* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.

Do not include supervisors who provide no direct nursing care.

Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).

This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended.

Therefore, in most cases, line 620 should be greater than this calculation.

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.

Do not include supervisors who provide no direct nursing care.

Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).

This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended.

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.

Do not include supervisors who provide no direct nursing care.

Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).

This calculation is the MINIMUM possible number of people employed during the period. It does not include employees who were hired after the period began and left or were discharged before the period ended.

Therefore, in most cases, line 620 should be greater than this calculation.

* Include all employees (RN's, LVN's, Nurse Assistants, technicians, specialists and others) providing direct nursing care.
 Do not include supervisors who provide no direct nursing care.
 Do include supervisors whose duties include some provision of nursing care.

** Total number of people employed can not be less than the number of employees at the beginning of the period, less the number of employees with continuous service for the entire period, plus the number of employees at the end of the period (line 605 - line 630 + line 610).
