PROPOSITION 65 ENFORCEMENT REPORTING
ATTENTION: PROP 65 COORDINATOR
1515 CLAY STREET, SUITE 2000
P.O. BOX 70550
OAKLAND CA 94612-0550

Greetings:

This office and the Mateel Environmental Justice Foundation ("Mateel") give you notice that Northern Tool & Equipment Catalog Company, Inc. and Northern Tool & Equipment Company, Inc. (hereinafter "Northern Tool") has been, is, will be and threatens to be in violation of Cal. Health & Safety Code § 25249.6. Both this office and Mateel are private enforcers of Proposition 65, both may be contacted at the below listed address and telephone number, and I am a responsible individual at both Mateel and this office. The above referenced violations occur when California residents use and/or maintain the sprayers and sprayer accessories (hereinafter collectively, "sprayers") listed on the attached Product List. Northern Tool markets these sprayers, which are manufactured and/or supplied by H.D. Hudson MFG. Co. These sprayers expose people to lead and lead compounds (hereinafter "lead") while those people are physically present within the geographical boundaries of the state of California. These sprayers cause lead exposures when people touch components of these products that are made of leaded brass. Components of these products that are made of leaded brass are: the control valves, the spray wands, the extension assemblies, the connectors, and the nozzles and nozzle assemblies (hereinafter "leaded brass components"). People have to touch these leaded brass components when they hold the spray wand while spraying, when they adjust the spray pattern, and when they maintain or replace the spray wands. Lead is continuously on the surface of the leaded brass components and when people touch the leaded brass components, lead from the components comes off on the hands of these people. Lead is thus transferred from the sprayers to the hands of the people using and/or maintaining these products. The lead then enters their bodies when it is absorbed directly through the skin, through mucous membranes, or through cuts and/or abrasions, when the lead-exposed sprayer-users touch their hands to their mouths and other mucous membranes, or when they touch cigarettes or food and then smoke the cigarettes or ingest the food. These exposures thus occur via the dermal absorption, mucous membrane, subcutaneous, inhalation and ingestion routes. Northern Tool did not and does not provide people with clear and reasonable warnings before it exposes them to lead. The above referenced violations have occurred every day since at least July 29, 2007, and will continue every day until the lead is taken out of these products or until warnings are given. These violations are alleged for occupational exposures as well as for consumer and environmental exposures. We do not, however, allege occupational exposure violations as to any leaded-brass or bronze tools made outside of California, except as to workplaces Northern Tool itself maintains in California. Exposures constituting Proposition 65 environmental exposure violations occur both on and off Northern Tool's properties and in each of California's 58 counties.

Cordially,

William Verick

CERTIFICATE OF MERIT

I, William Verick, hereby declare: This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings. I am the attorney for the noticing party. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the person(s) consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: July 29, 2010

William Verick

This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliances in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.
