Additionally, a player qualifies for the jackpot element of the game regardless of the outcome of the base game. Also, a player is eligible for the jackpot whether they are in the player-dealer position or simply a player.
3. To begin each round, players must make their regular base game wager. They may optionally place the jackpot fee, which may only be in the amount of \$1.00, which will allow them to be eligible for the Fortune Pai Gow Progressive. A minimum of two (2) players; a player and a player-dealer, are required to play the base game in order for the table to be eligible for the Fortune Pai Gow Poker Progressive.

 - f.  - i. The house dealer shall then contact the floor person.
 - j. Once the casino verifies the progressive win, the floor person shall insert the key and rotate it to "JPH" and then press "J-pot" button. This records the win onto the Game Manager. House procedures are then followed for paying the prize.

RE: “Player’s Club” Attached to Lucky Chances Poker Jackpots (GEGA-000766)

Game Review Unit:

Lucky Chances would like to add a Gaming Activity to our Lucky Chances Poker Jackpot promotion (GEGA-000766), to include a “Players Club” reward program:

Summary

With approval, a “Players Club” will be created for all Lucky Chances Poker Jackpot games. Players may earn points for time played in Poker Jackpot games. These points can be used for any item that has a cash value such as food, gift shop, tournaments, “Cash Back” etc.

Funding

The funding of the Players Club will come from the Poker Jackpot account. A separate liability account will be created to segregate Players Club points earned to the general fund consisting of existing Bad Beat jackpots and Jackpot promotions. This Players Club liability account will be used for redemption of points. Points earned will added to the Players Club account. The Lucky Chances Casino shall cover all shortfalls should the Poker Jackpot reserve fund not have sufficient funds to cover all player redemptions.

Earning of Points

Players will have to sign up to the “Players Club” in order to earn points. Point value be equal \$0.01 per point (100 points equal \$1). For each hour played in a Jackpot game, players can earn 50 to 200 points per hour. The amount a player can earn will be clearly posted throughout the Casino for terms, games and points earned. Points earned will be credited to the account of issued holder and are not transferable to another player. Fractions of hours are calculated by amount of hours and minutes played; for example, at 50 points earned per hour of play, a player that plays for one hour and 12 minutes will earn 60 points. Players shall earn approximately .833333 points per minute played, with fractional points rounded down.

The process of earning points will be as follows:

1. Players swipe in when in the Poker room to sign up for a game
2. When a player enters a Jackpot Poker game, they will be assigned to a table and time started to earn points.
3. When a player is finished playing in a Jackpot Poker game, their time will be stopped
4. Hourly checks will be made by Poker staff for all active, qualified players.

Redemption of Points

Accumulated points earned by qualified players can be used in any sales outlet at Lucky Chances for the value earned to the price charged. Players must produce valid identification at the time of redemption to ensure proper dispensing of points. The following are examples of point redemption value:

Example:

1. Player orders a meal for \$8.99. 899 points will be deducted from their "Players Club" account.
2. Player wants to enter a tournament with a buy in of \$60. 6,000 points will be deducted from their "Players Club" account.

In the event that a player does not have the full amount of points for the item purchased, they may use their available points and combination of cash.

A "Cash Back" option will also be made available for 50% of point value. If a player wishes to utilize the "Cash Back" option, they will receive 50% value to points accumulated. Example: Player has a balance of 100,000 points with a redemption value of \$1,000.00; they may receive "Cash Back" for \$500. The remaining \$500.00 will be reallocated to the Jackpot general fund. The process of redeeming points will be as follows:

1. Players swipe in at a kiosk and enter the amount of points they wish to redeem
2. A redemption slip on the amount requested will be issued to the player
3. The redemption slip will be used at sales outlets in lieu of cash or in combination with cash
4. The minimum value for redemption per calendar day shall be \$5.00 and the maximum shall be \$100.00.

Points may not be given in the form of tips or gratuities.

Expiration of Points

Inactive accounts for 6 months or longer will be closed. Points earned from closed accounts will be reallocated to the general Jackpot fund. Inactive closed accounts may be reopened as a new account with no balance. The terms of expired accounts will be clearly posted in all "Players Club" written material including posters, pamphlets and website.

Object and Summary

The Ultimate Texas Hold'em Progressive considers the best advertised qualifying hand(s) among each individual player's cards. A player may win a progressive or fixed prize by placing an optional \$1 jackpot fee and making one of the predetermined hands listed below. Also, a player who places an optional \$1 jackpot fee qualifies to win an Envy payout.

1. To begin each round, players must make their regular base game wager. They may optionally place any bonus bet wagers along with the jackpot fee of \$1. "Hockey Puck" discs will be attached to the table in front of each betting position. These discs have a sensor and will detect when a casino chip is placed on them. Players must place the optional jackpot fee on the sensor. The sensor will then light up.
2. Once all players place their bets and/or jackpot fee, the house dealer will press "Coin In" on the keypad. The sensors will then light up, indicating participation in the progressive jackpot. The house dealer will then remove all jackpot fees from the table. The jackpot fees shall be dropped into a separate and locked jackpot collection box and accounted for separately.
3. The house dealer then follows standard approved procedures for dealing the base game. The jackpot considers the best hand possible among the player's cards. A player can qualify for the jackpot element of the game regardless of the outcome of the base game.
