupon for \$10.00 that specifically states it can be used to place a wager on the No Bust Blackjack table. The player would then place the free play coupon on the gaming table, pay the posted collection (if applicable), and the game would play. If the player wins and the coupon is a single use coupon, it would be taken to the cage by a key employee for logging. If it is a multiple use coupon the player would retain the coupon until it is lost. Cage personnel would log the redemption code of the coupon and exchange the coupon for live play chips in the coupon amount.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand or the player/banker hand for the progressive jackpot. A \$1.00 jackpot fee will be deducted from the player's bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of Pai Gow Poker or EZ Pai Gow played in California Card rooms. The Pai Gow Poker style base game that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 Progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 on their own hand and/or the player/banker hand. To limit the bet to \$1, DEQ will deactivate the option for the casino to have the bet amount more than \$1 by making an entry on the XML File. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game.
6. G3 Progressive Jackpot Pay Table (used for both the Player's and Player/Banker's hands): Each of the qualifying hands listed below takes into account all seven cards dealt as a player's hand. If a player's seven cards can be made into multiple qualifying hands, only the highest paid hand qualifies for a prize.

Hand	
7-card Natural Straight Flush	100% of Posted Prize
7-card Wild Straight Flush	25% of Posted Prize
Five of a Kind	\$1,000
Royal Flush	\$500
Straight Flush	\$125
Four of a Kind	\$50
Progressive Meter	\$0.80
Reserve Fund	\$0.05
Administrative Fee	\$0.15

Prizes:

1. Fixed Prizes:

- a. All fixed prizes won on either a player's or the player/banker's hand will be paid directly to the winning players.
- b. If the player-dealer's hand qualifies for a fixed prize, each player that has placed a jackpot fee on the player-dealer's hand will be awarded the full amount of the fixed prize. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- c. All fixed payouts will be paid by a Casino employee. Once the proper verification has been done (in accordance with the Casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- a. A 7-card Natural Flush pays 100% of the progressive jackpot amount shown on the progressive meter.
- b. A 7-card Wild Straight Flush pays 25% of the progressive jackpot amount shown on the progressive meter.
- c. If the player-dealer hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the player-dealer's hand.
- d. If a player's hand qualifies for a progressive prize, the full amount of the progressive jackpot prize, according to the pay table, will be paid to the player that qualified.
- e. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
- f. In the case of multiple linked tables, winners are paid in the order in which the wins occur.
- g. At the end of the hand, the house dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.

3. All Fixed Prizes at a table will be paid first and all Progressive Prizes will be paid after all Fixed Prizes have been paid.

Funding:

1. All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
2. The Casino will initially seed the jackpot at a minimum of \$1,000, there is no maximum amount. Once there are sufficient monies in the Pai Gow Poker Progressive jackpot fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1,000, there is no maximum amount. At any time, should the amount accumulated in a reserve fund reach \$100,000, then the G3 system will automatically generate an additional reserve fund. The amount of the jackpot fee (\$0.05) designated for the reserve fund, will now be sent to the succeeding reserve fund, until it also reaches \$100,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.

3. Each \$1.00 jackpot fee paid by a player will be broken down as follows
 - a. \$0.80 will be immediately posted on the meter.
 - b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Eligibility & Irregularities:

The prize shall be awarded to a player(s) and/or player-dealer when they have made, and such has been recorded by Casino personnel, the pre-determined and designated qualifying hands as listed above.

1. Only players that have placed the \$1 jackpot collection fee are eligible for an Pai Gow Poker G3 Progressive Jackpot payout.
2. Only players seated at the table are eligible to win. Back-line bettors are not eligible to place a jackpot collection fee nor receive the prize amount for a qualifying hand.
3. A minimum of two players, a player and a player-dealer, must be dealt into the game in order for the table to qualify for the Pai Gow Poker G3 Progressive Jackpot gaming activity.
4. Each player has the option to provide any amount not to exceed \$100 to have a maximum of 100 credits placed on his or her bankroll meter. The amount provided shall be dropped in a separate and locked jackpot collection box affixed to the gaming table.
5. All fixed prizes shall be paid first, and all progressive prizes shall be paid after all fixed prizes have been paid.
6. In the instance of multiple linked tables qualifying for a progressive payout, all winners shall be paid, the amount shown on the LCD monitor, in the order in which the wins occur.
7. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer shall call over a floor person, that holds an access key, and have a receipt printed out for the amount cashed out. The receipt shall be kept in the house dealer's tray for reconciliation purposes at the end of their shift. The house dealer shall then reimburse the player in chips for the amount shown on that player's bankroll meter which shall match the amount on the printed receipt.
8. A player is eligible for a Pai Gow Poker G3 Progressive Jackpot prize payout regardless of whether their hand wins, loses, or ties with the player-dealer's for the controlled game of Pai Gow Poker.
9. A Third Party Provider of Proposition Player Services (TPPPS) is eligible to place a jackpot collection fee and become eligible for the Pai Gow Poker G3 Progressive Jackpot gaming activity when in either the player-dealer or player capacity.

10. Casino employees are eligible to participate at any time.
11. All procedures, times, and prize amounts shall be displayed prominently via any form of advertising that The Commerce Casino wishes to utilize, including but not limited to printed flyers, digital display, the Casino's website, etc.
12. If the house dealer enters the wrong information, authorized personnel must resolve the situation using the Game Server features (see Figure 6 in Appendix 1).
13. If the house dealer makes a mistake while dealing the cards, he should declare the hand a misdeal, and re-deal the cards. Caution: the dealer must not press STOP. Each player's optional jackpot fee will remain the same during the re-dealt hand.

If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. This Config file is mandatory for the EMPIRE/MIKOHN's app to run and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, will be deactivated by an entry in our encrypted XML file. This can only be done by Empire and will be part of all software setups for the card rooms. No other prizes will be awarded to any player except for paychart set forth below
- Additionally, the Empire Mikohn Progressive Cal Jackpot with player betting spots does not use any Random Number Generator (RNG) in its operation.

Empire Mikohn Progressive Cal Jackpot

The jackpot game aide system adds a player funded progressive jackpot element to the games listed above into one jackpot prize pool. The base games listed above that this jackpot will be appended to must be approved by the Bureau to be eligible to add the Empire Mikohn Progressive Cal Jackpot. The progressive prize pool and reserve fund monies of the previously approved G3 Progressive Jackpot (GEGA-004825) will be transferred to the Empire Mikohn Progressive Cal Jackpot gaming activity once approved.

1. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1) on their own hand and/or the player-dealer hand (when applicable). To limit the fee to \$1, Empire will program the software so that the fee amount can only be \$1 for each hand (possible total fee of \$2) by specifying it in the secure setup of the system. This can only be done by Empire, and will be part of all software setups for the California card rooms.
2. Empire Mikohn Progressive Cal Jackpot with Players Betting Station (see Appendix 2) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
3. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Close Bets" on the Dealer Interface (see Appendix 3). This will lock the Empire Mikohn player's betting spots until the house dealer presses the "Open Bets" button. The appropriate amount of money gathered will also be sent to the Empire Mikohn Progressive Cal Jackpot LCD meter sign (see Appendix 4).
4. The house dealer then follows standard approved procedures for dealing the base games, as listed above. After all players and the player-dealer have been dealt their hands, the play of the base games continues per the approved rules of the game.
 - a. For Three Card Poker: the player's or player-dealer's five-card hand consists of their respective 3 personal cards and 2 community cards that the dealer will turn once the main game is resolved;
 - i. As described in the Three Card Poker game rules, the house dealer will give each player three cards face-down as well as three cards (two face-down and one face-up) to the player-dealer. Then, they will deal two community cards (face-down) to the side to only be used for the progressive. Once the round of play has ended and all the base game wagers have been resolved, the house dealer will revealed the two community cards.
 - ii. These two community cards will be used, in combination with each individual's three personal cards to complete the five-card hand to resolve the progressive wagers (three personal cards and two community cards for the "player-dealer's hand").
 - b. For Ultimate Texas Hold'em: the players or player-dealer's five-card hand consists of their respective two hole cards and the first three community cards;
 - i. As described in the Ultimate Texas Hold'em game rules, two cards will be dealt to each player, two to the player-dealer and five cards will be dealt as community cards. Players will then make their play wager (if any), and the "first" three community cards will be revealed (Flop). Player will again make their play wager, the last two community cards will be turned, and final play wager will be placed and the base game can be resolved.

Empire Mikohn Progressive Cal Jackpot

To resolve the progressive wagers, the “Flop” or “first” three community cards will be used in combination with the two personal cards received by each individual to complete the five-card hand qualifying hand (two personal cards and three first community cards for the “player-dealer’s hand”).
- c. For Crazy 4 Poker: the players’ or player-dealer’s five-card hands is entirely based on their respective five-card hand:
 - i. As described in the Crazy 4 Poker game rules, each player, as well as the player-dealer will initially receive five cards. After placing their wagers, the base game will be resolved by forming the best four-card hand from the five-card stack received by the individuals.
 - ii. To resolve the progressive wager, all five cards received by each player will be used, including the player-dealer’s five cards (for the “player-dealer’s hand”).
- d. For Caribbean Stud: the players’ or player-dealer’s five-card hands is entirely based on their respective five-card hand:
 - i. As described in the Caribbean Stud game rules, after the players have placed their base wagers, the house dealer will deal five cards to each player as well as to the player-dealer. After players made their play wager (if any), the bottom card of the player-dealer’s five-card stack (the “hole card”) will be exposed and set the highest five-card poker hand. The house dealer will then proceed to turn over each player’s cards to resolve the base game by forming a five-card poker hand.
 - ii. To resolve the progressive wager, each individual five-card hand will be used, including the player-dealer’s five cards (for the “player-dealer’s hand”).

Object and Summary

With Empire Mikohn Progressive Poker Jackpot player betting spots, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not exceeding \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player can wager on the five community cards (in front of the house dealer) for the progressive jackpot. If the game ends with only three or four community cards in play, a different payout chart (shown below) will be used. A \$1 jackpot fee is equal to one credit on the player's bankroll meter. The credit will be deducted from the player's bankroll meter depending on the hand(s) the player chooses.

- The Empire Mikohn Progressive Poker Jackpot features a software Config file that contains various options that can be activated or not. The Config file can only be accessed and modified by Empire. This Config file is mandatory for the EMPIRE/MIKOHN's app to run and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, will be deactivated by an entry in our encrypted XML file. This can only be done by Empire and will be part of all software setups for the card rooms. No other prizes will be awarded to any player except for paychart set forth below
- Additionally, the Empire Mikohn Progressive Poker Jackpot with player betting spots does not use any Random Number Generator (RNG) in its operation.

Empire Mikohn Progressive Poker Jackpot

The jackpot game aide system adds a player funded progressive jackpot element to the games listed above into one jackpot prize pool. The base games listed above that this jackpot will be appended to must be approved by the Bureau to be eligible to add the Empire Mikohn Progressive Poker Jackpot.

1. To begin each round, players must make their regular poker wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1) on the “dealer” hand (the five community cards). To limit the fee to \$1, Empire will program the software so that the fee amount can only be \$1 for each hand by specifying it in the secure setup of the system. This can only be done by Empire, and will be part of all software setups for the California card rooms.
2. Empire Mikohn Progressive Poker Jackpot with Players Betting Station (see Appendix 2) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the “Dealer” button on the Jackpot Tracking Bet Manager.
3. Once all players have placed their base game wager and jackpot fee, the house dealer will press “Close Bets” on the Dealer Interface (see Appendix 3). This will lock the Empire Mikohn player’s betting spots until the house dealer presses the “Open Bets” button. The appropriate amount of money gathered will also be sent to the Empire Mikohn Progressive Poker Jackpot LCD meter sign (see Appendix 4).
4. The house dealer then follows standard approved procedures for dealing the base games, as listed above. After all players have been dealt their hands, the play of the base games continues per the approved rules of the game.
 - a. For all eligible poker games: Qualifying hands are based on the game’s five community cards.
 - i. Players will need to make their jackpot bet, if they choose, prior to cards being dealt as described in the eligible games. If there is no flop, all jackpot fees will lose.
 - ii. After the first 3 community cards are revealed (flop). If the underlying game is completed, then the Three-Card Outcome Payout Table will determine if there is a winning jackpot hand.
 - iii. If after burning one card and delivering the 4th community cards (turn), the underlying game is completed, the Four-Card Outcome Payout Table will determine if there is a winning jackpot hand.
 - iv. If after burning one card and delivering the 5th and last community card (river), and the base game can be resolved, the Five-Card Outcome Payout Table will come in to play which includes the progressive amounts.
 - v. To resolve the progressive jackpot fee, only the house dealer’s community cards which are three flop cards, river, and turn cards (the board), will be used to determine the progressive jackpot winning hands on the eligible games.

Advertising

Commerce Casino may advertise various names for this gaming activity. Should the Casino advertise a different name, the BGC ID (GEAR-001396) shall be referenced on all advertisements relating to this gaming activity.

Furthermore, all rules and procedures for the gaming activity, including but not limited to the following, shall be prominently displayed in Commerce Casino at all times the gaming activity is being offered for play:

- Prize amount or item
- Eligible games and time periods
- Schedule of when prizes shall be rewarded including if a game goes beyond it's normal stopping point
- Any No Purchase Necessary opportunity
- Any other restrictions that apply to this gaming activity

Eligible Controlled Games

The Sports Squares shall be attached to all Bureau approved California and poker games offered at Commerce Casino at all times the gaming activity is being offered for play. All controlled game rules shall be played as approved by the Bureau.

Object and Summary

During a predetermined and posted sporting event, the Casino will allow players and non-players to put their name in a square on the Sports Square board. The following rules apply depending on which way the promotion is running:

The Sports Square Board

The board will have 100 squares (10 squares by 10 squares). Each row will be numbered vertically and horizontally from 0 to 9. Players or customers can sign up for a square no more than 1.5 hours prior to the start of the sporting event. Squares are issued on a first come, first serve basis. One square, per person will be chosen by the player or customer. One team will be represented by the vertical numbers, and the other team will be represented by the horizontal numbers. These numbers will correspond to the score of the game. The numbers assigned to each square are determined by the point where each vertical and horizontal line intersects on the board. At a predetermined point of the sporting event (quarter, inning, half time, final, etc.), the player or customer who's corresponding numbers of their square match the score at that time will be the winner of the posted prize amount. Only the last digit of each team's score will be applied to the numbers on the board. (A score of 7 to 14 will be compared on the board as 7 to 4).

Sports Ticket

Eligible players and customers will be given a ticket before the start of a televised sporting event. The ticket will have two numbers printed on it, ranging between 0-9. The numbers will have a corresponding Sports team's name, or simply "Home" and "Visitor." At the end of each period of play (Quarter), the player with the same ticket that matches the score of the game wins the pre-designated prize amount. For purposes of determining the correct ticket, only the last digit of the displayed score is counted. (Example: Score is 28-14, this would match the ticket that had 8 and 4 on it.)

Sports Squares

If the game goes beyond its normal stopping point, as in the case of a tie, the promotion will continue and prizes will continue to be awarded in the same manner as they were during the normal regulation time of the sporting event, according to the rules posted for that event. For example, if a football or basketball game has a prize given away at the end of each quarter, and the game goes into overtime, a prize will be given at the end of each quarter played. In a baseball game, if there is a prize given away at the end of every third inning, the same format will be used if the game goes into extra innings. If only two extra innings are played, there is no prize awarded. The rules for the event will state the designated time(s) during the game for which prizes will be awarded. All participants at these events will have an equal chance to win prizes.
