CASE NO. CGC-14-542110

FIRST AMENDED COMPLAINT FOR
INJUNCTIVE AND DECLARATORY
RELIEF AND CIVIL PENALTIES

[Miscellaneous Civil Complaint (42)
Proposition 65, Health & Safety Code
Section 25249.5 et seq.]

19 Plaintiff Environmental Research Center hereby alleges:

20 **I**

INTRODUCTION

21 1. Plaintiff Environmental Research Center (hereinafter "Plaintiff" or "ERC") brings this
22 action as a private attorney general enforcer and in the public interest pursuant to Health & Safety
23 Code section 25249.7, subdivision (d). This complaint seeks injunctive and declaratory relief and
24 civil penalties to remedy Defendants Sunfood Corporation and Does 1-100 (hereinafter
25 "SUNFOOD")'s failure to warn consumers that they have been exposed to lead from a number of
26 SUNFOOD's nutritional health products. Lead is a chemical known to the State of California to
27 cause cancer, birth defects and other reproductive harm. Based on the Safe Drinking Water and
28 Toxic Enforcement Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as

1 “Proposition 65,” businesses with ten or more employees must provide a “clear and reasonable
2 warning” prior to exposing persons to these chemicals.

3 **II**

4 **PARTIES**

5 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,
6 helping safeguard the public from health hazards by reducing the use and misuse of hazardous and
7 toxic chemicals, facilitating a safe environment for consumers and employees and encouraging
8 corporate responsibility.

9 3. Defendant SUNFOOD is a business that manufactures, distributes and/or sells
10 nutritional health products that have exposed users to lead in the State of California within the
11 relevant statute of limitations period. These “Covered Products” are:

- 12 a. Sunfood Super Foods Nutrient-Rich Chlorella Tablets
- 13 b. Sunfood Super Foods Green SuperFood Sun Is Shining
- 14 c. Sunfood Single Plantation Maca
- 15 d. Sunfood Super Foods Mangosteen Fruit Powder
- 16 e. Sunfood Super Foods Nutrient-Rich Red Maca Powder
- 17 f. Sunfood Super Foods Nutrient-Rich Maca Powder
- 18 g. Sunfood Super Foods Sacha Jergon
- 19 h. HealthForce Nutritionals HealthForce SuperFoods Spirulina Manna
- 20 i. HealthForce Nutritionals HealthForce SuperFoods Vitamineral Earth v3.2
- 21 j. HealthForce SuperFoods Greener Grasses Alkalizer Version 2.0
- 22 k. SunWarrior Activated Barley
- 23 l. SunWarrior Ormus SuperGreens
- 24 m. HealthForce Nutritionals Nopal Blood Sugar
- 25 n. HealthForce Detox Liver Rescue 4+
- 26 o. HealthForce Nutritionals Fruits Of The Earth Version 2.0
- 27 p. SunWarrior Classic Protein Raw Vegan Vanilla
- 28 q. SunWarrior Protein Raw Vegan Natural
- r. SunWarrior Classic Protein Raw Vegan Chocolate
- s. Sunfood Super Foods Pure Spirulina Crunchies
- t. Sunfood Super Foods Tangy Camu Camu Powder
- u. Sunfood Super Foods Protein Rich Sacha Inchi Powder
- v. Sunfood Super Foods Pure Vanilla Powder
- w. Sunfood Super Foods Sweet Mesquite Powder
- x. Sunfood Super Foods Himalayan Shilajit Powder
- y. Sunfood Super Foods Rice Bran Solubles Tocotrienols
- z. Sunfood Superfoods Chocolate Cacao Powder

1 Enforcement Act of 1986 (Proposition 65): A Summary”. Service of the Notices of Violation
2 and accompanying documents complied with Proposition 65 and its implementing regulations.
3 True and correct copies of these Notices of Violation and associated documents are attached
4 hereto as Exhibit A. More than 60 days have passed since the Notices of Violation were mailed
5 and no public enforcement entity has filed a complaint in this case.

6 9. This Court is the proper venue for the action because the causes of action have arisen in
7 the County of San Francisco where some of the violations of law have occurred. Furthermore, this
8 Court is the proper venue under Code of Civil Procedure section 395.5 and Health & Safety Code
9 section 2524

10 IV

11 STATUTORY BACKGROUND

12 10. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute
13 passed as “Proposition 65” by an overwhelming majority vote of the people in November of 1986.

14 11. The warning requirement of Proposition 65 is contained in Health & Safety Code
15 section 25249.6, which provides:

16 No person in the course of doing business shall knowingly and intentionally expose
17 any individual to a chemical known to the state to cause cancer or reproductive
18 toxicity without first giving clear and reasonable warning to such individual, except
as provided in Section 25249.10.

19 12. Implementing regulations for Proposition 65 define expose as “to cause to ingest,
20 inhale, contact via body surfaces or otherwise come into contact with a listed chemical.” An
21 individual may come into contact with a listed chemical through water, air, food, consumer
22 products and any other environmental exposure as well as occupational exposures.” (Cal. Code
23 Regs., tit. 27, § 25102, subd. (i).)

24 13. In this case, the exposures at issue are caused by consumer products. Implementing
25 regulations for Proposition 65 define a consumer product exposure as “an exposure which results
26 from a person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use
27 of a consumer good, or any exposure that results from receiving a consumer service.” (Cal. Code
28 Regs., tit. 27, § 25602, subd. (b).)

1 14. Whenever a clear and reasonable warning is required under Health & Safety Code
2 section 25249.6, the “method employed to transmit the warning must be reasonably calculated
3 considering the alternative methods available under the circumstances, to make the warning
4 message available prior to exposure.” (Cal. Code Regs., tit. 27, § 25601.) The warning
5 requirement may be satisfied by a warning that appears on a product’s label or other labeling, shelf
6 labeling, signs, a system of signs, public advertising identifying the system and toll-free
7 information services, or any other, system, that provides clear and reasonable warnings. (Cal.
8 Code Regs., tit. 27, § 25603.1, subd. (a)-(d).)

9 15. Proposition 65 establishes a procedure by which the State is to develop a list of
10 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety
11 Code, § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months
12 after the chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)
13 Lead was listed as a chemical known to the State of California to cause developmental toxicity in
14 the fetus and male and female reproductive toxicity on February 27, 1987. Lead was listed as a
15 chemical known to the State of California to cause cancer on October 1, 1992. (Cal. Code Regs.,
16 tit. 27, § 27001.)

17 16. The Maximum Allowable Dose Level for lead as a chemical known to cause
18 developmental toxicity is 0.5 micrograms per day. (Cal. Code Regs., tit. 27, § 25805.) The No
19 Significant Risk Level for lead as a carcinogen is 15 micrograms per day. (Cal. Code Regs., tit.
20 27, § 25705.)

21 17. Proposition 65 may be enforced by any person in the public interest who provides
22 notice sixty days before filing suit to both the violator and designated law enforcement officials.
23 The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed
24 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

25 18. Proposition 65 provides that any person “violating or threatening to violate”
26 Proposition 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, §
27 25249.7, subd. (a).) To “threaten to violate” means “to create a condition in which there is a
28 substantial probability that a violation will occur.” (Health & Safety Code, § 25249.11, subd. (e).)

1 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.
2 (Health & Safety Code, § 25249.7, subd. (b)(1).

3 **V**

4 **STATEMENT OF FACTS**

5 19. SUNFOOD has manufactured, distributed and/or sold the Covered Products
6 containing lead to the State of California. Consumers have been ingesting these products for
7 many years, without any knowledge of their exposure to lead, a very dangerous chemical.

8 20. For many years, SUNFOOD has knowingly and intentionally exposed numerous
9 persons to lead, without providing a Proposition 65 warning. Prior to ERC's Notices of Violation,
10 SUNFOOD failed to provide a warning on the label of the Covered Products. SUNFOOD has at
11 all times relevant hereto been aware that the Covered Products contained lead and that persons
12 using these products have been exposed to the chemical. Nevertheless, SUNFOOD's website
13 represents to the public that it "builds upon the wisdom of traditional and modern natural healing
14 methods from all over the world", that it is committed to providing customers "healthy organic or
15 wild-crafted products", that its "mission statement is to enrich lives and enhance health through
16 the highest quality, nutritious foods", and that it will continue its mission "by scouring the planet
17 for the every best superfoods that are never genetically modified or contaminated with synthetic
18 chemicals." SUNFOOD has been aware of the lead in the Covered Products and has failed to
19 disclose the presence of this chemical to the public, who undoubtedly believed they have been
20 ingesting totally healthy and pure products.

21 21. Both prior and subsequent to ERC's Notices of Violation, SUNFOOD failed to
22 provide consumers of the Covered Products with a clear and reasonable warning that they have
23 been exposed to a chemical known to the State of California to cause cancer, birth defects and
24 other reproductive harm.

25 //
26 //
27 //
28 //

1 **FIRST CAUSE OF ACTION**

2 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear**
3 **and Reasonable Warning under Proposition 65)**

4 22. ERC refers to paragraphs 1-21, inclusive, and incorporates them herein by this
5 reference.

6 23. By committing the acts alleged above, SUNFOOD has, in the course of doing
7 business, knowingly and intentionally exposed users of the Covered Products to lead, a chemical
8 known to the State of California to cause cancer, birth defects and other reproductive harm without
9 first giving clear and reasonable warning to such individuals, within the meaning of Health &
10 Safety Code section 25249.6.

11 24. Said violations render SUNFOOD liable for civil penalties up to \$2,500 per day, for
12 each violation.

13 **SECOND CAUSE OF ACTION**

14 **(Declaratory Relief)**

15 25. ERC refers to paragraphs 1-24, inclusive, and incorporates them herein by this
16 reference.

17 26. There exists an actual controversy relating to the legal rights and duties of the parties,
18 within the meaning of Code of Civil Procedure section 1060, between ERC and SUNFOOD
19 concerning whether SUNFOOD has exposed individuals to a chemical known to the State of
20 California to cause cancer, birth defects and other reproductive harm without providing clear and
21 reasonable warning.

22 **VI**

23 **PRAYER**

24 WHEREFORE ERC prays for relief as follows:

25 1. On the First Cause of Action, for civil penalties for each and every violation according
26 to proof;

27 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,
28 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive

1 orders, or other orders, prohibiting SUNFOOD from exposing persons to lead without providing
2 clear and reasonable warning;

3 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
4 Procedure section 1060 declaring that SUNFOOD has exposed individuals to a chemical known to
5 the State of California to cause, birth defects and other reproductive harm without providing clear
6 and reasonable warning; and

7 4. On all Causes of Action, for reasonable attorneys' fees pursuant to section 1021.5 of the
8 Code of Civil Procedure or the substantial benefit theory;

9 5. For costs of suit herein; and

10 6. For such other relief as the Court may deem just and proper.

**NOTICE OF VIOLATIONS OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center (“ERC”), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC’s Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is an attachment with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Sunfood Corporation

Consumer Products and Listed Chemicals. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. Sunfood Super Foods Nutrient-Rich Chlorella Tablets - Lead
2. Sunfood Super Foods Green SuperFood Sun Is Shining - Lead
3. Sunfood Single Plantation Maca - Lead
4. Sunfood Super Foods Mangosteen Fruit Powder - Lead
5. Sunfood Super Foods Nutrient-Rich Red Maca Powder - Lead
6. Sunfood Super Foods Nutrient-Rich Maca Powder - Lead
7. Sunfood Super Foods Sacha Jergon - Lead
8. HealthForce Nutritionals HealthForce SuperFoods Spirulina Manna - Lead
9. HealthForce Nutritionals HealthForce SuperFoods Vitamineral Earth v3.2 - Lead
10. HealthForce SuperFoods Greener Grasses Alkalizer Version 2.0 - Lead
11. SunWarrior Activated Barley - Lead
12. SunWarrior Ormus SuperGreens - Lead

Exhibit A

13. HealthForce Nutritionals Nopal Blood Sugar - Lead
14. HealthForce Detox Liver Rescue 4+ - Lead
15. HealthForce Nutritionals Fruits Of The Earth Version 2.0 - Lead
16. SunWarrior Classic Protein Raw Vegan Vanilla - Lead
17. SunWarrior Protein Raw Vegan Natural - Lead
18. SunWarrior Classic Protein Raw Vegan Chocolate- Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least January 31, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

Karen A. Evans

CERTIFICATE OF MERIT

Re: Environmental Research Center's Notice of Proposition 65 Violations by Sunfood Corporation

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: January 31, 2014

Karen A. Evans

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On January 31, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President
Sunfood Corporation
1830 Gillespie Way, Suite 101
El Cajon, CA 92020

InCorp Services, Inc.
(Sunfood Corporation’s Registered
Agent for Service of Process)
5716 Corsa Avenue, Suite 110
Westlake Village, CA 91362

On January 31, 2014, I electronically served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General’s website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice> :

Office of the California Attorney General
Prop 65 Enforcement Reporting
1515 Clay Street, Suite 2000
Oakland, CA 94612-0550

On January 31, 2014, I served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on January 31, 2014, in Fort Oglethorpe, Georgia.

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer (“carcinogens”), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at P65Public.Comments@oehha.ca.gov.

**NOTICE OF VIOLATION OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Sunfood Corporation

Consumer Products and Listed Chemicals. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Sunfood Super Foods Pure Spirulina Crunchies - Lead**
- 2. Sunfood Super Foods Protein Rich Sacha Inchi Powder 2.5lb - Lead**
- 3. Sunfood Super Foods Pure Vanilla Powder - Lead**
- 4. Sunfood Super Foods Sweet Mesquite Powder - Lead**
- 5. Sunfood Super Foods Himalayan Shilajit Powder - Lead**
- 6. Sunfood Super Foods Rice Bran Solubles Tocotrienols - Lead**
- 7. Sunfood Superfoods Chocolate Cacao Powder - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

October 17, 2014

Page 2

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least October 17, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violation to my attention at the law office address and telephone number indicated on the letterhead or at rrhoffma@gmail.com.**

Sincerely,

Ryan Hoffman

OEHHA Summary (to Sunfood Corporation and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Sunfood Corporation

I, Ryan Hoffman, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons (the noticed party) with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: October 17, 2014

Ryan Hoffman

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On October 17, 2014, I served the following documents: **NOTICE OF VIOLATION OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it at a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President
Sunfood Corporation
1830 Gillespie Way, Suite 101
El Cajon, CA 92020

InCorp Services, Inc.
(Sunfood Corporation’s Registered Agent
for Service of Process)
Attn: Diane Kalinowski
5716 Corsa Avenue, Suite 110
Westlake Village, CA 91362

Incorp Services, Inc.
(Sunfood Corporation’s Registered Agent
for Service of Process)
2360 Corporate Circle, Suite 400
Henderson, NV 89074

On October 17, 2014, I electronically served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General’s website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice>:

Office of the California Attorney General
Prop 65 Enforcement Reporting
1515 Clay Street, Suite 2000
Oakland, CA 94612-0550

On October 17, 2014, I served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it at a U.S. Postal Service Office with the postage fully prepaid for delivery by First Class Mail.

Executed on October 17, 2014, in Fort Oglethorpe, Georgia.

Tiffany Capehart

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer (“carcinogens”), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
