EDWARD G. WEIL
DEPUTY ATTORNEY GENERAL
OFFICE OF THE ATTORNEY GENERAL
P.O. BOX 70550
OAKLAND CA 94612-0550

Greetings:

This office and the Mateel Environmental Justice Foundation ("Mateel") give you notice that your company has been, is and threatens to be in violation of Cal. Health & Safety Code § 25249.6. Both this office and Mateel are private enforcers of Proposition 65, both may be contacted at the below listed address and telephone number, and I am a responsible individual for both Mateel and this office. The above referenced violations occur when California residents come into contact with tools that are made from, or that incorporate as components, leaded brass. The brass parts on these tools thus contain lead and lead compounds ("lead"), which are chemicals known to cause cancer, birth defects and other reproductive harm. Your company markets these brass-containing hand tools. Some specific examples of the products to which this notice pertains are attached on the Products List. People are exposed to lead at work or elsewhere when they use these tools and their skin comes into contact with the brass. Lead is transferred from the tools to the hands of the people using these products. The lead then enters their bodies when it is absorbed directly through the skin, through mucous membranes, or through cuts and/or abrasions, when they touch their hands to their mouths and other mucous membranes, or when they touch cigarettes or food and then smoke the cigarettes or ingest the food. These exposures thus occur via the dermal absorption, mucous membrane, subcutaneous, inhalation and ingestion routes. Your company did not and does not provide people with clear and reasonable warnings before it exposes them to lead. The above referenced violations have occurred every day since at least April 29, 2008 and will continue every day until the lead is taken out of these products or until warnings are given. These violations are alleged for occupational exposures as well as for consumer and environmental exposures. We do not, however, allege occupational exposure violations as to any brass tools made outside of California, except as to workplaces your company itself maintains in California. Exposures constituting Proposition 65 environmental exposure violations occur both on and off your business property and in each of California's 58 counties.

Cordially,

William Verick

CERTIFICATE OF MERIT

I, William Verick, hereby declare: This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings. I am the attorney for the noticing party. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the person(s) consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 29, 2008

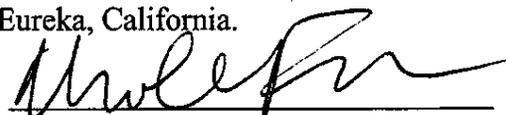

William Verick

This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliances in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.
