Another example, a player buys in during the above mentioned \$2-\$4 promotional time. He buys in for \$40 and receives \$60 in chips (\$20 in bonus chips). An hour later, the player has an emergency at home and has to leave but only has \$15 left in front of him. The Casino will pick up the \$15 as these are still bonus chips. However, The Casino will **not** expect the customer to pay the balance of \$5 on the customer's next visit. Once again, The Casino will incur the losses for these scenarios for the sake of this promotion.

Patrons are awarded match play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a coupon he/she may use it in any of the controlled games listed above. Each coupon will state the specific qualifying game(s) that the voucher may be used on.

“Free Play Chip(s)”

The Casino will offer free play chips having a face value from \$5.00 to \$500.00 per chip. The chips are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The free play chips are initially in the form of a coupon which will be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded free play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a free play coupon he/she shall take the coupon to the cage for verification, logging, and redemption of the free play chip(s) to be used in a live game. The player would then place the free play chip on the gaming table, pay the posted collection (if applicable), and the game would play. If the player wins the hand, he/she would be paid \$10.00 by the person in the player/dealer position just as if he/she had placed a \$10 bet. The free play chip will be collected by the person in the player/dealer position. The player/dealer will then have a key employee verify that the chip has been played. All played free play chips are verified by a key employee. The free play chip is taken to the cage by a key employee, logged, and exchanged for the value listed on the chip. If the player loses the hand, the free play chip is forfeited and will be collected by the casino dealer and dropped in the drop box for accounting purposes. If the player pushes (receives no action), the chip may be played again until the player wins or loses a hand.

8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.

Object and Summary

The Poker Pyramid Promotion is a house funded promotion that awards players, who are participating in an eligible controlled game, and who achieve a qualifying hand, a predetermined and posted prize from the pyramid. A Poker Pyramid board is used to track eligible prizes and eligible qualifying hands. The board consists of two parts: the qualifying hands, which make up the base, and the prizes, which make up the pyramid (see below for an example of a pyramid). There are a total of 36 qualifying hands and a total of 36 prizes.

Poker Pyramid Promotion Procedures:

- The Casino will advertise the eligible game(s) and promotional period for the Poker Pyramid Promotion.
- The Casino will post the Poker Pyramid board prominently near the eligible gaming tables.
 - If more than one game is eligible, the casino will post a Poker Pyramid board for each eligible game.
 - Each eligible game will be independent of any other eligible games.
 - All tables participating in the same eligible game will share the corresponding Poker Pyramid board.
- Staff and surveillance cameras will monitor and maintain the Poker Pyramid board's accuracy, thus ensuring patrons and employees do not tamper with the Poker Pyramid board.

Poker Pyramid Promotion

- Players will participate in the eligible game(s) as a seated player.
 - Backline bettors cannot participate in this promotion.
- If the player achieves an eligible qualifying hand, listed in the base of the Poker Pyramid, a casino representative will confirm the hand.
- Once the hand has been confirmed the player will immediately receive the corresponding prize.
 - Prizes are not determined by the qualifying hand, but rather by the order in which a qualifying hand has been achieved.
- The casino representative will then remove the qualifying hand from the Poker Pyramid board and that qualifying hand will no longer be eligible to receive a prize.
 - The hand will remain ineligible to receive a prize for the remainder of the promotional period.
- The casino representative will also remove the corresponding prize and that prize will no longer be eligible to be won.
 - The prize will be ineligible to be won for the remainder of the promotional period.
- Prizes are awarded in sequence from left to right, one row at a time until the row is empty.
 - An entire row of prizes must be completed before the next row of prizes will be offered.
- After the removal of a prize, the next prize in sequence will be awarded to the next qualifying hand achieved.
 - No specific sequence is required to make the qualifying hands.
- This will continue until there is one prize left (the top of the pyramid) and, therefore, one qualifying hand left on the pyramid base.
