

TEXAS HOLD'EM

RULES

1. The goal of Texas Hold'em is to win the pot with the highest ranking five-card poker hand attainable out of the seven (two personal and five community cards) available. Traditional poker hand rankings apply. Additionally, traditional suit ranking apply, with spades being the highest suit and clubs being the lowest suit.
2. **Deck:** The game is played with a standard 52 card deck with no jokers.
3. **Table:** The game shall be played on a standard poker table which accommodates up to ten (10) seated positions.
4. Texas Hold'em uses a flat disc called a dealer button to indicate the position of the deal. The dealer button moves clockwise one seat each hand. The button (player with the dealer button) is last to receive cards on the initial deal and has the right of last-action on all betting rounds except the first.
5. Action is initiated on the first betting round by the player on the immediate left of the big blind. On all subsequent betting rounds the action is begun by the first active player clockwise from the dealer button. Players must post both blinds each round. In a new game, players are dealt cards, with the highest card by suit receiving the dealer button. All blinds are "live", meaning during the first round of betting, the player with a blind has the option of raising the pot when the action reaches them even if there has been no previous raise.
6. There are designated blinds in Texas Hold'em, the small blind and the big blind (two, in the first and second positions to the left of the dealer button). The blinds are considered to be bets, and used to initiate action.
7. Each player receives two down cards as his initial hand followed by a round of betting. Betting during this round will be at the lower table limit. Players may then either release (fold) their hand or they must call the amount of the big blind or raise the amount equal to the big blind.
8. The dealer then burns a card and turns three cards up at once; this is called the "flop." After the flop, there is a second round of betting. Betting during this round will be at the lower table limit. Players may then either release (fold) their hands, check, raise, or call raises.
9. The dealer then burns and turns one card (the fourth card, commonly known as the turn card), followed by another round of betting. Betting during this round will be at the higher table limit. Players may then either release (fold) their hands, check, raise, or call raises.

10. Finally, the dealer will burn and turn the last card (the fifth card, commonly known as the river card), followed by the last betting round. Betting during this round will be at the higher table limit. Players may then either release (fold) their hands, check, raise, or call raises.
11. After all betting has been completed, a player may use any combination of the two cards dealt to them and the five community cards (one in his hand, for from the board, etc.) to determine their best five card hand. The highest ranked five card poker hand wins the pot. In the event of a tie, the pot will be split equally among all winners. If there are an odd number of chips, the odd chips shall be awarded to the player closest to the left of the dealer button.
12. During the first two rounds of betting, the betting will be at the lower limit. During the last two rounds of betting, the betting will be at the higher limit. Example: In a \$3-\$6 game, the small blind is \$1 and the big blind is \$3. During the first two rounds of betting, raises shall be in \$3 increments. During the last two rounds of betting, raises are in \$6 increments. Therefore, whatever the table limits are, that will establish what the lower and higher increments will be for each round of betting. This will apply for limit as well as no-limit games. However, for no-limit games, the increments during each round are the minimum amount that must be placed.
13. There is a maximum of three raises per round of betting, unless play is heads up, in which case there is no limit to the number of raises.

Collection Fees

The collection fees shall be taken from "the pot" after the casino dealer has placed the first three community cards face-up and moved all player bets into the pot. The collection fees are determined based on the number of players seated and participating in the game after the flop.

8. The dealer then burns a card and turns three cards up at once; this is called the "flop." After the flop, there is a second round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the lower table limit.

The collection fees shall be taken from “the pot” after the casino dealer has placed the first three community cards face-up and moved all player bets into the pot. The collection fees are determined based on the number of players seated and participating in the game after the flop.

OMAHA HIGH/LOW SPLIT

RULES

1. The goal of Omaha High/Low Split is to win at least half of the pot with either the highest and/or lowest ranking five-card poker hand attainable out of the nine cards (four personal and five community cards) available. Traditional poker hand rankings apply. Additionally, traditional suit ranking apply, with spades being the highest suit and clubs being the lowest suit.
2. **Deck:** The game is played with a standard 52 card deck with no jokers.
3. **Table:** The game shall be played on a standard poker table which accommodates up to ten (10) seated positions.
4. Omaha High/Low Split uses a flat disc called a dealer button to indicate the position of the deal. The dealer button moves clockwise one seat each hand. The button (player with the dealer button) is last to receive cards on the initial deal and has the right of last-action on all betting rounds except the first.
5. Action is initiated on the first betting round by the player on the immediate left of the big blind. On all subsequent betting rounds the action is begun by the first active player clockwise from the dealer button. Players must post both blinds each round. In a new game, players are dealt cards, with the highest card by suit receiving the dealer button. All blinds are "live", meaning during the first round of betting, the player with a blind has the option of raising the pot when the action reaches them even if there has been no previous raise.
6. There are designated blinds in Omaha High/Low Split, the small blind and the big blind (two, in the first and second positions to the left of the dealer button). The blinds are considered to be bets, and used to initiate action.
7. Each player receives four down cards as his initial hand followed by a round of betting. Players may then either release (fold) their hand or they must call the amount of the big blind which or raise the amount equal to the big blind. Betting during this round will be at the lower table limit.
8. The dealer then burns a card and turns three cards up at once; this is called the "flop." After the flop, there is a second round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the lower table limit.
9. The dealer then burns and turns one card (the fourth card, commonly known as the turn card), followed by another round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the higher table limit.
10. Finally, the dealer will burn and turn the last card (the fifth card, commonly known as the river card), followed by the last betting round. Players may then either release (fold)

their hands, check, raise, or call raises. Betting during this round will be at the higher table limit.

11. After all betting has been completed, a player must use two of the four cards dealt to them and three of the five community cards to make the highest and/or lowest five card hand. However, players do not have to use the same two hole cards and three board cards to make their high and low hands. To qualify for a low poker hand, a player must have an 8 high or better (lower), meaning that the five cards used by the player must rank 8 or lower. Additionally, when determining if a player has a qualifying low hand, straights and flushes do not count against the player's hand; however if the player has a pair or higher in their low hand, the hand does not qualify as a low hand. The lowest possible five-card poker hand is 5-4-3-2-A. When multiple players have qualifying low hands, the lowest hand is determined by comparing the highest card of each players five card hand, with the lowest high card being the winning low hand. *Example: a 7-6-4-3-2 is better than an 8-6-5-3-ace, even though the second hand has the lowest card.* If there is a qualifying low hand, the pot will be divided equally in half, with half of the pot being awarded to the highest five card hand and the other half being awarded to the lowest qualifying hand. If no player has a qualifying low hand, the player with the highest ranking five card poker hand wins the entire pot. Furthermore, a player is eligible to win the high hand as well as the low hand in which they would win the entire pot. In the event of a tie when there is no qualifying low hand, the pot will be split equally among all winners with high hands. In the event of a tie when there is a qualifying low hand, the pot will be divided equally in half, with one half of the pot being split equally among all winners of the high hand and the other half of the pot being split equally among all winners of the low hand. If there are an odd number of chips for all cases, the odd chips shall be awarded to the player closest to the left of the dealer button.
12. During the first two rounds of betting, the betting will be at the lower limit. During the last two rounds of betting, the betting will be at the higher limit. Example: In a \$3-\$6 game, the small blind is \$1 and the big blind is \$3. During the first two rounds of betting, raises shall be in \$3 increments. During the last two rounds of betting, raises are in \$6 increments. Therefore, whatever the table limits are, that will establish what the lower and higher increments will be for each betting round.
13. There is a maximum of three raises per round of betting, unless play is heads up, in which case there is no limit to the number of raises.

Collection Fees

The collection fees shall be taken from "the pot" after the casino dealer has placed the first three community cards face-up and moved all player bets into the pot. The collection fees are determined based on the number of players seated and participating in the game after the flop.

SEVEN CARD STUD

RULES

1. The goal of Seven Card Stud is to win the pot with the highest ranking five-card poker hand attainable out of the seven cards a player holds. Traditional poker hand rankings apply. Additionally, traditional suit ranking apply, with spades being the highest suit and clubs being the lowest suit.
2. **Deck:** The game is played with a standard 52 card deck with no jokers.
3. **Table:** The game shall be played on a standard poker table which accommodates a minimum of two and a maximum of eight players is permitted to play.
4. If there are not enough cards left in the deck for all players, the dealer will deal all the cards except the last card, which is mixed with the burn cards. The dealer then scrambles and cuts these cards, burns again, and delivers the remaining down cards, using the last card if necessary. If there are still not as many cards as players remaining without a card, then the dealer announces to the table that a common card will be used. The dealer will burn a card and turn one card face up in the center of the table. This card plays in everyone's hand. The player who is now high using the community card initiates the action for the last round.
5. In a new game, players are dealt cards, with the highest card by suit receiving the dealer button.
6. Seven Card Stud uses a flat disc called a dealer button to indicate the position of the deal. The dealer button moves clockwise one seat each hand. The button (player with the dealer button) is last to receive cards on the initial deal. Action is initiated on the first betting round by the player with the lowest face up card, decided by the lowest suit. A tie is broken by suit with the lowest suit being forced to bet. On all subsequent betting rounds the action is begun by the player with the highest face-up cards.
7. At the beginning of the game, prior to cards being dealt, all players must post an ante. The antes are considered to be bets, and used to initiate action.
8. Each player receives three cards as his initial hand, with the first two being dealt face down and the third card being dealt face up, starting with the player to the left of the dealer button and continuing clockwise. This is followed by a round of betting. Players may then either release (fold) their hand, raise the pot or they must call raises. Betting during this round will be at the lower table limit.
9. The dealer then deals each player another face up card, starting with the player with the dealer button and moving clockwise. After each player receives their fourth card, there is a second round of betting. Players may then either release

(fold) their hands, check, raise, or call raises. Betting during this round will be at the lower table limit. However, if a player has a pair face up on the board, that player has the option of betting at the lower or higher limit. Whichever limit they choose, the rest of the table will be required to use that limit during that round. The following rounds betting limits will remain unchanged.

10. The dealer then deals each player another face up card, starting with the player with the dealer button and moving clockwise. After each player receives their fifth card, there is a third round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the higher table limit.
11. The dealer then deals each player another face up card, starting with the player with the dealer button and moving clockwise. After each player receives their sixth card, there is a fourth round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the higher table limit.
12. The dealer then deals each player another card, except this card is dealt face down, starting with the player with the dealer button and moving clockwise. After each player receives their seventh and final card, there is a fifth round of betting. Players may then either release (fold) their hands, check, raise, or call raises. Betting during this round will be at the higher table limit.
13. After all betting has been completed; a player may use any five cards in their hand to determine their best five card hand. The highest ranked five card poker hand wins the pot. In the event of a tie, the pot will be split equally among all winners. If there are an odd number of chips, the odd chips shall be awarded to the player closest to the left of the dealer button.
14. During the first two rounds of betting, the betting will be at the lower limit. During the last three rounds of betting, the betting will be at the higher limit. 15. There is a maximum of three raises per round of betting, unless play is heads up, in which case there is no limit to the number of raises.

Collection Fees

The collection fees shall be taken from “the pot” after all players have posted the required antes but prior to the start of any cards being dealt. The collection fees are determined based on the number of players seated and participating in the game when the antes are placed.

PAI-GOW POKER

RULES

1. **Deck:** One traditional deck of 52 playing cards, plus one joker is used.
2. **Joker:** The joker can be used as an Ace, or to complete a straight or a flush.
3. **Table Layout:** Each table has 7 active seats. An 8-seat table may be used with one inactive seat in order to symmetrically accommodate a floor person and another seated player. The inactive seat has the betting spots blocked. The inactive seat rotates clockwise, and is always located immediately to the right of the Player/Dealer.
4. **Betting Spots:** Each seat has 8 betting spots.
5. **Number of Players:** Per Petaluma City Ordinance 4.22.115, there can be no more than 12 players shall be permitted to play at any time at any one table.
6. **Table Limit:** \$10 - \$200 per spot (\$1600 per seat)
7. **Structure:** Each player at the table is dealt seven cards to make two hands, a two-card hand and a five card hand. Rankings are based on basic poker rankings with a royal flush being the highest possible five card hand and a high card hand being the lowest. The five-card hand must be higher than the two-card hand.
8. **Foul Hand:** If the player sets the hands so that the two-card hand is higher than the five-card hand, it is a Foul Hand and automatically is a losing hand. Similarly, if there are not exactly two cards in one hand and five cards in the other hand, it is a foul hand and automatically loses.
9. **Object of Game:** The object of the game is for both of the player's hands to rank higher than both of the Player/Dealer's hands.
 - Should one hand rank exactly the same as the Player/Dealer's hand, this is a tie (copy).
 - The Player/Dealer wins all ties.
 - If the player wins one hand, but loses the other, this is considered a "push" (tie), and no money exchanges hands.
10. **Payoff:** Winning hands are paid even money. Losing hands lose the money wagered.

11. **Player/Dealer (Banker)**

- Any player may be the Player/Dealer (Banker). All players bet against the Bank.
- The bank must rotate in a continuous and systematic fashion. The Bank is offered to each seated player spot in a clockwise fashion. That seated spot may bank for a maximum of two consecutive hands. That player may accept or pass, in which case the Bank is offered to the next player.
- When the banker position passes to the next seat, the player seated in that seated position has the first option. If he refuses the bank, any player betting on that seated position the previous hand is eligible to be the banker for the next hand, in order of the square in which they bet the prior hand.
- There must be an intervening Player/Dealer so that a single player cannot have repeated dealings within the meaning of Oliver V. County of Los Angeles 1998, 66 CAL App4th 1397, 1408-09, in addition to, within the meaning of AB 1416, an act to add to section 330.11 of the Penal Code. If there is no intervening player, the game is closed. The house never participated as a Player/Dealer, nor may the house take a percentage from the game.
- There is no minimum amount that a Player/Dealer must wager, other than the regular table minimum for all players. Player/Dealers are never required to cover all opposing player's wagers.

12. **Misdeals:**

- When the dealer is arranging the cards into piles of seven cards, if one card is exposed and it is not an ace or a joker, the card is set aside, the remaining cards are dealt out as normal and the exposed card is replaced with the top card left over after making seven piles of seven cards.
- If the exposed card is an ace or a joker, the deck is scrambled, shuffled, and re-dealt.
- If during the course of the deal prior to the Player/Dealer hand being opened, if any card(s) of the Player/Dealer hand is exposed by the house dealer, that deal will be declared a misdeal, and all hands reshuffled.
- When the house dealer is distributing the cards, if a card is exposed, that player's hand is dead, and all bets on that seated position are returned.

13. **Specific Rules**

- Once the Player/Dealer exposes his cards, the players cannot touch theirs.
- Players are not allowed to show their hands or talk to the other players about their hands before all cards are exposed.
- If one player is wagering on more than one seat, that player may look at and determined the setting of the first hand only. The remaining hand(s) must be set the “house way”.
- Players and the Player/Dealer must place their bets before the dice cup is opened. No change in bets can occur after that point.
- Only chips placed in the appropriate position on the table constitute a valid bet.
- Each player is responsible for the chips he/she places on the table.
- No side bets are allowed.

14. **Play of the Game**

- Play of the game is as follows: The dealer places seven hands of seven cards each, face down in front of the dealer’s tray. The dealer checks that exactly four cards are left over, and then places those cards in the front of the dealer’s tray. When dealing the seven (7) piles of seven (7) cards, the casino dealer shall deal one card at a time to in front of them until there are seven cards, starting from left to right. Once there are seven (7) cards laid out, the casino dealer shall deal each pile another card, from right to left, giving each pile a total of two (2) cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven (7) cards. The remaining cards shall be placed in the discard pile.
- There are two steps taken to determine which of the seven hands goes to which player. In the first step, the Player/Dealer calls out a number from one to seven, and the Action button is placed on the pile that corresponds to that number. This hand is pushed slightly forward and the preceding hand is turned sideways.
- The Player/Dealer then shakes the dice cup containing three dice; however he doesn’t yet open the cup. The cup is opened by the house dealer, only after all bets are placed in the betting circles.

- The Player/Dealer's position is always 1, 8 or 15. Other seats, in clockwise rotation, represent the other numbers. The dealer counts clockwise from the Player/Dealer's position to locate the seat corresponding to the number on the dice. The pile of cards with the Action button will then be placed in front of the player indicated by the dice. The remaining piles, starting with the pile to the right of the action pile from the house dealer position, will then be distributed clockwise. The Player/Dealer hand is left in front of the house dealer and the dealer button is placed on top of it.
- Each player then arranges his cards into a two-card low and a five-card high hand as described above.
- The dealer does not look at the cards until all players have set their hands in the designated spaces face down. Any hands that are going "house way" will have a "house way" button placed on them.
- The dealer then turns his cards over and sets his hand face up.
- Loosing hands should be turned face down and losing wagers should be placed on top. If the player wins one hand and loses the other, this is considered a "push". No money exchanges hand and the cards are placed in the discard holder.

SUMMARY OF GAME

The object of the game is to assemble two hands with a point value as close to nine as possible. Aces have a value of 1, picture cards have a value of 10, all other cards have their face value. A hand with cards whose sum is ten or higher is ranked with the tens (10s) digit ignored. For example, a hand totaling 18 would be valued simply as 8.

The casino dealer deals two hands of 2 cards each, two cards to the right and two cards to the left one by one in rotation. The hand to the left of the casino dealer is a community hand that belongs to those that placed a bet on the banker line. The banker's is dealt face down. The hand to the right of the casino dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face down. Players have the option to bet on the player's hand, the player-dealer's hand, or tie bet. In addition, if a player placed a wager on the player line or the banker line, that player may place a wager on the Player Dragon Bonus Bet or the Banker Dragon Bonus Bet. Player-dealer and Deal

The player-dealer position rotates in a systematic and continuous way so that the opportunity to act as the player-dealer does not constantly remain with a single person for many hands. The person in player-dealer position may not act as player-dealer position more than two consecutive hands or rounds of play. There must be an intervening player-dealer so that a single player cannot repeatedly act as the player-dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Bureau of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player-dealer position. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as a player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

Dragon Bonus Bet

Each player wagering in the base game of Baccarat has the option of placing a wager within table limits on the designated DB (Dragon Bonus) spot located next to each player's position on the gaming felt layout. The Dragon Bonus Bet may award a bonus payout to the player(s) who receives a hand that meets the requirements, as described below. There will be two circles in front of each player position. One will be labeled "Player Dragon Bonus" and the other will be "Banker Dragon Bonus."

Players have two ways to win:

1. If the hand the wager on (Player or Banker) is a “natural or;
2. If the hand they wager on is a non-natural that wins by four (4) or more points from the losing hand. The higher margin of victory, the higher the payout. If the spread is three (3) points or less, the DB bet loses.
3. Regardless of what hand a player wagered on, a player may wager on the Player Dragon Bonus Bet circle, the Banker Dragon Bonus Bet circle, or both.
4. The Dragon Bonus Bet may less than or equal to the base game wager. However, the bonus bet may not exceed the base game wager or the table limit.
5. There is no collection for the DB bet.
6. The player-dealer will pay all Dragon Bonus Bet wagers and will collect all losing Dragon Bonus Bet wagers. Wagers are collected or paid, to the extent that the player-dealer’s wager covers. Once the player-dealer’s wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Mini Pai Gow

Overview

Mini Pai Gow is basically the traditional Pai Gow Game with

- 6 cards dealt to players and the player/banker instead of seven
- Players may double down after viewing their hand
- An additional Bonus wager

Rules of Play

- A. Each player must make a Mini Pai Gow Poker wager and optionally may make a Mini Pai Gow Aces Bonus wager before the start of the game.
- B. Each player, including the player/banker, will be dealt six (6) cards face down.
- C. The players now set their hands with the best possible five (5) card hand in the back and their second high hand (one card) in the front. Each player simultaneously decides whether to double down or not with a wager equal to the original Mini Pai Gow Poker wager.
- D. The player/banker now sets their hand with the best five (5) card hand in back and the second best hand set in front consisting of only one (1) card.
- E. The original Mini Pai Gow Poker wager always receives action. However, the dealer must qualify with a pair of 5's or higher for the player's double down wager to receive action; otherwise the double down wager is a push.
- F. All original Mini Pai Gow Poker wagers will be settled first, followed by the double down Mini Pai Gow Poker wagers, followed by the Mini Pai Gow Aces Bonus bets. Backline Betting is permitted on all wagers.

Dealing procedures

- A. Mini Pai Gow is played with a standard 52 card deck plus one Joker for a total of 53 cards.
- B. The cards will be shuffled using a shuffling machine
 - a. If the machine is not working the cards will be shuffled in the following way
 - i. Scramble
 - ii. 2 riffles
 - iii. Strip
 - iv. Riffle
 - v. Cut by player/banker
- C. The player/banker will designate which hand they want to be action (the first hand that is delivered out).
- D. Each player must make a Mini Pai Gow Poker wager.
- E. Each player who made a Mini Pai Gow Poker wager may make a Mini Pai Gow Aces Bonus wager up to the posted limit before the cards are dealt.
- F. The dealer will shake a closed dice cup and then present it to the player banker to shake. The player/banker will shake the dice cup and leave it unopened on the table.
- G. The dealer will open the dice cup and deliver the cards starting with the action hand to the seat designated by the dice cup. The player/banker position will

Mini Pai Gow

- always be 1, 9 and 17 and the seats will be counted in clockwise order. For example, if the player/banker is on seat 2 and the total of the dice is 12 the action hand will be delivered 4 spots over from the player/banker seat (seat 6). The remainder of the cards will be delivered in a clockwise fashion with the player/banker hand remaining in front of the dealer tray with a marker on it.
- H. Each player sets their high hand (five cards) and their second high hand (one card) and places them in the appropriate areas. Same foul hand rule applies in Mini Pai Gow as it does in traditional Pai Gow Poker. If the player places a card higher than any of his other five cards and those five cards are of different suits and ranks not equally a straight the players wager is a losing wager. Each player simultaneously decides whether to double down or not with a wager equal to the original Mini Pai Gow Poker wager.
 - I. After all the player hands have been set, the dealer will then turn over the player/banker hand and set the hand according to house way with the highest five (5) card hand in back and the second highest one (1) card hand in the front. The player/banker will then have the option to play the hand a different way or tell the dealer to proceed with house way.
 - J. The dealer will now, in turn, compare his two hands with the player's two hands. If the dealer qualifies for the double down wager with at least a recommended pair of fives (pair of 5s) or higher, the player's double down wager, if made, plays; otherwise, the double down wager is a push. If the double down wager is a push the double down wager will be returned to the player prior to opening the player's hand.
 - a. If the player/banker's two hands beat the player's two hands, the wager is placed on top of the cards and the dealer proceeds to the next hand.
 - b. If the player's two hands beat the player/banker's two hands, the cards are left in front of the wager face up.
 - c. Any other outcome (the player/banker and the player split the two hands) will be a push and the dealer will muck the cards.
 - d. If one hand is identical in rank to the player-dealer's hand, it is a copy hand. The player-dealer wins all copy hands.
 - K. If any of the players receive a hand of that qualifies for a Mini Pai Gow Aces Bonus and they have wagered on the bonus position, they will receive the posted bonus payout. Winning bonus wagers will be paid regardless of the outcome of the Mini Pai Gow wager. The player will receive winning bonus wagers regardless of how they have set their hand. (i.e. splitting 3 Aces, they will still receive the bonus payout for 3 of a Kind). The joker may be used as an ace or to complete a straight, flush, or straight flush hand, but not a Royal Flush.
 - L. After all hands have been opened and compared to the player/banker's hand, the dealer will start reconciling the hands starting with the action hand. The hands will be reconciled in order starting with the Mini Pai Gow base bets and double down bets, then reconciling Mini Pai Gow Aces Bonus bets. The player/dealer will pay all wagers and will collect all losing wagers. Wagers are collected or paid, to the extent that the player/dealer's wager covers. Once the player/dealer's wager has been exhausted, the wagers not covered by the player/dealer will be returned to the players.

Mini Pai Gow

ULTIMATE PAI GOW POKER

Type of Game

Ultimate Pai Gow Poker is a seven card California style game that utilizes a player-dealer position. Players play against the player-dealer who pays and collects back to front seat by seat according to action until the hand is over or the bank money has been depleted.

Object of the Game

The object of the game is for the players to compete against the player-dealer by betting that either the player's hand will win or the banker's hand will win. At the beginning of the game one seven-card hand will be placed out on the table to represent the player and another seven card hand will be placed out on the table to represent the banker. Both hands are opened by the dealer and set house way. The dealer is required to form a two-card hand and a five-card hand for both the player and banker according to the house way strategy. The five-card hand must always rank higher than the two-card hand. Once each of the hands have been set house way the dealer will compare the two hands to determine if the wagers placed on the table win, lose, or push. If the player's side wins both the two-card and five-card hands all player wagers will get paid and all banker wagers will lose. If the banker side wins both the two-card and five-card hands all banker wagers will get paid and all player wagers will lose. All copy/ tie hands lose to the player-dealer and the second hand alone will determine the outcome. If both the two-card and five-card hands result in a tie both the player and banker wagers will lose. Additionally, if the player's or banker's hand has a two-card or five-card copy it cannot win. The hand can only push or lose depending on if the non-copy hand is of higher or lower value. In order to get paid out on a base bet the player must win the two-card and five-card hand.

Example: Both the player and banker two-card hand copies and the banker's five-card hand is better than the player's five-card hand, then the banker wager results in a push and the player wager loses.

Example: Both the player and banker two-card hand copies and the player's five-card hand is better than the banker's five-card hand, then the player wager results in a push and the banker wager loses.

Description of Table Used and Total Number of Seated Positions

The game shall be played on an industry standard semi-circle or bat wing table. The game is played with a minimum of two and a maximum of fourteen players.

Action and Distribution of Cards

The casino dealer will start in seat one and offer the player-dealer position to the player. In the event the player passes, the dealer will continue clockwise until the position is filled.

Shuffler Distribution

Players place their wagers in the designated areas. The player receives the first hand and the banker receives the second hand from the shuffling machine.

Manual Distribution

The casino dealer starts by dealing seven piles of seven cards. When dealing the seven piles of seven cards, the casino dealer shall deal one card at a time to in front of him or herself until there are seven cards, starting from left to right. Once there are seven cards laid out, the casino dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed into the discard pile.

The player-dealer chooses one of the seven piles, and shakes a dice cup containing 3 standard dice. The total of the three dice determines which pile of seven cards will be distributed to the player's position, by counting the pile of cards chosen by the player-dealer position as one and continuing clockwise until the total is reached, the next stack of seven cards in order is the banker's hand.

Dealing Procedures and Round of Play

- Players at a table will place a wager on either the Ultimate Player wager or the Ultimate Banker wager in the designated betting area located on the felt.

- At the beginning of the game one seven-card hand will be placed out on the table to represent the player and another seven-card hand will be placed out on the table to represent the banker. Both hands are opened by the dealer and set house way. The dealer is required to form a two-card hand and a five-card hand for both the player and banker according to the house way strategy. The five-card hand must always rank higher than the two card hand. Once each of the hands have been set house way the dealer will compare the two hands to determine if the wagers placed on the table win, lose, or push.
- The player-dealer will pay and collect all wagers back to front seat by seat according to action until the hand is over or the bank money has been depleted. After all wagers are settled and the cards are collected, the dealer will drop the house collection into the box. The player-dealer button is turned over to read deal #2 and the game starts over again. Once a player has occupied the player-dealer position twice, it will be offered to the next player in a clockwise rotation.

ULTIMATE WAR

Cordova Restaurant and Casino

Type of Game

The game of Ultimate War utilizes a player-dealer position and is a California game. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of the game is to assemble two hands of one card each with the players competing against the player-dealer position.

Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards will be dealt using a multiple deck shoe. A minimum of one deck and a maximum of eight decks shall be used during the play of the game. The deck will be shuffled in between each round of play.

Card Values and Hand Rankings

The rank of the cards used in Ultimate War, for the purpose of determining a winning hand, shall be, in order from the highest to lowest rank: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. The suit of a card shall have no effect on its rank.

Description of Table Used and Total Number of Seated Positions

The game shall be played on either a standard blackjack table that accommodates up to seven players and a player-dealer position for a total of eight seated positions or a standard baccarat table that accommodates up to thirteen players and a player-dealer position for a total of fourteen seated positions. Within each betting area for each seated player, there shall be five separate betting areas specifically designated for five separate wagers; the Player Bet, the Banker Bet, the War Bet, the Ultimate 5 Player Bet, and the Ultimate 5 Banker Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is permitted on all wagers.

Method used to Determine Action and Distribution of Cards

The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. All wagers shall be settled from seat to seat in the following order: all Player Bet wagers, all Banker Bet wagers, all War Bet wagers, all Ultimate 5 Player Bet, and then all Ultimate 5 Banker Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The Player Bet which pays 1 to 1;
- The Banker Bet which pays 1 to 1;

ULTIMATE WAR

Cordova Restaurant and Casino

- The War Bet, which pays according to the pay table below;
- The Ultimate 5 Player Bet, which pays according to the pay table below;
- The Ultimate 5 Banker Bet, which pays according to the pay table below.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left. The hand to the left of the house dealer is a community hand that belongs to those that placed a wager on the Player Bet. The hand to the right of the house dealer is a community hand that belongs to those that placed a wager on the Banker Bet.

The hand that has the highest card value wins. If the both hands have the same value they are considered a tie and the hand "goes to war". When a hand goes to war the house dealer will deal an additional card to the Player Bet hand and the Banker Bet hand to determine the winner. The hand that is dealt the highest card wins. In the event that the hands tie again, the hand will go to war again and the process will repeat until a winner is determined. There is no limit to the amount of times the Player and Banker Bet hands may go to war. The winner is determined by a comparison of the last card given to each player.

How Each Wager Wins, Loses, or Pushes

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

- The player-dealer shall pay all winning Player Bet wagers when the card dealt to the Player's hand is higher than the card dealt to the Banker Bet hand. However, when the Player Bet hand wins with a 5, the Player Bet is not paid and is a push. The Banker's Bet loses and is collected as normal.
- The player-dealer shall collect all losing Player Bet wagers made by players when the Banker Bet hand is higher in value than the Player Bet hand.
- The player-dealer shall pay all winning Banker Bet wagers when the card dealt to the Banker Bet hand is higher than the card dealt to the Player Bet hand. However, when the Banker Bet hand wins with a 5, the Banker Bet is not paid and is a push. The Player Bet loses and is collected as normal.
- The player-dealer shall collect all losing Banker Bet wagers made by players when the Player Bet hand is higher in value than the Banker Bet hand.

Object of the Game

The object of the game is to play to 31. The Player hopes to be dealt a "Natural" which is the Top Ranked Hand. The Players and the Player Dealer add the numerical value of their initial two-cards and compare them against each other. In the event the Player Dealer is dealt a "Natural" the game stops, and the Hands are compared. If the Player is not dealt a two-card thirty-one (31) then the Player will play to Hard thirty-one and if not, then the Player will try to get as close to twenty-one.

The Player's hand is frozen from receiving an additional Draw card when their hand total is between 22 and 30. After the Draw the Player will lose their original wager with a hand value between 22 and 30 and Win on a value of 31 no matter the value of the Player Dealers hand.

- ♣ A Natural consists of an Ace card and a 10-point card when the first two hands are dealt.
- ♣ A "Blackjack X" consists of an Ace/King of Spades.

Game Rules

A standard deck of cards with no Joker is used in the play of the game. The Deck will contain a total of 52-cards. The game can be played with a minimum of one (1) and a maximum of eight (8) decks. All Aces of spade will have an "x" stamped on the card.

The game plays to 31 which can be achieved either on the initial two-card deal by being dealt a standard Ace card along with a 10-point card or by hitting to 31 while trying to avoid landing on a hand that totals between 22 and 30. The best hand is referred to as a "Natural 31" and is accomplished when the player or player-dealer's initial two (2) card hand consists of a standard ace and a ten (10) point card. The second best hand is a two-card hand that consists of an Ace and King suited. If the player is not dealt a two-card hand of thirty-one (31), the player will try to achieve either a hard thirty-one (31), which is the third best hand, or a hand of twenty-one (21), which is the fourth best hand. Both the Player and the Player-Dealer's hand are frozen from taking additional Hit cards when their hand value is between 22 and 30. When exceeding twenty-one, the Player will win on Hard (31) and will lose on any other total, no matter the value of the Player Dealer hand. The Players will have the option to Stand, Split, take Insurance, Double Down, Surrender or Hit provided the Player Dealer is not dealt a two-card 31. A hard hand is any hand that the minimum value is more than 11. Minimum value means there are aces in the hand and using all the aces as 1 instead of 11's the hand is 12 or more, or it would be any hand that if were to receive another 10 would bust over 22.

A hard 31 would be a hand that the player hits a hard 21 and receives a 10. This is the only way that hand could be achieved.

When both the Player and the Player Dealers hand value is between 22 and 30 they are frozen from taking additional Hit cards. When exceeding twenty-one, the Player will win on Hard (31) and will lose on any total between 22 and 30, no matter the value of the Player Dealer hand.

 - c. The player wins if their hand total is closer to thirty-one without totaling a hand between 22 and 30. The Player loses if the Player Dealer is closer. If both the Player and the Player Dealer are dealt a Hand of equal value then the wager is a push.
7. Once the Dealer's hand is concluded the round is over.
8. The Dealer will then compare the bets placed by the Player who is occupying the House position to see if the Player wins, loses, or ties and completes the payoffs. If the Player wins the Dealer will pay the Player with monies from the Player occupying the Player Dealer position.

Rules of Play

Buster Blackjack Bonus Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Buster Blackjack Bonus Bet. A player may only place a Buster Blackjack Bonus Bet if they have also placed a game wager prior to the initial deal. Furthermore, a player may place one bonus bet wager for each base game wager placed if multiple betting circles are utilized.
- Seated players as well as back-line bettors may place a Buster Blackjack Bonus Bet wager.
- The Buster Blackjack Bonus Bet wagers may be less than or equal to, but may not exceed the game wager.
- Once all players have made their decisions regarding their hand, according to the base game rules above, the player-dealer shall reveal their face-down card and complete the hand. The payoff odds vary based on the number of cards in the player-dealer's busted hand. The more cards in the busted hand, the higher the payoff. If the player-dealer's hand busts, all Buster Blackjack Bonus Bet wagers shall be paid according to the posted pay table, as shown below. If the player-dealer does not bust, all Buster Blackjack Bonus Bet wagers shall be collected in rotation to the extent of the money in action. There is no opportunity for the Buster Blackjack Bonus Bet wager to tie as it is dependent on the cards dealt to the player-dealer's hand, not a comparison of cards or hands.
- A Buster Blackjack Bonus Bet wager remains in action regardless of whether the player wins or loses the base game wager. The player-dealer must always complete their hand as long as there are bonus bets in play.
- **The player-dealer shall pay all winning Buster Blackjack Bonus Bet wagers and shall collect all losing Buster Blackjack Bonus Bet wagers.** Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.
- Winning Buster Blackjack Bonus Bet wagers shall be paid according to the table, as shown below.

California Game

The game of Blackjack X utilizes a player-dealer position and is a California game. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

Wagering Limits and Collection Fees

Although the Bureau has approved these collection rates, games offering a zero collection are currently under Bureau review. The Bureau reserves the right to: (1) review the lawfulness of the game of Blackjack X; (2) notify all law enforcement agencies and gambling establishments if further review determines the modified game of Blackjack X to be unlawful; (3) require gambling establishments to cease and desist offering the game of Blackjack X if found to be unlawful; and (4) take action against those gambling establishments that decline to abide by the Bureau's cease and desist notification.

For **schedule options 1 through 15**, the collection fees shall be taken per hand from the player-dealer position based on the total of each wager placed. There is no collection fee taken when a player places a wager, doubles-down, splits cards, surrenders their hand, places an insurance wager, places a Buster Blackjack Bonus Bet wager, or places an Lucky Pair Bonus Bet wager. The collection fees shall be collected and dropped by the casino dealer after each player has placed their wagers but prior to cards being dealt or any round of play being conducted. The collection fees shall be pre-determined and conspicuously posted on each table prior to any cards being dealt or a round of play commencing. Only one collection schedule, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Furthermore, the collection rates may not be calculated as a portion of wagers made or winnings earned. The approved collection fees and schedules for the game of Blackjack X are as shown below:

Ultimate Texas Hold'em (GEGA-004373): For **schedule options 1 through 20**, a collection fee will be taken per hand from the player-dealer position based on the total monetary value of all game wagers and bonus bet wagers that are placed by players prior to cards being dealt, referred to as total action on the table. The total action on the table does not count any additional wagers placed by players after cards are dealt. There will be no collection fee required from a player when placing the Ante, Blind or Trips wagers. The Trips Bonus wager may be less than, equal to, or more than the Ante and Blind wagers as long as they are within table limits. The collection fee shall be collected from the player-dealer and dropped by the house dealer after each player has placed their wagers but prior to cards being dealt or any round of play being conducted.

Collection Procedures

California Games - California games utilize a player-dealer position. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. All controlled game wagers, including bonus bets, are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

- Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed above, shall be used at a gaming table at any one time.
- Collection rates and fees shall be determined prior to the start of play of any hand or round. Rates shall not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table limit.
- The Cordova Casino shall provide ample notice to patrons regarding the collection rates and fees, as well as the procedure for collecting them. Collection fees shall be conspicuously posted on or within view of every gaming table.

Pai Gow Poker with Triple Bonus Bets

Synopsis:

This game uses the traditional Pai Gow Poker game and adds three bonus bets, Ultimate Push, Happy Pai Gow and Double Luck Bonus Bet. The bonus bets have to be placed prior to the hands being played. A player has the option to place an Ultimate Push wager; the wager will win when the player's hand and the player-dealer's hand push. This Ultimate Push Bonus Bet pays 1:1 except when there is a pair of 3's or higher, then it will pay 2:1. In addition, a player has the option to place a Happy Pai Gow wager; the wager will win when the player's hand is a Pai Gow Hand. A "Pai Gow" Hand consists of seven cards that have no pairs and do not make a straight or flush. Finally, a player has the option to place a Double Luck Bet; the wager wins if the player's hand contains one of the hands in the Double Luck Pay Table.

Object of the Game:

The object of the game is for both of the player's two hands to rank higher than both of the player-dealer's two hands by strategically playing the seven-card poker hand with a two card low hand and a five-card poker high hand. Should one hand rank exactly the same as the player-dealer's hand, this is a tie. The player-dealer wins all ties. If the player wins one hand, but loses the other, this is considered a "push", and no money exchanges hands.

Type of Deck Used:

The traditional Pai Gow Poker game uses a total of 52 cards and a Joker. The Joker is used as an Ace or to complete a straight or flush.

Table Layout:

Each table has 7 active seats and 1 inactive seat. An 8-seat table may be used with one inactive seat in order to symmetrically accommodate a floor person and another seated player. The inactive seat has the betting spots blocked. The inactive seat rotates clockwise, and is always located immediately to the right of the player-dealer, from the Dealer's perspective.

Number of Players:

There is no minimum number of players, as long as there is at least one player and one player-dealer.

Ranking of Hands:

Pai Gow Poker is played with a standard fifty-two (52) card deck with one joker, fifty-three (53) cards total. The Joker can only be used as an Ace, or to complete a Straight, Flush, or a Straight Flush.

The highest 5-card hand is Five Aces, and the highest 2-card hand is a Pair of Aces. The PGPQ hand rankings, based on traditional poker rankings, are as follows:

Rank	Combination of Cards
1 st	Five Aces (A-A-A-A-Joker)
2 nd	Royal Flush (10-J-Q-K-A of the same suit)
3 rd	Straight Flush (Five cards, same suit, ranked in order; i.e. 6-7-8-9-10 of hearts)
4 th	Four-of-a-kind (Four cards of the same rank; for example, 5-5-5-5) The highest-ranked cards win should the p/d and player both have a four-of-a-kind
5 th	Full House (Three-of-a-kind and one pair) The highest-ranking three-of-a-kind wins; i.e. K-K-K-7-7 beats a 10-10-10-A-A
6 th	Flush (Five cards, same suit, regardless of ranking; i.e. 5-8-9-Q-K of spades)

Pai Gow Poker with Triple Bonus Bets

7 th	Straight (Five cards of different suits ranked in order)
8 th	Three-of-a-kind (Three cards of the same ranking; for example, Q-Q-Q)
9 th	Two Pair (Two sets of pairs)
10 th	A Pair (Two cards of the same value)
11 th	High Card

Game Rules and Structure:

Each player at the table is dealt seven cards to make two hands, a two-card hand and a five-card hand. Rankings are based on basic poker rankings. The five-card hand must be higher than the two-card hand.

Play of the game is as follows:

- a. The dealer places seven hands of seven cards each, face down in front of the dealer's tray. The dealer checks that exactly four cards are left over, and then places those cards into the dealer's tray.
- b. There are two steps taken to determine which of the seven hands goes to which player. In the first step, the player-dealer calls out a number from one to seven, and the Action button is placed on the pile that corresponds to that number. This hand is pushed slightly forward and the preceding hand is turned sideways.
- c. If a dice cup is used, the player-dealer then shakes the dice cup containing three dice. The cup is opened only by the house dealer, after all bets are placed in the betting circles. If a random number generator is used, the number generated by the random generator will be used.
- d. The player-dealer's position is always 1, 8 or 15. The dealer counts clockwise from the player-dealer's position to locate the seat corresponding to the number on the dice. The pile of cards with the Action button, will then be placed in front of the player indicated by the dice or number generated by the random number generator. The remaining piles will then be distributed clockwise. The player-dealer's hand is left in front of the dealer and the dealer button is placed on top of it.
- e. Each player then arranges their cards into a two-card low and a five-card high hand as described above.
- f. The dealer does not look at the cards until all players have set their hands in the designated spaces face down. Any hands that are going "house way" will have a "house way" button placed on them.
- g. The dealer then turns his cards over and sets his hand face up. Losing hands should be turned face down and losing wagers should be placed on top. If the player wins one hand and loses the other, this is considered a "push". No money exchanges hands and the cards are placed in the discard holder.
- h. If one player is wagering on more than one seat, that player may look at and determine the setting of the first hand only. The remaining hand(s) must be set according to the "house way". Players and the player-dealer must place their bets before the dice cup is opened or the random number generator is finalized. No change in bets can occur after that point. Only chips placed in the appropriate position(s) on the table constitute a valid bet. Each player is responsible for the chips he/she places on the table.

Foul Hand:

If the player sets the hands so that the two-card hand is higher than the five-card hand, it is a Foul Hand and automatically is a losing hand. Similarly, if there are not exactly two cards in one hand and five cards in the other hand, it is a foul hand and automatically loses.

Payoff:

The base Pai Gow game winning hands are paid even money. The payout starts with the person to the left of the player-dealer then continues clockwise. The succession of payoff starts with the base Pai Gow game wager then followed by the Ultimate Push bet, the Happy Pai Gow bet and lastly the Double Luck Bet. All wagers are paid all at once from person to person. Once the player-dealer's money has been exhausted, the wagers that were not covered by the player-dealer will be returned to the players.

Player-dealer (Banker):

Any player may be the player-dealer position. All players bet against the player-dealer. The Bank must rotate in a continuous and systematic fashion. The player-dealer position is offered to each seated player seat in a clockwise fashion. That player may accept or pass, in which case the player-dealer position is offered to the next player. When the player-dealer position passes to the next seat, the player seated in that seated position has the first option. If he/she refuses the player-dealer position, any player betting on that seated position, the previous hand, is eligible to be the player-dealer for the next hand, in order of the betting spot in which they bet the prior hand.

Ultimate Push Bonus Bet:

The Ultimate Push Bet is an optional wager for players. The wager wins when the outcome of the player hand and player-dealer hand results in a push, otherwise the wager loses. The wager pays 1:1 if the hand results in a push and 2:1 when the outcome of the hand is a push with either the player's hand, player-dealer's hand, or both hands containing a pair of 3's or higher in their two-card hand. Both hands will always be set house way to determine the outcome of this bonus wager.

1. Players have the option to bet bonus wagers only. They are not required to place a base bet in order to have a bonus wager.
2. The Ultimate Push Bonus Bet may be less than, equal to, or greater than the base game wager as long as it is within the table limits.
3. The player-dealer will pay all winning bonus bets and will collect all losing bonus bets.
4. In the event the player-dealer's money does not cover the amount wagered by the players, an action button will be used to designate where the payout will begin.

SUMMARY OF GAME

The object of the game is to assemble two hands with a point value as close to nine as possible. Aces have a value of 1, picture cards have a value of 10, all other cards have their face value. A hand with cards whose sum is ten or higher is ranked with the tens (10s) digit ignored. For example, a hand totaling 18 would be valued simply as 8.

The house dealer deals two hands of 2 cards each, two cards to the right and two cards to the left one by one in rotation. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the dealer line. The dealer's first card is dealt face up and the second card is face down. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face up. Players have the option to bet on the player's hand, the player/dealer's hand, or make a tie bet.

Game Rules

1. The object of the game is to form a hand that equals 9 or as close to it as possible
2. The game is played with eight decks of 52 standard cards. There are no Jokers.
3. Cards between 1 and 9 have face value.
4. Picture cards and 10's are counted as 0.
5. Prior to the deal, all players must place a wager in accordance with table limits.
6. Players have the following options when placing their bet:
 - a. Player line which pays 1 to 1 on all wins
 - b. Dealer line which pays 1 to 1 on all wins except 6 which will receive half-pay (1 to 2)
 - c. Tie line which pays 8 to 1 on all push (tie) hands
7. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face up.
8. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the dealer line. The dealer's first card is dealt face up and the second card is face down.
9. The house dealer deals two hands, in rotation, one at a time. The dealer will deal one card face-up to the player, one card face-up to the dealer, and then one card face-up to the player again.
10. The value of each hand is the sum of its cards. The last digit of the sum of a hand that has a value over ten is the deemed value of the hand.
11. *Game Rules For The Player Hand:*
 - a. The player hand must stand when the cards dealt are valued between 6 and 9.
 - b. The player hand must hit when the cards dealt are valued between 0 and 5.
12. The house dealer will deliver additional hit card to player's hand as requested.
13. The dealer will then deal the player/dealer's final card to determine the final value of the player/dealer hand.

14. Game Rules for the Player/Dealer Hand:

- a. If the player stands, then the banker hits on a total of 5 or less.
- b. If the player hits then the banker hits using the following rules:
 - i. If the banks total is 3 then the bank draws a third card unless the players third card was an 8.
 - ii. If the banks total is 4 then the bank draws a third card unless the players third card was a 0, 1, 8, or 9.
 - iii. If the banks total is 5 then the bank draws a third card if the players third card was 4, 5, 6, or 7.
 - iv. If the banks total is 6 then the bank draws a third card if the players third card was a 6 or 7.
- c. This chart also shows if the banker hits (H) or stands (S) according to the rules above:

Banker's Score	Player's Third Card									
	0	1	2	3	4	5	6	7	8	9
7										
6										
5										
4										
3										
2										
1

15. The value of each hand is the sum of its cards. The last digit of the sum of a hand that has a value over ten is the deemed value of the hand.

16. *Natural 8 and 9:* When the first two cards of the player or dealer's hand has a value of 8 or 9, the other hand will not be allowed to draw.

17. Determining Outcomes:

- a. If the player hand is closer to nine, then the player wagers win.
 - b. If the dealer hand is closer to nine then the dealer wagers win. If the dealer hand wins with a total of 6 it will only receive half pay on its wager (1:2).
 - c. If the player and dealer hands are a tie, then the player/dealer will lose all ties to any player that made a tie wager.
 - d. All ties are a push for player wagers and dealer wagers.
18. Backline betting is allowed. Each seat has betting circles for the player line, dealer line, and tie bets.
19. All bets for the base game and tie bet must be between the minimum and maximum table limit.

Player/Dealer and Deal

The player/dealer position rotates in a systematic and continuous way so that the opportunity to act as the player/dealer does not constantly remain with a single person for many hands. The person in player/dealer position may not act as player/dealer

position more than two consecutive hands or rounds of play. There must be an intervening player/dealer so that a single player cannot repeatedly act as the player/dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Bureau of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player/dealer position. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

Player/dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player/dealer wager. The house never participates as a player/dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player/dealer's wager.

Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table limit.
- The Cordova Casino shall provide ample notice to patrons regarding the collection rates and fees, as well as the procedure for collecting them. Collection fees shall be conspicuously posted on or within view of every gaming table.

Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards will be dealt using a multiple deck shoe. A minimum of three decks and a maximum of eight decks will be used during the play of the game. The cards will either be hand shuffled by the dealer or shuffled in a continuous or multi-deck machine shuffler. The cards may also arrive at the table in pre-shuffled packs that are sealed and tamper-proof to be directly inserted into the game. Cards are burned at the beginning of new shoe. Once the cards have been placed in a shoe, the first card exposed is used to determine the number of additional cards that will be burned. Burn values are as follows:

Ace	1
King	10
Queen	10
Jack	10
2-10	Face value

Card Values and Hand Rankings

Cash-In Baccarat

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard blackjack style table that accommodates up to nine players and a player-dealer position for a total of ten seated positions. The game may also be played around a standard bat-wing table, and/or a standard craps table up to 12 feet long that accommodates up to 10 seated players. Within each betting area for each seated player, there shall be five separate betting spaces specifically designated for five separate wagers; the Player line, the Banker line, the Tie Bet, the Tiger 8 Bet, and the Phoenix 7 Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Backline betting is permitted on all wagers.

Dealing Procedures and Round of Play

When money does not cover, the action on payouts will always begin with the player one spot clockwise from the player-dealer's position and continue clockwise. Also, wagers shall be settled from seat to seat in the following order: all Player line wagers, all Banker line wagers, all Tie Bet, all Tiger 8 wagers, and then all Phoenix 7 wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

At the start of a game, a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make his or her wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The Player line, which pays 1 to 1;
- The Banker line, which pays 1 to 1;
- The Tie Bet, which pays 8 to 1;
- The Phoenix 7 Bet, which pays 40 to 1;
- The Tiger 8, which pays 25 to 1;

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the Banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the Player line. The player hand is resolved first and then the banker hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- If there is a Natural on either side, there are no more draws, and the game is settled as is.
- The player hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player hand stands, then the banker hand hits on a total of 5 or less.
- If the player hand hits for a complete hand then the banker hand hits using the following rules:
 - o If the banker hand total is 3, then the banker hand is dealt a third card unless the third card dealt to the player hand was an 8.
 - o If the banker hand total is 4, then the banker hand is dealt a third card unless the third card dealt to the player hand was a 0, 1, 8, or 9.

Cash-In Baccarat

- o If the banker hand total is 5, then the banker hand is dealt a third card if the third card dealt to the player hand was 4, 5, 6, or 7.
- o If the banker hand total is 6, then the banker hand is dealt a third card if the third card dealt to the player hand was a 6 or 7.
- o If the banker hand total is 7, then the banker hand is not dealt a third card regardless of the value of the player third card.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

How Winners are Determined and Paid

- The player-dealer shall pay all winning player line wagers made by players when the player hand is closer to nine than the banker hand.
- The player-dealer shall pay all winning banker line wagers made by players when the banker hand is closer to nine than the player hand. How Winners are Determined and Paid

Once each player has set their hands and the house dealer has set the player-dealer's hand, a series of showdowns begins, with each player comparing their hand against the player-dealer's hand. The following will apply for each possible outcome when determining the winner. The player-dealer will pay and collect all wagers accordingly:

Lucky Pai Gow Poker

- The Pai Gow Poker base game wager wins if the two-card hand and the five-card hand held by the player ranks higher than the player-dealer's two-card hand and the five-card hand. The player-dealer will pay all winning base game wagers.
- The Pai Gow Poker base game wager loses if the two-card hand and the five-card hand held by the player ranks lower than the player-dealer's two-card hand and the five-card hand. The player-dealer will collect all losing base game wagers.
- The Pai Gow Poker base game wager 'pushes' if one of the hands held by the player ranks higher than the player-dealer's hands and the other hand ranks lower than the player-dealer's hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a 'push' and is returned to the player.
- If one hand is identical in rank to the player-dealer's hand, it is a "copy hand." The player-dealer wins all "copy hands."
- The player-dealer will pay all winning Lucky Bonus Bets when the player's hand qualifies according to the chart below.
- The player-dealer will collect all losing Lucky Bonus Bets when the player's hand does not qualify according to the chart below (Payout chart listed below in the "Bonus Bet" section).

Bonus Bet

Lucky Bonus Bet

The Lucky Bonus Bet is an optional bonus bet that complements the game of Pai Gow Poker, as listed above. It is a wager that allows a player to bet that they will be dealt a pre-determined and designated qualifying hand, as described below. There will be a distinctively marked circle on the table in which a player may place the optional bonus bet.

- A player does not have to place a base bet in order to place a Lucky Bonus Bet. Furthermore, the wager must be placed prior to the initial deal.
- Any seated player as well as any backline bettor may place a Lucky Bonus Bet.
- The Lucky Bonus Bet may be less than, equal to, or may exceed the base game wager. However, it may not exceed the table limit.
- The bonus bet takes into account the first seven cards dealt as a player's hand. In the event that the first seven cards dealt to a player that placed a bonus bet is a pre-determined and designated qualifying hand, as described below, the bonus bet will win. The player will then receive a monetary payout based on the bonus hand that the player has received and the paytable, as shown below. Any other combination of the first seven cards dealt, other than the hands described below, will lose.
- The bonus bet may win regardless of the outcome of the base game wager.
- There is no additional collection fee for placing a Lucky Bonus Bet. All collection fees are for the base game only.
- The player-dealer will pay all winning Lucky Bonus bets and will collect all losing Lucky Bonus bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.
- Winning Lucky Bonus bets will be paid according to the table, as shown below.

When dealing the seven piles of seven cards, the house dealer shall deal one card at a time in front of the house dealer position until there are seven cards, starting from left to right. Once there are seven cards laid out, the house dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed in the discard pile.
 - i. The player-dealer then selects one of the seven piles.
 - ii. The action button, which determines the first player to receive first action from the player-dealer, is placed on the selected pile and will be the first hand distributed once the placement of the action button has been determined.

Ace Up Pai Gow Poker

- iii. To determine who receives the action button, the player-dealer shakes a dice cup, which contains three dice, and the numerical total of the three dice determines the position of the action button. The player-dealer's position is always one, eight, and fifteen.
 - iv. Once the first position is determined, the house dealer then distributes the seven piles of cards, starting with the action button and continuing clockwise.
 - v. The player-dealer receives their cards in turn according to the action.
 - vi. All seven piles of cards will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed. The house dealer will then spread the remaining cards to verify there are four cards remaining and placed in the discard pile.
 - b. If a machine shuffler is used, the house dealer will use the shuffle machine to randomly intermix and deliver seven cards to each seat.
 - i. The action button, which determines the first player to receive first action from the player-dealer, is placed on the selected pile and will be the first hand distributed once the placement of the action button has been determined.
 - ii. To determine who receives the action button, the player-dealer shakes a dice cup, which contains three dice, and the numerical total of the three dice determines the position of the action button. The player-dealer's position is always one, eight, and fifteen.
 - iii. Once action is determined, the house dealer will deliver the first seven cards to the action seat and continue clockwise around the table.
 - iv. Each seven-card hand will be distributed by the shuffle machine and placed on the table by the house dealer, one at a time, from the house dealer's left to right, until all seven hands are dealt. The house dealer will then spread the remaining cards to verify there are four cards remaining and placed in the discard pile.
5. The player-dealer's hand will then be exposed and set before the players set their hands.
 - a. If the player-dealer has an ace-high seven-card hand, all player's wagers shall automatically push and any Ace Up Bonus Bets will win.
 - b. If the player-dealer's hand does not contain a seven-card ace-high hand, each player shall then set their hand by arranging the seven cards in to a two-card hand, which is placed in front of the five-card hand, and a five-card hand, which is placed behind the two-card hand.
 - i. The five-card hand must rank higher than the two-card hand, according to the hand rankings, as shown above.
 - ii. The player-dealer has the option to ask the house dealer to set their hand according to the House Way chart.
 - c. Players do not have to set their hand the "House Way", they are free to set the hand in any fashion they choose as long as it is not a foul hand. If a player arranges the two-card hand so it out-ranks the five-card hand, this will be considered a foul and the player will automatically lose their wager.
6. Once the player-dealer's hand is set, each player sets their hands by arranging the seven cards into a two-card hand in front, and a five-card hand in back.
 - a. The five-card hand must rank higher than the two-card hand, according to the hand rankings, as shown above.
 - b. The player-dealer has the option to ask the house dealer to set their hand according to the House Way chart below.
7. Once the player's hands are set, each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or push hands.

Ace Up Pai Gow Poker

8. Each player's five-card hand will be compared to the player-dealer's five-card hand, and each player's two-card hand will be compared to the player-dealer's two-card hand, in turn.
9. Wagers will be settled in a clockwise manner around the table, starting with the player with the Action button.
10. All wagers will be settled from seat to seat (including backline betters) in the following order: the base game wager, then the Lucky Bonus Bet, and then the Ace Up Bonus Bet. However, if the money covers, the house dealer may begin the resolution of wagers in any order. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the respective players.

How Winners are Determined and Paid

Once each player has set their hands and the house dealer has set the player-dealer's hand, each player's hand shall be compared against the player-dealer's hand. The following shall apply for each possible outcome when determining which hand wins, loses, or if there is a push.

1. The base game wager wins if the two-card hand and the five-card hand, held by the player, ranks higher than the player-dealer's two-card hand and five-card hand.
2. The base game wager loses if the two-card hand and the five-card hand held by the player, ranks lower than the player-dealer's two-card hand and five-card hand.
3. The base game wager "pushes" if one of the hands held by the player ranks higher than the player-dealer's corresponding hand, and the player's other hand ranks lower than the player-dealer's corresponding hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a push and is returned to the player.
 - a. The base game wager also "pushes" if the ranking of the player-dealer's shown hand is a seven-card ace-high hand. Neither the player nor the player-dealer wins or loses; the wager is a push and is returned to the player.
4. If either the two-card hand or the five-card hand is identical in rank to the player-dealer's two-card hand or five-card hand, it is a "copy hand." The player-dealer wins all copy hands.
5. The player-dealer will collect losing Lucky Bonus Bets and pays winning Lucky Bonus Bets to the extent of the player-dealer's wager.
6. The cards are collected, shuffled, and a new round begins.

4. If a player's hand wins, the house dealer shall on behalf of the player-dealer:

9. The player-dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as the player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

Bonus Bets

Trips Bonus Bet

The Trips Bonus Bet is an optional bet for the game of Ultimate Texas Hold'em where players are betting that their hand will contain a Three of a Kind or better. The rules are as follows:

- The player combines their hole cards with the five community cards to form a five-card hand of Three of a Kind or better.
- The Trips Bonus Bet must be placed prior to the initial deal.
- Backline betting is permitted on the Trips Bonus Bet.
- See the collection rate schedule for restrictions on the amount that may be wagered and any collection fees taken on the Trips Bonus Bet.
- The Trips Bonus Bet may win or lose regardless of the outcome of the base game wager.
- If the player's hand qualifies for a payout, the player is paid by the player-dealer, according to the table shown below.
- If the player's hand does not qualify for a Trips Bonus Bet payout, the player-dealer collects the Trips Bonus Bet.
- Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Straight Flush	40 to 1
Four of a Kind	30 to 1
Full House	8 to 1
Flush	6 to 1
Straight	5 to 1
Three of a Kind	3 to 1

Bad Beat Bonus Bet

The Bad Beat Bonus Bet is an optional bet for the game of Ultimate Texas Hold'em. Players win if the player and the player-dealer are involved in a bad beat. There are two ways to win:

1. The player has Three of a Kind or better and loses to the player-dealer.
 2. The player beats the player-dealer's hand of Three of a Kind or better, using the player's two cards and the five community cards.
- If the player's hand qualifies for payouts, the player-dealer pays them according to the posted table. If the player's hand does not qualify, the player-dealer takes their wager and moves on to the next player.
 - If the player-dealer and the player have a five-card tie; then the Bad Beat Bonus wager loses as neither the player-dealer nor the player suffered a bad beat.
 - The Bad Beat Bonus Bet must be placed prior to the initial deal.
 - Backline betting is permitted on the Bad Beat Bonus Bet.
 - See the collection rate schedule for restrictions on the amount that may be wagered and any collection fees taken on the Bad Beat Bonus Bet.

Collection Rates Schedule

For **schedule options 1 through 22**, a collection shall be taken per hand from the player-dealer position based on the total monetary value of all Ante wagers, Blind wager, all Trips Bonus Bets, and all Bad Beat Bonus Bets that are initially placed on the table by players prior to cards being dealt, referred to as "Total Table Action". The Total Table Action does not include the Play wager, which is placed by players after cards have been dealt. There will be no collection fee required from a player when placing the Ante wager, the Blind wager, the Play wager, the Trips Bonus Bet, and the Bad Beat Bonus Bet. The Trips Bonus Bet and Bad Beat Bonus Bet may be less than, equal to, or greater than the base game wager, as long as it is within table limits. The collection fees shall be collected from the player-dealer and dropped by the house dealer after all wagers have been placed on the table but prior to cards being dealt or any round of play being conducted.

Minimum wagering limits per spot shall be between \$5 and \$300

Maximum wagering limit per spot shall be \$5,000

Collection Procedures

- California games utilize a player-dealer position. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands.
- All controlled game wagers, including bonus bets, are collected or paid, to the extent that the player-dealer's wager covers.
- Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.
- The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.
- Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed above, shall be used at a gaming table at any one time.

Ultimate Texas Hold'em

- Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table.
- The Casino shall provide ample notice to patrons regarding the collection rates and fees, as well as the procedure for collecting them.
- Collection fees shall be conspicuously posted on or within view of every gaming table.
